

Question ID b46e0c8a

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	

ID: b46e0c8a

While researching a topic, a student has taken the following notes:

- Organisms release cellular material into their environment by shedding substances such as hair or skin.
- The DNA in these substances is known as environmental DNA, or eDNA.
- Researchers collect and analyze eDNA to detect the presence of species that are difficult to observe.
- Geneticist Sara Oyler-McCance’s research team analyzed eDNA in water samples from the Florida Everglades to detect invasive constrictor snake species in the area.
- The study determined a 91% probability of detecting Burmese python eDNA in a given location.

The student wants to present the study to an audience already familiar with environmental DNA. Which choice most effectively uses relevant information from the notes to accomplish this goal?

- Sara Oyler-McCance’s researchers analyzed eDNA in water samples from the Florida Everglades for evidence of invasive constrictor snakes, which are difficult to observe.
- An analysis of eDNA can detect the presence of invasive species that are difficult to observe, such as constrictor snakes.
- Researchers found Burmese python eDNA, or environmental DNA, in water samples; eDNA is the DNA in released cellular materials, such as shed skin cells.
- Sara Oyler-McCance’s researchers analyzed environmental DNA (eDNA)—that is, DNA from cellular materials released by organisms—in water samples from the Florida Everglades.

ID: b46e0c8a Answer

Correct Answer: A

Rationale

Choice A is the best answer. This choice presents the study in a way that assumes the audience is already familiar with eDNA.

Choice B is incorrect. This choice doesn’t present the study. It only states a general fact about eDNA analysis. Choice C is incorrect. This choice isn’t suited for an audience already familiar with eDNA. A familiar audience wouldn’t need to have the term defined or explained. Choice D is incorrect. This choice isn’t suited for an audience already familiar with eDNA. A familiar audience wouldn’t need to have the term defined or explained. It also doesn’t present the study.

Question Difficulty: Medium

Question ID 48d0bb34

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	

ID: 48d0bb34

While researching a topic, a student has taken the following notes:

- Sam Maloof (1916–2009) was an American woodworker and furniture designer.
- He was the son of Lebanese immigrants.
- He received a “genius grant” from the John D. and Catherine T. MacArthur Foundation in 1985.
- The Museum of Fine Arts in Boston, Massachusetts, owns a rocking chair that Maloof made from walnut wood.
- The armrests and the seat of the chair are sleek and contoured, and the back consists of seven spindle-like slats.

The student wants to describe the rocking chair to an audience unfamiliar with Sam Maloof. Which choice most effectively uses relevant information from the notes to accomplish this goal?

- With its sleek, contoured armrests and seat, the walnut rocking chair in Boston’s Museum of Fine Arts is just one piece of A. furniture created by American woodworker Sam Maloof.
- Sam Maloof was born in 1916 and died in 2009, and during his life, he made a chair that you can see if you visit the B. Museum of Fine Arts in Boston.
- Furniture designer Sam Maloof was a recipient of one of the John D. and Catherine T. MacArthur Foundation’s “genius C. grants.”
- D. The rocking chair is made from walnut, and it has been shaped such that its armrests and seat are sleek and contoured.

ID: 48d0bb34 Answer

Correct Answer: A

Rationale

Choice A is the best answer. The sentence effectively describes the rocking chair to an audience unfamiliar with Sam Maloof, noting its sleek, contoured armrests and seat and explaining that Sam Maloof (the walnut chair’s creator) was an American woodworker.

Choice B is incorrect. While the sentence explains who Sam Maloof was and mentions a chair, it doesn’t describe the chair.

Choice C is incorrect. While the sentence explains who Sam Maloof was, it doesn’t describe the rocking chair. Choice D is incorrect. While the sentence describes the rocking chair, it doesn’t explain who Sam Maloof was.

Question Difficulty: Medium

Question ID aa7e10d0

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	

ID: aa7e10d0

While researching a topic, a student has taken the following notes:

- Species belonging to the Orchidaceae (orchid) family can be found in both tropical and temperate environments.
- Orchidaceae species diversity has not been well studied in temperate forests, such as those in Oaxaca, Mexico.
- Arelee Estefanía Muñoz-Hernández led a study to determine how many different Orchidaceae species are present in the forests of Oaxaca.
- Muñoz-Hernández and her team collected orchids each month for a year at a site in Oaxaca.
- Seventy-four Orchidaceae species were present at the site.

The student wants to present the study and its findings. Which choice most effectively uses relevant information from the notes to accomplish this goal?

- A study led by Arelee Estefanía Muñoz-Hernández identified a total of 74 Orchidaceae species in the temperate forests of Oaxaca, Mexico.
- There are orchids in many environments, but there are 74 Orchidaceae species in Oaxaca, Mexico.
- Oaxaca, Mexico, is home to temperate forests containing 74 Orchidaceae species.

- Arelee Estefanía Muñoz-Hernández and her team wanted to know how many different Orchidaceae species are present in the forests of Oaxaca, Mexico, so they conducted a study to collect orchids.

ID: aa7e10d0 Answer

Correct Answer: A

Rationale

Choice A is the best answer. This choice most effectively presents the study and its findings. It opens with the study and names its lead researcher, then tells us its finding: that they identified 74 Orchidaceae species in the temperate forests of Oaxaca, Mexico.

Choice B is incorrect. This choice doesn't include the study's findings, so it fails to achieve the goal. It doesn't mention that there was a study at all. Choice C is incorrect. This choice doesn't present the study, so it fails to achieve the goal. It doesn't mention that there was a study at all. Choice D is incorrect. This choice doesn't include the study's findings, so it fails to achieve the goal.

Question Difficulty: Medium

Question ID a40c7aa3

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Transitions	

ID: a40c7aa3

Most of the planets that have been discovered outside our solar system orbit G-type stars, like our Sun. In 2014, _____ researchers identified a planet orbiting KELT-9, a B-type star more than twice as massive and nearly twice as hot as the Sun. Called KELT-9b, it is one of the hottest planets ever discovered.

Which choice completes the text with the most logical transition?

- A. likewise,
- B. however,
- C. therefore,
- D. for example,

ID: a40c7aa3 Answer

Correct Answer: B

Rationale

Choice B is the best answer. The word “however” logically signals that the information in this sentence about the planet KELT-9b—that it orbits a B-type star—contrasts with the previous information about planets discovered outside our solar system. Most of these planets orbit G-type stars, not B-type stars.

Choice A is incorrect because “likewise” illogically signals that the information about the planet KELT-9b is similar to the previous information about most planets outside our solar system. Instead, it contrasts with that information. Choice C is incorrect because “therefore” illogically signals that the information about the planet KELT-9b is a result of the previous information about most planets outside our solar system. Instead, it contrasts with that information. Choice D is incorrect because “for example” illogically signals that the information about the planet KELT-9b is an example of the previous information about most planets outside our solar system. Instead, it contrasts with that information.

Question Difficulty: Medium

Question ID af89fa02

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Transitions	

ID: af89fa02

The Babylonian king Hammurabi achieved much during his forty-year reign. He conquered all of Mesopotamia and built Babylon into one of the most powerful cities of the ancient world. Today, _____ he is mainly remembered for a code of laws inscribed on a seven-foot-tall block of stone: the Code of Hammurabi.

Which choice completes the text with the most logical transition?

- A. therefore,
- B. likewise,
- C. however,
- D. for instance,

ID: af89fa02 Answer

Correct Answer: C

Rationale

Choice C is the best answer. “However” logically signals that the information in this sentence—that Hammurabi is mainly remembered for just a single achievement, the Code of Hammurabi—is contrary to what might be assumed from the previous information about Hammurabi’s many achievements.

Choice A is incorrect because “therefore” illogically signals that the information in this sentence is a result of the previous information about Hammurabi’s many achievements. Instead, this sentence makes a point that is contrary to what might be assumed from the previous information. Choice B is incorrect because “likewise” illogically signals that the information in this sentence is similar to the previous information about Hammurabi’s many achievements. Instead, this sentence makes a point that is contrary to what might be assumed from the previous information. Choice D is incorrect because “for instance” illogically signals that this sentence exemplifies the previous information about Hammurabi’s many achievements. Instead, this sentence makes a point that is contrary to what might be assumed from the previous information.

Question Difficulty: Medium

Question ID 4c43bf61

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	

ID: 4c43bf61

While researching a topic, a student has taken the following notes:

- The International Center for the Arts of the Americas (ICAA) is directed by Mari Carmen Ramírez.
- Ramírez oversaw an initiative to create an online archive of historical documents related to the history of Latin American and Latino visual art.
- The ICAA digitized over 10,000 documents, including the writings of Latin American and Latino artists and critics.
- The creation of the archive didn’t require historical documents to be removed from their countries of origin.
- Scholars now have more access to these documents.

The student wants to explain an advantage of the ICAA’s archive being digital. Which choice most effectively uses relevant information from the notes to accomplish this goal?

- A. Over 10,000 documents related to the history of Latin American and Latino visual art are part of the ICAA archive.
By offering online versions of historical documents, the ICAA’s archive provides more access to these materials without removing them from their countries of origin.
- B. Among the historical documents in the ICAA’s archive are the writings of Latin American and Latino artists and critics.
The ICAA’s director, Mari Carmen Ramírez, oversaw the creation of an online archive of historical documents related to Latin American and Latino visual art.

ID: 4c43bf61 Answer

Correct Answer: B

Rationale

Choice B is the best answer. The sentence explains an advantage of the ICAA’s archive being digital, noting that the archive provides more access to historical documents since they don’t have to be removed from their countries of origin.

Choice A is incorrect. The sentence emphasizes the number of documents in the ICAA archive; it doesn’t explain an advantage of the archive being digital. Choice C is incorrect. The sentence notes the types of historical documents the ICAA’s archive contains; it doesn’t explain an advantage of the archive being digital. Choice D is incorrect. The sentence identifies who oversaw the creation of the ICAA’s online archive; it doesn’t explain an advantage of the archive being digital.

Question Difficulty: Medium

Question ID d9dad012

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Transitions	

ID: d9dad012

The Inca of South America used intricately knotted string devices called quipus to record countable information, like population data and payments. _____ they may have used quipus to record more complex information, like stories and myths, according to researchers.

Which choice completes the text with the most logical transition?

- A. As a result,
- B. In other words,
- C. In addition,
- D. For example,

ID: d9dad012 Answer

Correct Answer: C

Rationale

Choice C is the best answer. "In addition" logically signals that the claim in this sentence—that the Inca of South America may have used quipus to record more complex information—is an additional point related to the previous statement about the Inca using quipus to record countable information.

Choice A is incorrect because "as a result" illogically signals that the claim in the sentence is a consequence or result of the previous statement about the Incas using quipus to record countable information. Instead, the possibility that the Inca used quipus to record more complex information is an additional point about how the quipus were used. Choice B is incorrect because "in other words" illogically signals that the claim in the sentence is merely a paraphrase or restatement of the previous statement about the Incas using quipus to record countable information. Instead, the possibility that the Inca used quipus to record more complex information is an additional point about how the quipus were used. Choice D is incorrect because "for example" illogically signals that the claim in the sentence exemplifies the previous statement about the Incas using quipus to record countable information. Instead, the possibility that the Inca used quipus to record more complex information is an additional point about how the quipus were used.

Question Difficulty: Medium

Question ID 601b9d18

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Transitions	

ID: 601b9d18

Some members of the US Supreme Court have resisted calls to televise the court’s oral arguments, concerned that the participants would be tempted to perform for the cameras (and thus lower the quality of the discourse). _____ the justices worry that most viewers would not even watch the full deliberations, only short clips that could be misinterpreted and mischaracterized.

Which choice completes the text with the most logical transition?

- A. However,
- B. Additionally,
- C. In comparison,
- D. For example,

ID: 601b9d18 Answer

Correct Answer: B

Rationale

Choice B is the best answer. “Additionally” logically signals that the claim in this sentence—that some Supreme Court justices worry that viewers (of televised court arguments) would watch only short, misleading clips—adds to the information in the previous sentence. Specifically, the previous sentence indicates one concern raised by those opposed to televising the court’s oral arguments, and the claim that follows indicates a second, additional concern.

Choice A is incorrect because “however” illogically signals that the claim in this sentence contrasts with the information in the previous sentence. Instead, the claim adds to the information, indicating a second, additional concern that some Supreme Court justices have about televising the court’s arguments. Choice C is incorrect because “in comparison” illogically signals that the claim in this sentence is being compared to the information in the previous sentence. Instead, the claim adds to the information, indicating a second, additional concern that some Supreme Court justices have about televising the court’s arguments. Choice D is incorrect because “for example” illogically signals that the claim in this sentence exemplifies the information in the previous sentence. Instead, the claim adds to the information, indicating a second, additional concern that some Supreme Court justices have about televising the court’s arguments.

Question Difficulty: Medium

Question ID 60917233

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Transitions	

ID: 60917233

In the 1880s, inventor Lewis Latimer improved upon Thomas Edison’s design for the electric light bulb. _____ Latimer made the light bulb more durable by placing cardboard around its carbon filament. With this innovation, Latimer became the first Black inventor to contribute to the electrification of the world.

Which choice completes the text with the most logical transition?

- A. Soon,
- B. Regardless,
- C. However,
- D. Specifically,

ID: 60917233 Answer

Correct Answer: D

Rationale

Choice D is the best answer. "Specifically" logically signals that the information in this sentence—Latimer making the light bulb more durable—provides a specific detail elaborating on the more general claim in the previous sentence that Latimer improved the light bulb.

Choice A is incorrect because "soon" illogically signals that the information in this sentence occurred shortly after Latimer improved the light bulb. Instead, Latimer making the bulb more durable was the specific improvement. Choice B is incorrect because "regardless" illogically signals that the information in this sentence is true despite the previous claim about Latimer. Instead, the information about Latimer making the bulb more durable provides a specific detail elaborating on that claim. Choice C is incorrect because "however" illogically signals that the information in this sentence contrasts with the previous claim about Latimer. Instead, the information about Latimer making the bulb more durable provides a specific detail elaborating on that claim.

Question Difficulty: Medium

Question ID ec3d7605

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Transitions	

ID: ec3d7605

Award-winning travel writer Linda Watanabe McFerrin considers the background research she conducts on destinations featured in her travel books to be its own reward. _____ McFerrin admits to finding the research phase of her work just as fascinating and engaging as exploring a location in person.

Which choice completes the text with the most logical transition?

- A. By contrast,
- B. Likewise,
- C. Besides,
- D. In fact,

ID: ec3d7605 Answer

Correct Answer: D

Rationale

Choice D is the best answer. “In fact” logically signals that the information in this sentence—that McFerrin finds the research phase of her work to be just as fascinating as travel—emphasizes and elaborates on the previous sentence’s point that McFerrin regards background research as a rewarding activity.

Choice A is incorrect because “by contrast” illogically signals that the information in this sentence contrasts with the previous sentence’s point about McFerrin’s attitude toward background research. Instead, it emphasizes and elaborates on that point. Choice B is incorrect because “likewise” illogically signals that this sentence merely adds a second, similar point to the previous sentence’s point about McFerrin’s attitude toward background research. Instead, it emphasizes and elaborates on that point. Choice C is incorrect because “besides” illogically signals that this sentence provides a separate point in addition to, or apart from, the previous sentence’s point about McFerrin’s attitude toward background research. Instead, it emphasizes and elaborates on that point.

Question Difficulty: Medium

Question ID a819d8b6

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Transitions	

ID: a819d8b6

In 1873, Spanish scientist Santiago Ramón y Cajal observed that brain fibers have distinct boundaries with clear end points, a finding that went against earlier assumptions about the brain. _____ scientists had assumed that the brain was a continuous web of fused fibers, not a vast network of distinct, individual cells.

Which choice completes the text with the most logical transition?

- A. However,
- B. Previously,
- C. As a result,
- D. Likewise,

ID: a819d8b6 Answer

Correct Answer: B

Rationale

Choice B is the best answer. “Previously” logically signals that the fused fiber theory came before Ramón y Cajal’s discovery.

Choice A is incorrect. “However” illogically signals that the fused fiber theory in this sentence contrasts with the information in the previous sentence. While this theory does contrast with Ramón y Cajal’s discovery, the previous sentence concludes by stating that his discovery went against prior assumptions about the brain. The fact that the fused fiber theory was one of those earlier assumptions makes “however” an illogical choice. Choice C is incorrect because “as a result” illogically signals that the fused fiber theory in this sentence was a result of the discovery in the previous sentence. Instead, the fused fiber theory came before Ramón y Cajal’s discovery. Choice D is incorrect because “likewise” illogically signals that the fused fiber theory in this sentence was similar to the discovery in the previous sentence. Instead, the fused fiber theory, which came before Ramón y Cajal’s discovery, was very different from it.

Question Difficulty: Medium

Question ID 84e108cf

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	

ID: 84e108cf

While researching a topic, a student has taken the following notes:

- Platinum is a rare and expensive metal. It is used as a catalyst for chemical reactions.
- Platinum catalysts typically require a large amount of platinum to be effective.
- Researcher Jianbo Tang and his colleagues created a platinum catalyst that combines platinum with liquid gallium. Their catalyst was highly effective and required only trace amounts of platinum (0.0001% of the atoms in the mixture).

The student wants to explain an advantage of the new platinum catalyst developed by Jianbo Tang and his colleagues. Which choice most effectively uses relevant information from the notes to accomplish this goal?

- Researcher Jianbo Tang and his colleagues created a platinum catalyst that combines platinum, a rare and expensive metal, with liquid gallium.
- Like other platinum catalysts, the new platinum catalyst requires a particular amount of the metal to be effective.
- Platinum is a rare and expensive metal that is used as a catalyst for chemical reactions; however, platinum catalysts typically require a large amount of platinum to be effective.
- While still highly effective, the new platinum catalyst requires far less of the rare and expensive metal than do other platinum catalysts.

ID: 84e108cf Answer

Correct Answer: D

Rationale

Choice D is the best answer. The sentence explains an advantage of Tang and his colleagues’ platinum catalyst, noting that it requires far less platinum (which is rare and expensive) than other platinum catalysts do.

Choice A is incorrect. The sentence describes the platinum catalyst that Tang and his colleagues created; it doesn’t explain an advantage of their platinum catalyst. Choice B is incorrect. The sentence emphasizes a similarity between the new platinum catalyst and other platinum catalysts; it doesn’t explain an advantage of the new platinum catalyst. Choice C is incorrect. The sentence connects the metal platinum to the functioning of platinum catalysts, noting that large amounts of platinum are typically required for platinum catalysts to be effective; it doesn’t explain an advantage of Tang and his colleagues’ platinum catalyst.

Question Difficulty: Medium

Question ID 326017ce

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Transitions	

ID: 326017ce

For years, biologists have experimented with using grime-eating bacteria rather than harsh chemicals to clean artworks, and results have been impressive overall. _____ these bacterial strains—which can metabolize centuries’ worth of oil, glue, dirt, and other surface impurities without creating harmful byproducts—have proven more effective than traditional chemical cleaning methods.

Which choice completes the text with the most logical transition?

- A. However,
- B. In many cases,
- C. As a result,
- D. Additionally,

ID: 326017ce Answer

Correct Answer: B

Rationale

Choice B is the best answer. The first sentence makes the claim that using grime-eating bacteria has led to “impressive results.” This sentence supports that claim by describing the specific findings of the biologists’ experimentation. The transition “in many cases” fits the context perfectly.

Choice A is incorrect. This choice uses a disagreement transition. But this sentence actually agrees with the previous sentence. Both claim that grime-eating bacteria are better at cleaning artworks than chemicals. Choice C is incorrect. This choice uses a cause-and-effect transition, which doesn’t make sense in context. The fact that the results of the experimentation have been impressive overall doesn’t cause the bacteria to have proven more effective. Choice D is incorrect. This choice uses a transition that indicates the addition of a new idea. But this sentence doesn’t introduce a new idea. Instead, it elaborates on the same idea laid out in the previous sentence by describing the “impressive results” in more detail.

Question Difficulty: Medium

Question ID 441f0505

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	

ID: 441f0505

While researching a topic, a student has taken the following notes:

- A lever is a simple machine consisting of a rigid beam and a fulcrum.
- The fulcrum is the point about which the beam pivots. The input force (effort) is the force applied to the lever.
- The output force (load) is the force that the lever exerts on another object.
- In first-class levers, the fulcrum is located between the effort and the load.
- In second-class levers, the load is located between the effort and the fulcrum.

The student wants to contrast first-class levers and second-class levers. Which choice most effectively uses relevant information from the notes to accomplish this goal?

- In levers, the effort is the force applied to the lever; the load, in contrast, is the force that the lever exerts on another A. object.
- B. In first-class and second-class levers, the fulcrum and the load are in different locations.
- First-class levers are simple machines consisting of a rigid beam and a fulcrum, but then again, the same is true of C. second-class levers.
- In first-class levers, the fulcrum is located between the effort and the load, but in second-class levers, the load is located D. between the effort and the fulcrum.

ID: 441f0505 Answer

Correct Answer: D

Rationale

Choice D is the best answer. The sentence contrasts first-class levers and second-class levers, explaining that the fulcrum in a first-class lever is between the effort and the load, whereas in a second-class lever the load is between the effort and the fulcrum.

Choice A is incorrect. The sentence defines two terms associated with levers; it doesn't contrast first-class levers and second-class levers. Choice B is incorrect. While the sentence seems to acknowledge a general difference in fulcrum and load locations between first-class and second-class levers, it does not specify what this difference is. Moreover, the sentence could be read as emphasizing a similarity—that in both types of levers, the fulcrum and load are in different locations. The sentence thus fails to effectively contrast the two types of levers. Choice C is incorrect. The sentence describes a similarity between first-class and second-class levers; it doesn't contrast them.

Question Difficulty: Medium

Question ID 4b99b481

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	

ID: 4b99b481

While researching a topic, a student has taken the following notes:

- Scientists have developed a “freeze-thaw” battery that can retain 92% of its charge after twelve weeks.
- The battery contains molten salt (a type of salt that liquifies when heated and solidifies at room temperature).
- When the salt is in a liquid state, energy flows through the battery.
- When the salt is in a solid state, energy stops flowing and is stored in the battery.
- The stored (frozen) energy can be used by reheating (thawing) the battery.

The student wants to specify how the salt enables energy storage. Which choice most effectively uses relevant information from the notes to accomplish this goal?

- Scientists have developed a freeze-thaw battery that contains molten salt, which liquifies when heated and solidifies at A. room temperature.
- B. The stored energy in a freeze-thaw battery, which contains molten salt, can be used by reheating the battery.
- When the molten salt in a freeze-thaw battery solidifies at room temperature, energy stops flowing and can be stored in C. the battery.
- D. Molten salt allows a freeze-thaw battery to retain 92% of its charge after twelve weeks.

ID: 4b99b481 Answer

Correct Answer: C

Rationale

Choice C is the best answer. The sentence specifies how the salt in a freeze-thaw battery enables energy storage, explaining that energy stops flowing and can be stored when the salt solidifies at room temperature.

Choice A is incorrect. The sentence explains some properties of molten salt; it doesn’t specify how that salt enables energy storage. Choice B is incorrect. The sentence indicates how the energy in a freeze-thaw battery can be released; it doesn’t specify how the salt in the battery enables energy storage. Choice D is incorrect. The sentence specifies how much charge the freeze-thaw battery retains when storing energy; it doesn’t specify how the salt in the battery enables energy storage.

Question Difficulty: Medium

Question ID 221ecf0f

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Transitions	

ID: 221ecf0f

Alexander Lawrence Posey (1873–1908) varied his focus and tone depending on the genre in which he was writing. In his poetry, he used heartfelt language to evoke the beauty and peacefulness of his natural surroundings; in his journalism, _____ he employed humor and satire to comment on political issues affecting his Muskogee Creek community.

Which choice completes the text with the most logical transition?

- A. that is,
- B. granted,
- C. similarly,
- D. by contrast,

ID: 221ecf0f Answer

Correct Answer: D

Rationale

Choice D is the best answer. This sentence compares two examples of Posey’s tone: the “heartfelt language” he used in his poetry versus the “humor and satire” he used in his journalism. We know from these descriptions and from the claim in the previous sentence that the two tones are very different from each other. So the transition “by contrast” fits the context perfectly.

Choice A is incorrect. This choice uses a transition that indicates a restatement of the same idea in other words. But the text isn’t restating the first example here. Instead, it’s offering a second, totally different example. Choice B is incorrect. This choice uses a transition that means “admittedly.” But the text isn’t admitting or conceding anything here. Instead, these two examples work together to support the claim made in the first sentence. Choice C is incorrect. This choice uses a transition that indicates the addition of an agreeing idea. But these two examples are intentionally very different from each other, so “similarly” doesn’t make sense here.

Question Difficulty: Medium

Question ID 97e2e364

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Transitions	

ID: 97e2e364

Okot p’Bitek’s poem *Song of Lawino* (1966) explores postcolonial Ugandan life through the eyes of a woman living in a rural village. With its vibrant imagery, biting satiric tone, and dexterous use of traditional Acholi song and phraseology, the poem inspired a generation of East African writers. _____ those who adopted its style are often referred to as Okot School poets.

Which choice completes the text with the most logical transition?

- A. Nevertheless,
- B. Fittingly,
- C. By comparison,
- D. Instead,

ID: 97e2e364 Answer

Correct Answer: B

Rationale

Choice B is the best answer. “Fittingly” is a transition that means “appropriately” or “suitably,” and it is appropriate that writers who adopted their style from Okot p’Bitek would be known as the Okot School poets.

Choice A is incorrect. This choice uses a disagreement transition. But this sentence is not disagreeing with anything—rather, it’s discussing how it makes sense for those writers who adopted Okot’s style to be known as the Okot School poets. Choice C is incorrect. This choice uses a transition that compares two ideas. But this sentence is not comparing the Okot School poets and their style to Okot’s style. Choice D is incorrect. This choice uses a disagreement transition. But this sentence is not disagreeing with anything—rather, it’s discussing how it makes sense for those writers who adopted Okot’s style to be known as the Okot School poets.

Question Difficulty: Medium

Question ID 883493d5

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	

ID: 883493d5

While researching a topic, a student has taken the following notes:

- Allan Houser was a Chiricahua Warm Springs Apache sculptor, illustrator, and painter.
- Many of his sculptures featured Native American figures.
- He depicted this subject matter using abstract, modernist forms, developing a distinctive style that influenced many other artists.
- His well-known sculpture *Sacred Rain Arrow* was pictured on the State of Oklahoma license plate.

The student wants to describe the distinctive style of Houser’s sculptures. Which choice most effectively uses relevant information from the notes to accomplish this goal?

- A. A sculptor, illustrator, and painter, Houser developed a distinctive style for portraying Native American figures.
- B. Houser’s sculptures employ abstract, modernist forms to depict Native American figures.
- C. Many other artists have been influenced by the style of Houser’s sculptures.
- D. The sculpture *Sacred Rain Arrow* is a well-known example of Houser’s style.

ID: 883493d5 Answer

Correct Answer: B

Rationale

Choice B is the best answer. The sentence describes the distinctive style of Houser’s sculptures, explaining that the sculptures use abstract, modernist forms to depict Native American figures.

Choice A is incorrect. While the sentence indicates that Houser developed a distinctive style for portraying Native American figures, it doesn’t describe this style. Choice C is incorrect. While the sentence states that other artists have been influenced by the style of Houser’s sculptures, it doesn’t describe this style. Choice D is incorrect. While the sentence mentions the name of a sculpture that’s a well-known example of Houser’s style, it doesn’t describe the sculpture’s style.

Question Difficulty: Medium

Question ID 11df9b99

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Transitions	

ID: 11df9b99

Because an achiral molecule is symmetrical, flipping it yields a structurally identical molecule. A flipped chiral molecule, _____ can be compared to a glove that has been turned inside out: it produces a structurally inverted molecule rather than an identical one.

Which choice completes the text with the most logical transition?

- A. in other words,
- B. by contrast,
- C. for example,
- D. similarly,

ID: 11df9b99 Answer

Correct Answer: B

Rationale

Choice B is the best answer. This sentence compares a chiral molecule to an achiral one. It discusses how when a chiral molecule is flipped, it results in something very different than when an achiral molecule is flipped. So the transition "by contrast" fits the context perfectly.

Choice A is incorrect. This choice uses a transition that indicates a restatement of the same idea in different words. But this sentence doesn't restate the same idea as the previous sentence. Instead, it makes a new point about a different type of molecule (chiral instead of achiral). Choice C is incorrect. This choice uses a transition that introduces an example, which doesn't make sense here. The second sentence isn't an example of the first sentence's claim about achiral molecules: it actually introduces an entirely different idea that focuses on chiral molecules. Choice D is incorrect. This choice uses a transition that indicates the addition of an agreeing idea. But this sentence shows a contrast with the first sentence—namely, that a chiral molecule acts very differently from an achiral molecule when flipped.

Question Difficulty: Medium

Question ID 2bf05ae9

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	

ID: 2bf05ae9

While researching a topic, a student has taken the following notes:

- In the midst of the US Civil War, Susie Taylor escaped slavery and fled to Union-army-occupied St. Simons Island off the Georgia coast.
- She began working for an all-Black army regiment as a nurse and teacher.
- In 1902, she published a book about the time she spent with the regiment.
- Her book was the only Civil War memoir to be published by a Black woman.
- It is still available to readers in print and online.

The student wants to emphasize the uniqueness of Taylor’s accomplishment. Which choice most effectively uses relevant information from the notes to accomplish this goal?

- A. Taylor fled to St. Simons Island, which was then occupied by the Union army, for whom she began working.
- B. After escaping slavery, Taylor began working for an all-Black army regiment as a nurse and teacher.
- C. The book Taylor wrote about the time she spent with the regiment is still available to readers in print and online.
- D. Taylor was the only Black woman to publish a Civil War memoir.

ID: 2bf05ae9 Answer

Correct Answer: D

Rationale

Choice D is the best answer. By indicating that Taylor’s book was the only Civil War memoir published by a Black woman, this sentence emphasizes the uniqueness, or one-of-a-kind nature, of Taylor’s accomplishment.

Choice A is incorrect. While the sentence describes some of Taylor’s accomplishments, it doesn’t emphasize the uniqueness of them. Choice B is incorrect. While the sentence describes some of Taylor’s accomplishments, it doesn’t emphasize that they were unique. Choice C is incorrect. While the sentence provides information about Taylor’s book, it doesn’t emphasize what made the book unique.

Question Difficulty: Medium

Question ID e876e395

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	

ID: e876e395

While researching a topic, a student has taken the following notes:

- The melting rate of glaciers varies based on air temperature.
- In the warm summer months, massive glaciers on the coast of Greenland melt into the surrounding water.
- The melting glaciers contribute to rising sea levels each summer.
- Huge icebergs also break off Greenland’s glaciers into the water and melt.
- In 2017, geoscientist Twila Moon found that the iceberg melting rate depends not on air temperature but on water temperature.
- Because water temperature is consistent, melting icebergs contribute to rising sea levels all year.

The student wants to emphasize a similarity between glaciers and icebergs in Greenland. Which choice most effectively uses relevant information from the notes to accomplish this goal?

- A. Because icebergs break off Greenland’s glaciers into the water, their melting rate depends on water temperature.
- B. Greenland’s glaciers and icebergs both melt during the year, contributing to rising sea levels.

Geoscientist Twila Moon found that the melting rate of Greenland’s icebergs, unlike that of glaciers, does not depend on

- C. air temperature.

Glaciers on the coast of Greenland melt during the warm summer months into the surrounding water, the temperature of

- D. which remains consistent throughout the year.

ID: e876e395 Answer

Correct Answer: B

Rationale

Choice B is the best answer. The sentence emphasizes a similarity between glaciers and icebergs in Greenland, noting that both melt and thereby contribute to rising sea levels.

Choice A is incorrect. The sentence provides information about the melting rate of icebergs in Greenland; it doesn’t emphasize a similarity between glaciers and icebergs in Greenland. Choice C is incorrect. The sentence emphasizes a difference between glaciers and icebergs in Greenland, noting that their melting rates depend on different factors; it doesn’t emphasize a similarity. Choice D is incorrect. The sentence explains the conditions under which glaciers in Greenland melt; it doesn’t emphasize a similarity between glaciers and icebergs in Greenland.

Question Difficulty: Medium

Question ID bb275f0d

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	

ID: bb275f0d

While researching a topic, a student has taken the following notes:

- Cities tend to have a wide range of flowering vegetation in parks, yards, and gardens.
- This vegetation provides a varied diet for honeybees, strengthening bees’ immune systems.
- On average, 62.5 percent of bees in an urban area will survive a harsh winter.
- Rural areas are often dominated by monoculture crops such as corn or wheat.
- On average, only 40 percent of honeybees in a rural area will survive a harsh winter.

The student wants to make and support a generalization about honeybees. Which choice most effectively uses relevant information from the notes to accomplish this goal?

- Cities tend to have a wider range of flowering vegetation than do rural areas, which are often dominated by monoculture crops.
- In urban areas, over 60 percent of honeybees, on average, will survive a harsh winter, whereas in rural areas, only 40 percent will.
- The strength of honeybees’ immune systems depends on what the bees eat, and a varied diet is more available to bees in an urban area than to those in a rural area.
- Honeybees are more likely to thrive in cities than in rural areas because the varied diet available in urban areas strengthens the bees’ immune systems.

ID: bb275f0d Answer

Correct Answer: D

Rationale

Choice D is the best answer because the sentence makes and supports a generalization about honeybees. It claims that honeybees living in urban areas are more likely to thrive than rural bees, and it supports the claim with information about the effect of a varied diet on urban bees’ immune systems.

Choice A is incorrect. While the sentence makes a generalization, it doesn’t mention honeybees. Choice B is incorrect. While the sentence provides data about honeybee survival, it doesn’t make a generalization about honeybees based on this information. Choice C is incorrect. While the sentence makes a generalization about honeybees’ diets and immune systems, it doesn’t provide adequate support for this generalization.

Question Difficulty: Medium

Question ID 30438650

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Transitions	

ID: 30438650

Jhumpa Lahiri’s story collection *Interpreter of Maladies* features multiple stories about romantic relationships. In “This Blessed House,” newlyweds argue over whether to replace items left by the previous owners of their new home. _____ in “A Temporary Matter,” a husband and wife attempt to rekindle their relationship during a four-night blackout.

Which choice completes the text with the most logical transition?

- A. Granted,
- B. For example,
- C. Likewise,
- D. Hence,

ID: 30438650 Answer

Correct Answer: C

Rationale

Choice C is the best answer. "Likewise" is a transition that indicates the addition of a new but related idea. In this sentence, the author is providing another similar example to that discussed in the previous sentence. Therefore, "likewise" works best in this context.

Choice A is incorrect. This choice uses a transition that means "admittedly." But the text isn’t admitting or conceding anything here. Instead, these two examples work together to support the claim made in the first sentence. Choice B is incorrect. This choice uses an exemplification transition, which doesn’t make sense here. The second story is not an example of the story in the previous sentence—it’s another, similar story. And while both stories exemplify the first sentence in the text, the transition we’re looking for isn’t actually connected to that sentence. Choice D is incorrect. This choice uses a cause-and-effect transition, which doesn’t make sense here. The first story didn’t result in the events of the second story.

Question Difficulty: Medium

Question ID 6249b173

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	

ID: 6249b173

While researching a topic, a student has taken the following notes:

- In 2018 researchers Adwait Deshpande, Shreejata Gupta, and Anindya Sinha were observing wild macaques in India’s Bandipur National Park.
- They saw macaques calling out to and gesturing at humans who were eating or carrying food.
- They designed a study to find out if the macaques were intentionally communicating to try to persuade the humans to share their food.
- In the study trials, macaques frequently called out to and gestured at humans holding food.
- In the study trials, macaques called out to and gestured at empty-handed humans less frequently.

The student wants to present the study’s results. Which choice most effectively uses relevant information from the notes to accomplish this goal?

- Macaques in the study called out to and gestured more frequently at humans holding food than at empty-handed humans.
- A. humans.
- In 2018, researchers who had observed macaques in India’s Bandipur National Park calling out to and gesturing at humans designed a study.
- B. humans designed a study.
- The researchers hoped to find out if the macaques were intentionally communicating to try to persuade humans to share their food.
- C. their food.
- The researchers studied how macaques behaved around both humans holding food and empty-handed humans.
- D. The researchers studied how macaques behaved around both humans holding food and empty-handed humans.

ID: 6249b173 Answer

Correct Answer: A

Rationale

Choice A is the best answer. This choice presents the study’s results from the last two bullet points.

Choice B is incorrect. This choice describes the background and motivation of the study but not the outcome or findings.

Choice C is incorrect. This choice describes the research question or hypothesis of the study but not the evidence or conclusion.

Choice D is incorrect. This choice describes the method or design of the study but not the actual results.

Question Difficulty: Medium

Question ID fd24f48f

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Transitions	

ID: fd24f48f

Before California’s 1911 election to approve a proposition granting women the right to vote, activists across the state sold tea to promote the cause of suffrage. In San Francisco, the Woman’s Suffrage Party sold Equality Tea at local fairs. _____ in Los Angeles, activist Nancy Tuttle Craig, who ran one of California’s largest grocery store firms, distributed Votes for Women Tea.

Which choice completes the text with the most logical transition?

- A. For example,
- B. To conclude,
- C. Similarly,
- D. In other words,

ID: fd24f48f Answer

Correct Answer: C

Rationale

Choice C is the best answer. “Similarly” logically signals that the activity described in this sentence (Nancy Tuttle Craig distributing Votes for Women Tea in her Los Angeles grocery stores) is like the activity described in the previous sentence (the Woman’s Suffrage Party selling Equality Tea at fairs in San Francisco). Together, the two examples support the preceding claim that “activists across the state sold tea to promote the cause of suffrage.”

Choice A is incorrect because “for example” illogically signals that the activity described in this sentence exemplifies the activity described in the previous sentence. Instead, the two activities are similar, and both support the preceding claim about selling tea to promote women’s right to vote. Choice B is incorrect because “to conclude” illogically signals that the activity described in this sentence concludes or summarizes the information in the previous sentences. Instead, the activity is similar to the one described in the previous sentence, and both support the preceding claim about selling tea to promote women’s right to vote. Choice D is incorrect because “in other words” illogically signals that the activity described in this sentence paraphrases the activity described in the previous sentence. Instead, the two activities are similar, and both support the preceding claim about selling tea to promote women’s right to vote.

Question Difficulty: Medium

Question ID 1a8126aa

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Transitions	

ID: 1a8126aa

In 2019, researcher Patricia Jurado Gonzalez and food historian Nawal Nasrallah prepared a stew from a 4,000-year-old recipe found on a Mesopotamian clay tablet. When they tasted the dish, known as *pašrūtum* (“unwinding”), they found that it had a mild taste and inspired a sense of calm. _____ the researchers, knowing that dishes were sometimes named after their intended effects, theorized that the dish’s name, “unwinding,” referred to its function: to help ancient diners relax.

Which choice completes the text with the most logical transition?

- A. Therefore,
- B. Alternately,
- C. Nevertheless,
- D. Likewise,

ID: 1a8126aa Answer

Correct Answer: A

Rationale

Choice A is the best answer. "Therefore" logically signals that the action described in this sentence—the researchers theorizing that the dish was named for its effect on diners—is a result or consequence of the previous observation that the dish had a calming effect.

Choice B is incorrect because "alternately" illogically signals that the action described in this sentence offers an alternative or contrast to the previous observation that the dish had a calming effect. Instead, the action is a result or consequence of that observation. Choice C is incorrect because "nevertheless" illogically signals that the action described in this sentence occurs despite the previous observation that the dish had a calming effect. Instead, the action is a result or consequence of that observation. Choice D is incorrect because "likewise" illogically signals that this sentence merely adds a second, similar detail to the previous observation that the dish had a calming effect. Instead, this sentence describes an action that is a result or consequence of that observation.

Question Difficulty: Medium

Question ID 63a4fa29

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	

ID: 63a4fa29

While researching a topic, a student has taken the following notes:

- In 2013, archaeologists studied cat bone fragments they had found in the ruins of Quanhucun, a Chinese farming village.
- The fragments were estimated to be 5,300 years old.
- A chemical analysis of the fragments revealed that the cats had consumed large amounts of grain.
- The grain consumption is evidence that the Quanhucun cats may have been domesticated.

The student wants to present the Quanhucun study and its conclusions. Which choice most effectively uses relevant information from the notes to accomplish this goal?

- As part of a 2013 study of cat domestication, a chemical analysis was conducted on cat bone fragments found in
- A. Quanhucun, China.
 - B. domesticated 5,300 years ago.
 - C. In 2013, archaeologists studied what cats in Quanhucun, China, had eaten more than 5,000 years ago.
 - D. Cat bone fragments estimated to be 5,300 years old were found in Quanhucun, China, in 2013.

ID: 63a4fa29 Answer

Correct Answer: B

Rationale

Choice B is the best answer. The sentence presents the study, describing it as a 2013 analysis of Quanhucun cat bone fragments, and its conclusions, indicating what the analysis suggests about cat domestication in Quanhucun.

Choice A is incorrect because the sentence focuses on the study’s methodology; it doesn’t present conclusions from the study. Choice C is incorrect. While the sentence provides a general overview of the study, it doesn’t present conclusions from the study. Choice D is incorrect. The sentence describes a finding from the study; it doesn’t present conclusions from the study.

Question Difficulty: Medium

Question ID dd11e5ab

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	

ID: dd11e5ab

While researching a topic, a student has taken the following notes:

- Muckrakers were journalists who sought to expose corruption in US institutions during the Progressive Era (1897–1920).
- Ida Tarbell was a muckraker who investigated the Standard Oil Company.
- She interviewed Standard Oil Company executives, oil industry workers, and public officials.
- She examined thousands of pages of the company’s internal communications, including letters and financial records.
- Her book *The History of the Standard Oil Company* (1904) exposed the company’s unfair business practices.

The student wants to emphasize the thoroughness of Ida Tarbell’s investigation of the Standard Oil Company. Which choice most effectively uses relevant information from the notes to accomplish this goal?

- Ida Tarbell not only interviewed Standard Oil executives, oil industry workers, and public officials but also examined thousands of pages of the company’s internal communications.
- Ida Tarbell, who investigated the Standard Oil Company, was a muckraker (a journalist who sought to expose corruption in US institutions during the Progressive Era, 1897–1920).
- As part of her investigation of the Standard Oil Company, muckraker Ida Tarbell conducted interviews.
- Published in 1904, muckraker Ida Tarbell’s book *The History of the Standard Oil Company* exposed the company’s unfair business practices.

ID: dd11e5ab Answer

Correct Answer: A

Rationale

Choice A is the best answer. It describes Tarbell’s investigation and the lengths she went to complete it.

Choice B is incorrect. This choice doesn’t describe how thorough Tarbell was. Instead, it gives a biographical sketch.

Choice C is incorrect. This choice doesn’t describe how thorough Tarbell was. Tarbell didn’t only conduct interviews—she also “examined thousands of pages of the company’s internal communications.”

Choice D is incorrect. This choice doesn’t describe how thorough Tarbell was. It describes her book but doesn’t include anything about her investigation.

Question Difficulty: Medium

Question ID 74149724

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	

ID: 74149724

While researching a topic, a student has taken the following notes:

- John Carver was one of the 41 signatories of the Mayflower Compact.
- The Mayflower Compact was a legal agreement among the pilgrims that immigrated to Plymouth Colony.
- It was created in 1620 to establish a common government.
- It states that the pilgrims who signed it wanted to “plant the first colony in the northern parts of Virginia” under King James.
- Carver became the first governor of Plymouth Colony.

The student wants to specify the reason the Mayflower Compact was created. Which choice most effectively uses relevant information from the notes to accomplish this goal?

- Stating that its signatories wanted to “plant the first colony in the northern parts of Virginia,” the Mayflower Compact was
- A. a legal agreement among the pilgrims that immigrated to Plymouth Colony.
 - B. Virginia.”
 - C. Plymouth Colony.
 - D. The Mayflower Compact had 41 signatories, including John Carver, the first governor of Plymouth Colony.

ID: 74149724 Answer

Correct Answer: C

Rationale

Choice C is the best answer. The sentence specifies the reason the Mayflower Compact was created, noting that it was created to establish a common government among the pilgrims that immigrated to Plymouth Colony.

Choice A is incorrect. While the sentence provides background information about the Mayflower Compact and notes the signatories’ goal for the colony, it doesn’t specify why the compact was created. Choice B is incorrect. While the sentence provides background information about the Mayflower Compact and notes the signatories’ goal for the colony, it doesn’t specify why the compact was created. Choice D is incorrect. The sentence specifies the number of pilgrims that signed the Mayflower Compact; it doesn’t specify the reason the compact was created.

Question Difficulty: Medium

Question ID 25361ec6

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Transitions	

ID: 25361ec6

Scientists long debated the origins of chondrules, tiny glass beads that formed in meteors billions of years ago. For decades, different theories were proposed, from lightning strikes to powerful rock collisions, but none had sufficient evidentiary support. _____ scientists found strong evidence that chondrules were formed by shock waves in nearby nebulae.

Which choice completes the text with the most logical transition?

- A. For example,
- B. Therefore,
- C. Similarly,
- D. Finally,

ID: 25361ec6 Answer

Correct Answer: D

Rationale

Choice D is the best answer. "Finally" logically signals that the information in this sentence—that scientists found evidence that chondrules were formed by shock waves in nearby nebulae—indicates a conclusion to the scientific debate mentioned in the previous sentences.

Choice A is incorrect because "for example" illogically signals that the information about the evidence for chondrule formation in this sentence exemplifies the information about the scientific debate regarding chondrule formation in the previous sentences. Instead, it indicates a conclusion to the debate. Choice B is incorrect because "therefore" illogically signals that the information in this sentence is a result of the previous information about the scientific debate regarding chondrule formation. Instead, it indicates a conclusion to the debate. Choice C is incorrect because "similarly" illogically signals that the information that follows is similar to the information about the scientific debate regarding chondrule formation in the previous sentences. Instead, it indicates a conclusion to the debate.

Question Difficulty: Medium

Question ID f1d8550e

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	

ID: f1d8550e

While researching a topic, a student has taken the following notes:

- Jordan Bennett is a Mi’Kmaq visual artist. The Mi’Kmaq are a First Nations people in North America.
- Bennett’s paintings pay homage to traditional Mi’Kmaq craftsmanship and have been displayed in over 75 exhibitions.
- His 2017 exhibition *Wije’wi* was held at the Grenfell Art Gallery.
- His 2018 exhibition *Ketu’elmita’jik* was held at the Art Gallery of Nova Scotia.

The student wants to emphasize the order in which two of Jordan Bennett’s exhibitions were held. Which choice most effectively uses relevant information from the notes to accomplish this goal?

- A. Jordan Bennett’s 2017 exhibition *Wije’wi* was followed a year later by his exhibition *Ketu’elmita’jik*.
Jordan Bennett’s paintings, some of which appeared in 2017 and 2018 exhibitions, pay homage to traditional Mi’Kmaq craftsmanship.
- B. craftsmanship.
- C. Mi’Kmaq visual artist Jordan Bennett has displayed his work in over 75 exhibitions, including *Wije’wi* and *Ketu’elmita’jik*.
Jordan Bennett’s 2018 exhibition *Ketu’elmita’jik* was held at the Art Gallery of Nova Scotia; another was held at the Grenfell Art Gallery.
- D. Grenfell Art Gallery.

ID: f1d8550e Answer

Correct Answer: A

Rationale

Choice A is the best answer. The sentence emphasizes the order in which two of Jordan Bennett’s exhibitions were held, indicating that *Wije’wi* took place in 2017 and *Ketu’elmita’jik* took place a year later (2018).

Choice B is incorrect. While the sentence mentions that exhibitions of Jordan Bennett’s paintings took place in 2017 and 2018, it doesn’t identify the exhibitions or emphasize the order in which they were held. Choice C is incorrect. While the sentence mentions two of Jordan Bennett’s exhibitions, it doesn’t indicate the order in which they were held. Choice D is incorrect. While the sentence mentions two of Jordan Bennett’s exhibitions and specifies when one of them was held, it doesn’t state when the exhibition at the Grenfell Art Gallery occurred. Thus, the order in which the two exhibitions were held isn’t clearly established in the sentence.

Question Difficulty: Medium

Question ID ff8d2125

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	

ID: ff8d2125

While researching a topic, a student has taken the following notes:

- Crown shyness is a phenomenon in which the tops (crowns) of neighboring trees grow close together but don't overlap.
- To explain how this happens, Australian forester M.R. Jacobs proposes the mutual abrasion theory.
- According to Jacobs's theory, when trees brush against one another, branches break off.
- Malaysian scholar Francis S.P. Ng posits the mutual shade avoidance theory.
- According to Ng's theory, when tree branches detect shade from nearby trees' branches, they stop growing.

The student wants to compare the causes of crown shyness proposed in the two theories. Which choice most effectively uses relevant information from the notes to accomplish this goal?

- While Jacobs proposes that crown shyness is caused by neighboring tree branches brushing against one another, Ng A. posits that it occurs when branches detect shade from nearby trees' branches.
- B. Both Jacobs and Ng have proposed theories to explain what causes crown shyness.
- C. Ng posits the mutual shade avoidance theory, whereas Jacobs proposes an alternative theory.
- Jacobs's mutual abrasion theory proposes that when neighboring trees brush against one another, branches break off, D. resulting in a phenomenon in which the tops of trees grow close together but don't overlap.

ID: ff8d2125 Answer

Correct Answer: A

Rationale

Choice A is the best answer. The sentence compares the two proposed causes of crown shyness, noting the theories' differences: Jacobs cites branches brushing against one another as the cause, while Ng cites branches detecting shade from other branches as the cause.

Choice B is incorrect. The sentence merely identifies the existence of two theories for crown shyness; it doesn't compare the causes proposed by each theory. Choice C is incorrect. The sentence merely indicates that there are two different theories for crown shyness; it doesn't compare the causes proposed by each theory. Choice D is incorrect. The sentence merely explains one theory for crown shyness; it doesn't compare two theories.

Question Difficulty: Medium

Question ID 23da9791

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	

ID: 23da9791

While researching a topic, a student has taken the following notes:

- Scientists have long sought to determine the origin of glass in Chile’s Atacama Desert.
- A 2017 study concluded that ancient grass fires had melted the area’s sandy soil into glass.
- In 2021, a different study revealed that the mineral signatures of glass samples were consistent with the mineral signatures of comet samples collected by NASA.
- That study concluded that the glass had formed as a result of a cometary explosion close to the desert’s surface.

The student wants to describe how scientific understanding about the glass’s origin has evolved. Which choice most effectively uses relevant information from the notes to accomplish this goal?

- Scientists have long sought to determine the origin of the glass, with one study concluding that it formed when ancient
- A. grass fires melted the area’s sandy soil.
 - B. Studies in 2017 and 2021 offered different explanations for the origin of the glass.
 - C. research.
 - D. glass formed as a result of a cometary explosion close to the desert’s surface.

ID: 23da9791 Answer

Correct Answer: D

Rationale

Choice D is the best answer. The sentence describes how scientific understanding of the glass’s origin has evolved, explaining that new research suggests the glass formed as a result of a cometary explosion instead of being caused by grass fires (as was previously believed).

Choice A is incorrect. The sentence explains the conclusion of the older study; it doesn’t describe how scientific understanding of the glass’s origin has evolved. Choice B is incorrect. While the sentence indicates that the two studies provided different explanations, it doesn’t describe how scientific understanding of the glass’s origin has evolved. Choice C is incorrect. The sentence references a recent finding but doesn’t effectively describe how scientific understanding of the glass’s origin has evolved.

Question Difficulty: Medium

Question ID 8432a140

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	

ID: 8432a140

While researching a topic, a student has taken the following notes:

- Marine biologist Camille Jazmin Gaynus studies coral reefs.
- Coral reefs are vital underwater ecosystems that provide habitats to 25% of all marine species.
- Reefs can include up to 8,000 species of fish, such as toadfish, seahorses, and clown triggerfish.
- The Amazon Reef is a coral reef in Brazil. It is one of the largest known reefs in the world.

The student wants to introduce the scientist and her field of study to a new audience. Which choice most effectively uses relevant information from the notes to accomplish this goal?

- A. Located in Brazil, the Amazon Reef is one of the largest known coral reefs in the world.

Marine biologist Camille Jazmin Gaynus studies coral reefs, vital underwater ecosystems that provide homes to 25% of all marine species.
- B. all marine species.

Providing homes to 25% of all marine species, including up to 8,000 species of fish, coral reefs are vital underwater ecosystems and thus of great interest to marine biologists.
- C. ecosystems and thus of great interest to marine biologists.

As Camille Jazmin Gaynus knows well, coral reefs are vital underwater ecosystems, providing homes to thousands of species of fish.
- D. species of fish.

ID: 8432a140 Answer

Correct Answer: B

Rationale

Choice B is the best answer. We’re asked to select the sentence that "introduce[s] the scientist and her field of study." This choice introduces scientist Camille Jazmin Gaynus as a marine biologist and explains what marine life she studies.

Choice A is incorrect. This choice doesn’t mention Camille Jazmin Gaynus, so it fails to "introduce the scientist." Choice C is incorrect. This choice doesn’t mention Camille Jazmin Gaynus, so it fails to "introduce the scientist." Choice D is incorrect. This choice mentions Camille Jazmin Gaynus, but it doesn’t identify her as a marine biologist. It says she "knows well" about coral reefs, but doesn’t identify her expertise as a "field of study."

Question Difficulty: Medium

Question ID 94f48106

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	

ID: 94f48106

While researching a topic, a student has taken the following notes:

- In 2022, University of Miami researchers discovered brine pools in the Gulf of Aqaba.
- A brine pool is an underwater lake that sits on the ocean floor.
- The water in brine pools is three to eight times saltier than the surrounding ocean.
- The extreme saltiness of this water makes it toxic to most sea life.
- Some forms of bacteria are able to survive in brine pools.

The student wants to explain why brine pools are toxic to most sea life. Which choice most effectively uses relevant information from the notes to accomplish this goal?

- A. Though brine pools are toxic to most sea life, some bacteria can survive there.
- B. The water in brine pools is toxic to most sea life because it is three to eight times saltier than the surrounding ocean.
- C. The brine pools in the Gulf of Aqaba are toxic to most sea life and were discovered by researchers in 2022.
- D. Brine pools are salty underwater lakes that sit on the ocean floor.

ID: 94f48106 Answer

Correct Answer: B

Rationale

Choice B is the best answer. The sentence explains why brine pools are toxic to most sea life, noting that the water in the pools is three to eight times saltier than the surrounding ocean.

Choice A is incorrect. While the sentence states that brine pools are toxic to most sea life, it doesn't explain why the pools are toxic. Choice C is incorrect. While the sentence states that brine pools are toxic to most sea life, it doesn't explain why the pools are toxic. Choice D is incorrect because the sentence describes brine pools, mentioning that they are salty, but doesn't explain why they are toxic to most sea life.

Question Difficulty: Medium

Question ID 14037904

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	

ID: 14037904

While researching a topic, a student has taken the following notes:

- The Heartbeat of Wounded Knee: Native America from 1890 to the Present* is a history book by Ojibwe author David Treuer.
- In a review, a critic for *The Economist* noted that “Treuer’s storytelling skills shine” and that the book is an “elegant handling of [a] complex narrative.”
- A critic for *O, The Oprah Magazine* called it “a marvel of research and storytelling.”
- A critic for the *Missoulian* dubbed it “a monumental achievement.”

The student wants to emphasize a similarity in how critics responded to Treuer’s book. Which choice most effectively uses relevant information from the notes to accomplish this goal?

- A. Treuer’s book, which was widely reviewed, focuses on Native American history from 1890 to the present.

Dubbed “a monumental achievement” by the *Missoulian*, Treuer’s book documents over a century of Native American history.
- B. history.

Critics praised Treuer’s book for its compelling narrative, with *O, The Oprah Magazine* calling it “a marvel of research and storytelling” and *The Economist* likewise writing that “Treuer’s storytelling skills shine” and that the book is an “elegant handling of [a] complex narrative.”
- C. handling of [a] complex narrative.”
- D. While the *Missoulian* focused on the book’s broader achievement, *The Economist* zeroed in on Treuer’s storytelling skills.

ID: 14037904 Answer

Correct Answer: C

Rationale

Choice C is the best answer. The sentence emphasizes a similarity in how critics responded to Treuer’s book, noting that the critics for *O, The Oprah Magazine* and *The Economist* both praised the book’s storytelling.

Choice A is incorrect. The sentence provides background information about Treuer’s book; it doesn’t emphasize a similarity in how critics responded to it. Choice B is incorrect. The sentence cites a single critic’s response to Treuer’s book; it doesn’t emphasize a similarity in the responses of multiple critics. Choice D is incorrect. The sentence emphasizes a difference, not a similarity, in how two critics responded to Treuer’s book.

Question Difficulty: Medium

Question ID 29ae4d48

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Transitions	

ID: 29ae4d48

In the early 1970s, Albert Popa took up graffiti art, spraying his work onto what was at the time an unconventional surface: concrete. _____ Albert’s son David has chosen an unusual canvas for his new art project, *Fractured*. In this remarkable work, the artist draws charcoal faces onto fragmented ice floes in Finland, creating the visual effect of a face slowly fracturing.

Which choice completes the text with the most logical transition?

- A. However,
- B. Indeed,
- C. Second,
- D. Likewise,

ID: 29ae4d48 Answer

Correct Answer: D

Rationale

Choice D is the best answer. "Likewise" logically signals that the information about Albert’s son David is similar to the previous information about Albert Popa. Both artists have used unconventional surfaces for their work: Albert used concrete, and David is using ice floes.

Choice A is incorrect because "however" illogically signals that the information about David contrasts with the previous information about Albert Popa. Instead, it is similar to the previous information about Albert Popa. Choice B is incorrect because "indeed" illogically signals that the information about David emphasizes or strengthens the previous point about Albert Popa. Instead, it is similar to the previous information; it highlights a similarity between father and son. Choice C is incorrect because "second" illogically signals that the information about David is a second point or reason separate from the previous information about Albert Popa. Instead, it is similar to the previous information; it highlights a similarity between father and son.

Question Difficulty: Medium

Question ID 113f16da

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	

ID: 113f16da

While researching a topic, a student has taken the following notes:

- Some animals have evolved to physically resemble another animal, plant, or object. This is known as mimicry.
- Crab spiders mimic the appearance of flowers. This helps crab spiders ambush their prey.
- Katydids mimic the appearance of leaves. This helps katydids hide from their predators.

The student wants to emphasize a difference in how katydids and crab spiders use mimicry. Which choice most effectively uses relevant information from the notes to accomplish this goal?

- A. Katydids mimic the appearance of flowers, and crab spiders mimic that of leaves.
- B. Katydids and crab spiders are two examples of animals that use mimicry.
- C. Unlike crab spiders, which use mimicry to ambush prey, katydids use mimicry to hide from predators.
- D. Animals that use mimicry have evolved to resemble another animal, plant, or object.

ID: 113f16da Answer

Correct Answer: C

Rationale

Choice C is the best answer. The sentence uses "unlike" to emphasize a difference in how katydids and crab spiders use mimicry, noting that crab spiders use mimicry to ambush prey while katydids use it to hide from predators.

Choice A is incorrect. While the sentence does contrast katydids and crab spiders, it misrepresents the information in the notes. Katydids mimic the appearance of leaves (not flowers), whereas crab spiders mimic the appearance of flowers (not leaves). Choice B is incorrect. While the sentence indicates that katydids and crab spiders use mimicry, it doesn't emphasize a difference in how they use it. Choice D is incorrect. The sentence describes what mimicry is; it doesn't emphasize a difference in how katydids and crab spiders specifically use mimicry.

Question Difficulty: Medium

Question ID 129089b5

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Transitions	

ID: 129089b5

In 1933, the Twentieth Amendment to the US Constitution was ratified. The amendment mandates that presidential inaugurations be held on January 20, approximately ten weeks after the November election. _____ this amendment requires newly elected US senators and representatives to be sworn into their respective offices on January 3.

Which choice completes the text with the most logical transition?

- A. Instead,
- B. For instance,
- C. Specifically,
- D. In addition,

ID: 129089b5 Answer

Correct Answer: D

Rationale

Choice D is the best answer. “In addition” logically signals that the information in this sentence—that the Twentieth Amendment requires newly elected US senators and representatives to be sworn in on January 3—is separate from and additional to the amendment’s mandate concerning presidential inaugurations.

Choice A is incorrect because “instead” illogically signals that the information in the sentence presents an alternative to or substitute for the Twentieth Amendment’s mandate concerning presidential inaugurations. Rather, the sentence presents a separate requirement in addition to that one. Choice B is incorrect because “for instance” illogically signals that the information in the sentence exemplifies the Twentieth Amendment’s mandate concerning presidential inaugurations. Instead, the sentence presents a separate requirement in addition to that one. Choice C is incorrect because “specifically” illogically signals that the sentence provides specific, precise details elaborating on the Twentieth Amendment’s mandate concerning presidential inaugurations. Instead, the sentence presents a separate requirement in addition to that one.

Question Difficulty: Medium

Question ID d6dec50e

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	

ID: d6dec50e

While researching a topic, a student has taken the following notes:

- In 2019, Emily Shepard and colleagues in the UK and Germany studied the effect of wind on auks’ success in landing at cliffside nesting sites.
- They found as wind conditions intensified, the birds needed more attempts in order to make a successful landing.
- When the wind was still, almost 100% of landing attempts were successful.
- In a strong breeze, approximately 40% of attempts were successful.
- In near-gale conditions, only around 20% of attempts were successful.

The student wants to summarize the study. Which choice most effectively uses relevant information from the notes to accomplish this goal?

- For a 2019 study, researchers from the UK and Germany collected data on auks’ attempts to land at cliffside nesting sites
- A. in different wind conditions.
- Emily Shepard and her colleagues wanted to know the extent to which wind affected auks’ success in landing at cliffside
- B. nesting sites, so they conducted a study.
- Knowing that auks often need multiple attempts to land at their cliffside nesting sites, Emily Shepard studied the birds’
- C. success rate, which was only around 20% in some conditions.
- Emily Shepard’s 2019 study of auks’ success in landing at cliffside nesting sites showed that as wind conditions
- D. intensified, the birds’ success rate decreased.

ID: d6dec50e Answer

Correct Answer: D

Rationale

Choice D is the best answer. The sentence effectively summarizes the study, noting who conducted it, when it was conducted, and what its results showed: that auks’ landing success rate decreased as wind conditions intensified.

Choice A is incorrect. While the sentence presents the methodology of the study—that is, the approach taken by the researchers—it fails to summarize the study as a whole. Choice B is incorrect. While the sentence presents the aim, or goal, of the study, it fails to summarize the study as a whole. Choice C is incorrect. While the sentence indicates what Shepard studied, it fails to mention a key factor: the effect of wind. It thus fails to summarize the study as a whole.

Question Difficulty: Medium

Question ID 94cb8720

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	

ID: 94cb8720

While researching a topic, a student has taken the following notes:

- In 2020, theater students at Radford and Virginia Tech chose an interactive, online format to present a play about woman suffrage activists.
- Their “Women and the Vote” website featured an interactive digital drawing of a Victorian-style house.
- Audiences were asked to focus on a room of their choice and select from that room an artifact related to the suffrage movement.
- One click took them to video clips, songs, artwork, and texts associated with the artifact.
- The play was popular with audiences because the format allowed them to control the experience.

The student wants to explain an advantage of the “Women and the Vote” format. Which choice most effectively uses relevant information from the notes to accomplish this goal?

- “Women and the Vote” featured a drawing of a Victorian-style house with several rooms, each containing suffrage artifacts.
- To access video clips, songs, artwork, and texts, audiences had to first click on an artifact.
- The “Women and the Vote” format appealed to audiences because it allowed them to control the experience.
- Using an interactive format, theater students at Radford and Virginia Tech created “Women and the Vote,” a play about woman suffrage activists.

ID: 94cb8720 Answer

Correct Answer: C

Rationale

Choice C is the best answer. The sentence explains an advantage of the “Women and the Vote” format, noting that the format appealed to audiences because it allowed them to control the experience.

Choice A is incorrect. The sentence describes a digital drawing on the “Women and the Vote” website; it doesn’t explain an advantage of the play’s format. Choice B is incorrect. The sentence explains how audiences interacted with the “Women and the Vote” website; it doesn’t explain an advantage of the play’s format. Choice D is incorrect. While the sentence mentions that “Women and the Vote” had an interactive format, it doesn’t explain what advantage this format might have.

Question Difficulty: Medium

Question ID ddb77846

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Transitions	

ID: ddb77846

My interest in old public libraries has led me to seek them out whenever I visit a new part of the United States. _____ I could visit every state in the US and still not find the oldest public library in the Western Hemisphere. That library, the Biblioteca Palafoxiana, is located in Puebla, Mexico.

Which choice completes the text with the most logical transition?

- A. As a result,
- B. Nevertheless,
- C. Earlier,
- D. In other words,

ID: ddb77846 Answer

Correct Answer: B

Rationale

Choice B is the best answer. "Nevertheless" logically signals that the claim in the sentence—that the speaker could visit every state in the US and not find the oldest public library in the Western Hemisphere—is true despite the previous claim about the speaker seeking out old public libraries.

Choice A is incorrect because "as a result" illogically signals that the claim in the sentence is a consequence of the previous claim about the speaker seeking out old public libraries. Instead, the claim is true despite the previous claim. Choice C is incorrect because "earlier" illogically signals that the claim in the sentence occurs earlier in a chronological sequence of events than the previous claim about the speaker seeking out old public libraries. Instead, the claim is true despite the previous claim. Choice D is incorrect because "in other words" illogically signals that the claim in the sentence is merely a paraphrase or restatement of the previous claim about the speaker seeking out old public libraries. Instead, the claim is true despite the previous claim.

Question Difficulty: Medium

Question ID 6de02dfa

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	

ID: 6de02dfa

While researching a topic, a student has taken the following notes:

Thailand’s annual Songkran Water Festival is held each April. It marks Songkran, the traditional Thai New Year.

People splash and spray each other for fun at the festival’s community-wide water fights.

In Bangkok, thousands gather along Silom Road for the city’s largest water fight.

In Chiang Mai, thousands gather at a historical monument called the Tha Phae Gate for the city’s largest water fight.

The student wants to emphasize a similarity in how people in Bangkok and Chiang Mai celebrate Songkran. Which choice most effectively uses relevant information from the notes to accomplish this goal?

- The largest water fight in Bangkok takes place along a city street, whereas the largest water fight in Chiang Mai takes place at a historical monument.

A. place at a historical monument.
- B. In both Bangkok and Chiang Mai, thousands gather to celebrate Songkran with water fights.
- C. People in both Bangkok and Chiang Mai celebrate Songkran, but they don’t do so in exactly the same way.
- D. Each April, people in Thailand celebrate Songkran, the traditional Thai New Year.

ID: 6de02dfa Answer

Correct Answer: B

Rationale

Choice B is the best answer. The sentence emphasizes a similarity in how people in Bangkok and Chiang Mai celebrate Songkran, indicating that people in both cities gather to celebrate with water fights.

Choice A is incorrect. The sentence notes the different locations of the largest water fight in Bangkok and the largest water fight in Chiang Mai; it doesn’t emphasize a similarity in how people in Bangkok and Chiang Mai celebrate Songkran. Choice C is incorrect. The sentence indicates that people in Bangkok and Chiang Mai don’t celebrate Songkran in exactly the same way; it doesn’t emphasize a similarity in how people in the two cities celebrate Songkran. Choice D is incorrect. The sentence explains when people in Thailand celebrate Songkran; it doesn’t emphasize a similarity in how people in Bangkok and Chiang Mai celebrate Songkran.

Question Difficulty: Medium

Question ID c92ea686

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	

ID: c92ea686

While researching a topic, a student has taken the following notes:

- The Ramayana* is a Sanskrit epic poem from ancient India.
- In *The Ramayana*, the character Kaikeyi is often portrayed as a villain. *Kaikeyi* is a 2022 novel by Vaishnavi Patel.
- The novel is a retelling of the epic poem from Kaikeyi’s point of view. It often portrays Kaikeyi as heroic.

The student wants to emphasize whose point of view the novel is told from. Which choice most effectively uses relevant information from the notes to accomplish this goal?

- A. From the point of view of *The Ramayana*, the character Kaikeyi is often a villain.
- B. Vaishnavi Patel often portrays the character as heroic.
- C. *Kaikeyi* is a retelling of *The Ramayana* from the character Kaikeyi’s point of view.
- D. *The Ramayana* is an epic poem that features the character Kaikeyi.

ID: c92ea686 Answer

Correct Answer: C

Rationale

Choice C is the best answer. The sentence emphasizes whose point of view the novel *Kaikeyi* is told from: the character Kaikeyi’s.

Choice A is incorrect. While the sentence does discuss point of view, it focuses on that of the epic poem rather than the novel. Choice B is incorrect. While the sentence seems to be referring to Patel’s novel, it doesn’t establish whose point of view the novel is told from. Choice D is incorrect. The sentence discusses the character Kaikeyi in the context of the epic poem; it doesn’t discuss the novel’s point of view.

Question Difficulty: Medium

Question ID 1bb4aec8

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	

ID: 1bb4aec8

While researching a topic, a student has taken the following notes:

- Meteorites found on Earth are divided into two categories.
- A meteorite that was observed falling to Earth before being recovered is known as a meteorite fall.
- All other meteorites found on Earth are known as meteorite finds.
- There have been about 1,200 recorded meteorite falls. There have been over 60,000 recorded meteorite finds.

The student wants to contrast the number of meteorite falls with the number of meteorite finds. Which choice most effectively uses relevant information from the notes to accomplish this goal?

- A meteorite that was observed falling to Earth before being recovered is known as a meteorite fall; all others are known
- A. as meteorite finds.
- B. Meteorites found on Earth are divided into two categories: meteorite falls and meteorite finds.
- C. There have been about 1,200 recorded meteorite falls, or meteorites observed falling to Earth.
- D. While there have been only about 1,200 recorded meteorite falls, there have been over 60,000 meteorite finds.

ID: 1bb4aec8 Answer

Correct Answer: D

Rationale

Choice D is the best answer. The sentence contrasts the number of meteorite falls with the number of meteorite finds, noting that there have been over 60,000 meteorite finds but only about 1,200 recorded meteorite falls.

Choice A is incorrect. While the sentence explains the difference between meteorite falls and meteorite finds, it doesn't contrast the number of meteorite falls and meteorite finds. Choice B is incorrect. The sentence indicates the two categories of meteorites found on Earth; it doesn't contrast the number of meteorite falls and meteorite finds. Choice C is incorrect. While the sentence notes the number of recorded meteorite falls, it doesn't contrast this with the number of meteorite finds.

Question Difficulty: Medium

Question ID 58281fc4

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	

ID: 58281fc4

While researching a topic, a student has taken the following notes:

- Soo Sunny Park is a Korean American artist who uses light as her primary medium of expression.
- She created her work *Unwoven Light* in 2013.
- Unwoven Light* featured a chain-link fence fitted with iridescent plexiglass tiles.
- When light passed through the fence, colorful prisms formed.

The student wants to describe *Unwoven Light* to an audience unfamiliar with Soo Sunny Park. Which choice most effectively uses relevant information from the notes to accomplish this goal?

- Park’s 2013 installation *Unwoven Light*, which included a chain-link fence and iridescent tiles made from plexiglass,
- A. featured light as its primary medium of expression.
- B. Korean American light artist Soo Sunny Park created *Unwoven Light* in 2013.
- C. The chain-link fence in Soo Sunny Park’s *Unwoven Light* was fitted with tiles made from iridescent plexiglass.

- In *Unwoven Light*, a 2013 work by Korean American artist Soo Sunny Park, light formed colorful prisms as it passed
- D. through a fence Park had fitted with iridescent tiles.

ID: 58281fc4 Answer

Correct Answer: D

Rationale

Choice D is the best answer. The sentence effectively describes *Unwoven Light* to an audience unfamiliar with Park, noting that Soo Sunny Park is a Korean American artist and that the 2013 work consists of colorful prisms formed by light passing through iridescent tiles.

Choice A is incorrect. The sentence describes aspects of *Unwoven Light* but doesn’t mention who Park is; it thus doesn’t effectively describe the work to an audience unfamiliar with Park. Choice B is incorrect. Although the sentence indicates when the work was created and who Park is, it lacks descriptive details and thus doesn’t effectively describe *Unwoven Light*. Choice C is incorrect. The sentence mentions Park and describes an aspect of *Unwoven Light*—the chain-link fence—but doesn’t effectively describe the overall work to an audience unfamiliar with the artist.

Question Difficulty: Medium

Question ID 17ec916d

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	

ID: 17ec916d

While researching a topic, a student has taken the following notes:

- Bharati Mukherjee was an Indian-born author of novels and short stories.
- She published the novel *The Holder of the World* in 1993.
- A central character in the novel is a woman living in twentieth-century United States.
- Another central character is a woman living in seventeenth-century India.

The student wants to introduce the novel *The Holder of the World* to an audience already familiar with Bharati Mukherjee. Which choice most effectively uses relevant information from the notes to accomplish this goal?

- A. Bharati Mukherjee’s settings include both twentieth-century United States and seventeenth-century India.
- In addition to her novel *The Holder of the World*, which was published in 1993, Indian-born author Bharati Mukherjee wrote
- B. other novels and short stories.
- Bharati Mukherjee’s novel *The Holder of the World* centers around two women, one living in twentieth-century United
- C. States and the other in seventeenth-century India.
- D. *The Holder of the World* was not the only novel written by Indian-born author Bharati Mukherjee.

ID: 17ec916d Answer

Correct Answer: C

Rationale

Choice C is the best answer. The sentence effectively introduces *The Holder of the World* to an audience already familiar with Mukherjee, explaining that the novel centers around two women and mentioning the author without providing any other identifying information.

Choice A is incorrect. The sentence provides a detail about Mukherjee’s settings; it doesn’t introduce, or even mention, the novel. Choice B is incorrect. The sentence provides introductory information about Mukherjee; it doesn’t effectively introduce her novel to an audience already familiar with the author. Choice D is incorrect. The sentence provides introductory information about Mukherjee; it doesn’t effectively introduce her novel to an audience already familiar with the author.

Question Difficulty: Medium

Question ID d8aa8ba2

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	

ID: d8aa8ba2

While researching a topic, a student has taken the following notes:

- In astronomy, the mass of stars can be described in units called solar masses.
- One solar mass is roughly equal to the mass of the Sun.
- The mass of the star Proxima Centauri is 0.122 solar masses. The mass of the star Sirius A is 2.063 solar masses.

The student wants to emphasize the mass of Sirius A. Which choice most effectively uses relevant information from the notes to accomplish this goal?

- A. The mass of stars, like Proxima Centauri, can be described in units called solar masses.

In astronomy, the mass of stars can be described in units called solar masses, and one solar mass is roughly equal to the mass of the Sun.
- C. The Sun is more massive than Proxima Centauri, which has a mass of 0.122 solar masses.
- D. With a mass of 2.063 solar masses, Sirius A is more massive than the Sun.

ID: d8aa8ba2 Answer

Correct Answer: D

Rationale

Choice D is the best answer. The sentence emphasizes the mass of Sirius A, noting that it has a mass of 2.063 solar masses and that it is larger than the Sun.

Choice A is incorrect. The sentence makes a generalization about how the mass of stars can be measured; it doesn't emphasize the mass of Sirius A. Choice B is incorrect. The sentence introduces solar masses as a unit of measurement; it doesn't emphasize the mass of Sirius A. Choice C is incorrect. The sentence emphasizes the mass of Proxima Centauri, not the mass of Sirius A.

Question Difficulty: Medium

Question ID 24014c3f

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	

ID: 24014c3f

While researching a topic, a student has taken the following notes:

- Severo Ochoa discovered the enzyme PNPase in 1955.
- PNPase is involved in both the creation and degradation of mRNA.
- Ochoa incorrectly hypothesized that PNPase provides the genetic blueprints for mRNA.
- The discovery of PNPase proved critical to deciphering the human genetic code.
- Deciphering the genetic code has led to a better understanding of how genetic variations affect human health.

The student wants to emphasize the significance of Ochoa’s discovery. Which choice most effectively uses relevant information from the notes to accomplish this goal?

- Ochoa’s 1955 discovery of PNPase proved critical to deciphering the human genetic code, leading to a better understanding of how genetic variations affect human health.
- A. understanding of how genetic variations affect human health.
- B. Ochoa first discovered PNPase, an enzyme that he hypothesized contained the genetic blueprints for mRNA, in 1955.
- C. In 1955, Ochoa discovered the PNPase enzyme, which is involved in both the creation and degradation of mRNA.
- Though his discovery of PNPase was critical to deciphering the human genetic code, Ochoa incorrectly hypothesized that the enzyme was the source of mRNA’s genetic blueprints.
- D. the enzyme was the source of mRNA’s genetic blueprints.

ID: 24014c3f Answer

Correct Answer: A

Rationale

Choice A is the best answer. The sentence emphasizes the significance of Ochoa’s discovery, noting that it proved critical to deciphering the human genetic code, which resulted in a better understanding of how genetic variations affect human health.

Choice B is incorrect. While the sentence explains what Ochoa discovered, it doesn’t emphasize the significance of the discovery. Choice C is incorrect. While the sentence explains what Ochoa discovered, it doesn’t emphasize the significance of the discovery. Choice D is incorrect. While the sentence mentions that Ochoa’s discovery was crucial, it emphasizes Ochoa’s incorrect hypothesis, not the significance of the discovery.

Question Difficulty: Medium

Question ID e2d97f10

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	

ID: e2d97f10

While researching a topic, a student has taken the following notes:

- Pterosaurs were flying reptiles that existed millions of years ago.
- In a 2021 study, Anusuya Chinsamy-Turan analyzed fragments of pterosaur jawbones located in the Sahara Desert.
- She was initially unsure if the bones belonged to juvenile or adult pterosaurs.
- She used advanced microscope techniques to determine that the bones had few growth lines relative to the bones of fully grown pterosaurs.
- She concluded that the bones belonged to juveniles.

The student wants to present the study and its findings. Which choice most effectively uses relevant information from the notes to accomplish this goal?

- In 2021, Chinsamy-Turan studied pterosaur jawbones and was initially unsure if the bones belonged to juveniles or adults.
- Pterosaur jawbones located in the Sahara Desert were the focus of a 2021 study.
- In a 2021 study, Chinsamy-Turan used advanced microscope techniques to analyze the jawbones of pterosaurs, flying reptiles that existed millions of years ago.
- In a 2021 study, Chinsamy-Turan determined that pterosaur jawbones located in the Sahara Desert had few growth lines relative to the bones of fully grown pterosaurs and thus belonged to juveniles.

ID: e2d97f10 Answer

Correct Answer: D

Rationale

Choice D is the best answer. The sentence presents both the study and its findings, noting the study’s date and the researcher’s name as well as describing what the researcher determined about the jawbones and how she determined it.

Choice A is incorrect. While the sentence describes the study and the researcher’s initial assessment, it doesn’t present the study’s findings. Choice B is incorrect. While the sentence describes the study and its focus, it doesn’t present the study’s findings or the name of the researcher who conducted it. Choice C is incorrect. While the sentence mentions the study’s methodology and provides information about pterosaurs, it doesn’t present the study’s findings.

Question Difficulty: Medium

Question ID bce57278

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	

ID: bce57278

While researching a topic, a student has taken the following notes:

- Some US reformers sought to improve society in the 1800s by building utopias.
- A utopia is a community intended to represent a perfect society based on a specific set of principles.
- One such community was Brook Farm near Boston, Massachusetts. It was founded in 1841 by writer George Ripley.
- Ripley wrote in a letter that his goal for Brook Farm was “to guarantee the highest mental freedom, by providing all with labor, adapted to their tastes and talents, and securing to them the fruits of their industry.”

The student wants to explain the goal of Brook Farm using a quotation from George Ripley. Which choice most effectively uses relevant information from the notes to accomplish this goal?

- A. In a letter, writer George Ripley explained his goal to “guarantee the highest mental freedom.”
- B. create a perfect society.
- C. the United States built utopias.
- D. providing all with labor... [and] the fruits of their industry,” according to founder George Ripley.

ID: bce57278 Answer

Correct Answer: D

Rationale

Choice D is the best answer. This choice explains the goal of Brook Farm—to provide mental freedom to all by engaging individuals in labor suited to their interests—using a quotation from George Ripley.

Choice A is incorrect. This choice only mentions part of Ripley’s goal, and it doesn’t mention Brook Farm at all. Choice B is incorrect. This choice defines what a utopia is but doesn’t use Ripley’s words to describe his vision for Brook Farm. Choice C is incorrect. This choice provides some background information about Brook Farm, but it doesn’t explain its goals or include Ripley’s words.

Question Difficulty: Medium

Question ID 2b89bfe5

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	

ID: 2b89bfe5

While researching a topic, a student has taken the following notes:

- In 1999, astronomer Todd Henry studied the differences in surface temperature between the Sun and nearby stars. His team mapped all stars within 10 parsecs (approximately 200 trillion miles) of the Sun.
- The surface temperature of the Sun is around 9,800°F, which classifies it as a G star.
- 327 of the 357 stars in the study were classified as K or M stars, with surface temperatures under 8,900°F (cooler than the Sun).
- 11 of the 357 stars in the study were classified as A or F stars, with surface temperatures greater than 10,300°F (hotter than the Sun).

The student wants to emphasize how hot the Sun is relative to nearby stars. Which choice most effectively uses relevant information from the notes to accomplish this goal?

- At around 9,800°F, which classifies it as a G star, the Sun is hotter than most but not all of the stars within 10 parsecs of it.
- Astronomer Todd Henry determined that the Sun, at around 9,800°F, is a G star, and several other stars within a 10-parsec range are A or F stars.
- Of the 357 stars within ten parsecs of the Sun, 327 are classified as K or M stars, with surface temperatures under 8,900°F.
- While most of the stars within 10 parsecs of the Sun are classified as K, M, A, or F stars, the Sun is classified as a G star due to its surface temperature of 9,800°F.

ID: 2b89bfe5 Answer

Correct Answer: A

Rationale

Choice A is the best answer. Noting that the Sun (9,800°F) is hotter than most stars within 10 parsecs of it, the sentence emphasizes how hot the Sun is relative to nearby stars.

Choice B is incorrect. The sentence explains that astronomer Todd Henry determined the classifications for the Sun and several other stars nearby; it doesn't emphasize how hot the Sun is relative to nearby stars. Choice C is incorrect. The sentence explains that the majority of stars near the Sun are classified as K or M stars; it doesn't indicate the Sun's temperature or emphasize how hot it is relative to nearby stars. Choice D is incorrect. While the sentence indicates that the Sun is classified differently than most nearby stars due to its surface temperature, it doesn't emphasize how hot the Sun is relative to nearby stars.

Question Difficulty: Medium

Question ID 7572131d

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	

ID: 7572131d

While researching a topic, a student has taken the following notes:

- Elizabeth Catlett’s sculpture *Recognition* (1970) shows two African American figures with rounded, indistinct features.
- The figures reach out to each other in a pose that symbolizes a close, supportive relationship.
- Her sculpture *Students Aspire* (1978) shows two African American figures with sharply defined features.
- The figures hold an equal sign above their heads with one hand and embrace each other with the other hand.
- This pose symbolizes their support for each other in the pursuit of equality.

The student wants to emphasize a similarity between the two sculptures. Which choice most effectively uses relevant information from the notes to accomplish this goal?

- A. Catlett’s *Students Aspire* depicts two figures supporting each other in the pursuit of equality.
- B. *Recognition* and *Students Aspire* both show African American figures in poses that symbolize supportive relationships.
- C. Catlett completed *Recognition* in 1970 and *Students Aspire* in 1978.

- The figures in *Recognition* have features that are rounded and indistinct, while the figures in *Students Aspire* have sharply defined features.
- D. defined features.

ID: 7572131d Answer

Correct Answer: B

Rationale

Choice B is the best answer. The sentence emphasizes a similarity between the sculptures *Recognition* and *Students Aspire*, noting that both sculptures show African American figures in poses that symbolize supportive relationships.

Choice A is incorrect. The sentence describes one of the sculptures; it doesn’t emphasize a similarity between the two sculptures. Choice C is incorrect. The sentence specifies the different years the sculptures were completed in; it doesn’t emphasize a similarity between the two sculptures. Choice D is incorrect. The sentence emphasizes a difference between the two sculptures, noting that the figures in the sculptures have different feature definition; it doesn’t emphasize a similarity between the two sculptures.

Question Difficulty: Medium

Question ID 54c1b2dd

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	

ID: 54c1b2dd

While researching a topic, a student has taken the following notes:

- In 1851, German American artist Emanuel Leutze painted *Washington Crossing the Delaware*. His huge painting (149 × 255 inches) depicts the first US president crossing a river with soldiers in the Revolutionary War.
- In 2019, Cree artist Kent Monkman painted *mistikôsiwak (Wooden Boat People): Resurgence of the People*. Monkman’s huge painting (132 × 264 inches) was inspired by Leutze’s. It portrays Indigenous people in a boat rescuing refugees.

The student wants to emphasize a similarity between the two paintings. Which choice most effectively uses relevant information from the notes to accomplish this goal?

- A. Monkman, a Cree artist, finished his painting in 2019; Leutze, a German American artist, completed his in 1851. Although Monkman’s painting was inspired by Leutze’s, the people and actions the two paintings portray are very different.
- B. different.
- C. Leutze’s and Monkman’s paintings are both huge, measuring 149 × 255 inches and 132 × 264 inches, respectively.
- D. Leutze’s painting depicts Revolutionary War soldiers, while Monkman’s depicts Indigenous people and refugees.

ID: 54c1b2dd Answer

Correct Answer: C

Rationale

Choice C is the best answer. The sentence emphasizes a similarity between the two paintings, noting that Leutze’s painting (which measures 149 × 255 inches) and Monkman’s painting (which measures 132 × 264 inches) are both very large.

Choice A is incorrect. The sentence mentions that Monkman’s painting was completed in 2019 and Leutze’s was completed in 1851; it doesn’t emphasize a similarity between the two paintings. Choice B is incorrect. While the sentence acknowledges that one painting was inspired by the other, it emphasizes differences between the two paintings; it doesn’t emphasize a similarity between them. Choice D is incorrect. The sentence mentions a difference between the two paintings; it doesn’t emphasize a similarity between them.

Question Difficulty: Medium

Question ID 08be6347

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Transitions	

ID: 08be6347

In his 1925 book *The Morphology of Landscape*, US geographer Carl Sauer challenged prevailing views about how natural landscapes influence human cultures. _____ Sauer argued that instead of being shaped entirely by their natural surroundings, cultures play an active role in their own development by virtue of their interactions with the environment.

Which choice completes the text with the most logical transition?

- A. Similarly,
- B. Finally,
- C. Therefore,
- D. Specifically,

ID: 08be6347 Answer

Correct Answer: D

Rationale

Choice D is the best answer. “Specifically” logically signals that the information in this sentence about Sauer’s argument—that, according to Sauer, cultures play a role in their own development, as opposed to being shaped solely by natural surroundings—provides specific, precise details elaborating on the more general information in the previous sentence about how Sauer challenged prevailing views about how natural landscapes influence human cultures.

Choice A is incorrect because “similarly” illogically signals that the information in this sentence about Sauer’s argument is similar to, but separate from, the more general information in the previous sentence. Instead, it provides specific, precise details elaborating on that information. Choice B is incorrect because “finally” illogically signals that the information in this sentence about Sauer’s argument indicates a last step in a process or a concluding summary. Instead, it provides specific, precise details elaborating on the general information in the previous sentence. Choice C is incorrect because “therefore” illogically signals that the information in this sentence about Sauer’s argument is a result of the more general information in the previous sentence. Instead, it provides specific, precise details elaborating on that information.

Question Difficulty: Medium

Question ID 5d3177aa

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	

ID: 5d3177aa

While researching a topic, a student has taken the following notes:

- In the early 1960s, the US had a strict national-origins quota system for immigrants.
- The number of new immigrants allowed from a country each year was based on how many people from that country lived in the US in 1890.
- This system favored immigrants from northern Europe.
- Almost 70% of slots were reserved for immigrants from Great Britain, Ireland, and Germany.
- The 1965 Hart-Celler Act abolished the national-origins quota system.

The student wants to present the significance of the Hart-Celler Act to an audience unfamiliar with the history of US immigration. Which choice most effectively uses relevant information from the notes to accomplish this goal?

- Almost 70% of slots were reserved for immigrants from Great Britain, Ireland, and Germany at the time the Hart-Celler Act A. was proposed.
- Prior to the Hart-Celler Act, new immigration quotas were based on how many people from each country lived in the US in B. 1890.
- C. The quota system in place in the early 1960s was abolished by the 1965 Hart-Celler Act.
- D. The 1965 Hart-Celler Act abolished the national-origins quota system, which favored immigrants from northern Europe.

ID: 5d3177aa Answer

Correct Answer: D

Rationale

Choice D is the best answer. The sentence presents the significance of the Hart-Celler Act to an audience unfamiliar with the history of US immigration, noting that the 1965 act abolished the national-origins quota system and explaining why that mattered, historically: because the old quota system had favored immigrants from northern Europe.

Choice A is incorrect. The sentence describes an aspect of immigration policy at the time the Hart-Celler Act was proposed; it doesn't present the significance of the Hart-Celler Act to an audience unfamiliar with the history of US immigration. Choice B is incorrect. The sentence describes an aspect of immigration policy before the Hart-Celler Act; it doesn't describe or present the significance of the act to an audience unfamiliar with the history of US immigration. Choice C is incorrect. While the sentence indicates that the Hart-Celler Act abolished the old quota system, it doesn't explain the act or the quota system to an audience unfamiliar with the history of US immigration.

Question Difficulty: Medium

Question ID 7c9d0e38

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	

ID: 7c9d0e38

While researching a topic, a student has taken the following notes:

- Roughly 96% of Australia’s estimated 200,000 animal species are invertebrates.
- Invertebrates of the order Hymenoptera, which consists of sawflies, wasps, bees, and ants, are estimated to total 14,800 species in Australia.
- Invertebrates of the order Coleoptera, which consists of beetles and weevils, are estimated to total 28,200 species in Australia.
- Some of these invertebrates’ populations are threatened by invasive bird and fish species.

The student wants to emphasize the different orders in which Australia’s invertebrate animals are classified. Which choice most effectively uses relevant information from the notes to accomplish this goal?

- In Australia, 28,200 species are estimated to be beetles and weevils, both classified as invertebrates of the order
- A. Coleoptera.
- Among Australia’s many invertebrates, sawflies, wasps, bees, and ants belong to the order Hymenoptera, while beetles
- B. and weevils belong to the order Coleoptera.
- Many sawflies, wasps, bees, and ants of the order Hymenoptera are threatened by some of Australia’s invasive bird and
- C. fish species.
- D. The order Hymenoptera is estimated to make up 14,800 of Australia’s 200,000 animal species.

ID: 7c9d0e38 Answer

Correct Answer: B

Rationale

Choice B is the best answer. The sentence emphasizes the different orders that Australia’s invertebrates belong to, specifying that sawflies, wasps, bees, and ants belong to the order Hymenoptera, whereas beetles and weevils belong to the order Coleoptera.

Choice A is incorrect. The sentence only mentions one order, Coleoptera; it doesn’t emphasize the different orders that Australia’s invertebrates belong to. Choice C is incorrect. The sentence only mentions one order, Hymenoptera; it doesn’t emphasize the different orders that Australia’s invertebrates belong to. Choice D is incorrect. The sentence only mentions one order, Hymenoptera; it doesn’t emphasize the different orders that Australia’s invertebrates belong to.

Question Difficulty: Medium

Question ID 35507eba

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	

ID: 35507eba

While researching a topic, a student has taken the following notes:

- Pointillism is a painting technique in which small, distinct dots of color are applied in patterns to form an image.
- Betty Acquah is an artist from Ghana who uses pointillism in her work.
- “By extending dabs of color in the subject matter into the background and vice-versa, an illusion of movement is created,” she says about pointillism.
- Her work often portrays Ghanaian women, whom she sees as the “unsung heroines of the Ghanaian Republic.”
- Her pointillist painting “Exquisite” (2016) features five dancing women twirling their skirts.

The student wants to provide a quotation from Acquah that explains why she used pointillism in “Exquisite.” Which choice most effectively uses relevant information from the notes to accomplish this goal?

- In painting “Exquisite,” Acquah applied pointillism to create what she called an “illusion of movement” within the painting’s five dancing women and their twirling skirts.
- Pointillism, the technique used in Acquah’s “Exquisite,” involves the application of small, distinct dots of color.
- In “Exquisite,” Acquah uses a technique that she says involves “extending dabs of color in the subject matter into the background and vice-versa.”
- “Exquisite” portrays Acquah’s fellow Ghanaian women as she sees them: the “unsung heroes of the Ghanaian Republic.”

ID: 35507eba Answer

Correct Answer: A

Rationale

Choice A is the best answer. The sentence provides Acquah’s quotation about pointillism’s “illusion of movement” to explain that she used pointillism to create the illusion of movement in her painting of women dancing.

Choice B is incorrect. The sentence explains pointillism and indicates that Acquah used the technique in her painting, but it doesn’t provide a quotation or explain why. Choice C is incorrect. While the sentence provides a quotation from Acquah about pointillism, the quotation merely describes a specific aspect of the technique; the sentence doesn’t explain why Acquah used pointillism in her painting. Choice D is incorrect. While the sentence provides a quotation from Acquah, the quotation illustrates Acquah’s views on Ghanaian women; the sentence doesn’t explain why Acquah used pointillism in her painting.

Question Difficulty: Medium

Question ID f1631638

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	

ID: f1631638

While researching a topic, a student has taken the following notes:

- Gaspar Enriquez is an artist. He specializes in portraits of Mexican Americans.
- A portrait is an artistic representation of a person.
- Enriquez completed a painting of the sculptor Luis Jimenez in 2003.
- He completed a drawing of the writer Rudolfo Anaya in 2016.

The student wants to emphasize a difference between the two portraits. Which choice most effectively uses relevant information from the notes to accomplish this goal?

The portraits, or artistic representations, of Luis Jimenez and Rudolfo Anaya were both completed by Enriquez in the

A. early 2000s.

Enriquez has completed portraits of numerous Mexican Americans, including sculptor Luis Jimenez and writer Rudolfo

B. Anaya.

While both are by Enriquez, the 2003 portrait of Luis Jimenez is a painting, and the 2016 portrait of Rudolfo Anaya is a

C. drawing.

D. Luis Jimenez was a Mexican American sculptor, and Rudolfo Anaya was a Mexican American writer.

ID: f1631638 Answer

Correct Answer: C

Rationale

Choice C is the best answer. The sentence emphasizes a difference between the portraits, noting that one is a painting and the other is a drawing.

Choice A is incorrect. The sentence emphasizes a similarity between the two portraits rather than a difference. Choice B is incorrect. The sentence makes a generalization about Enriquez’s portraits; it doesn’t emphasize a difference between the portraits of Jimenez and Anaya. Choice D is incorrect. While the sentence notes a difference between Jimenez and Anaya, it doesn’t emphasize a difference between, or even mention, their portraits.

Question Difficulty: Medium

Question ID 1b94a80a

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	

ID: 1b94a80a

While researching a topic, a student has taken the following notes:

- Wool is a natural—and economically important—fiber that is obtained from animals like sheep.
- Australia is a leading producer of wool. The thickness of wool fibers varies across sheep breeds.
- Merino sheep produce fine wool that is used for apparel.
- Rambouillet sheep produce fine wool that is used for apparel.
- Romney sheep produce thick wool that is used for rugs and blankets.

The student wants to emphasize how Romney wool differs from Merino and Rambouillet wool. Which choice most effectively uses relevant information from the notes to accomplish this goal?

- A. Romney wool is just one of the many kinds of wools, each originating from a different breed of sheep.
- B. Sheep wool varies from breed to breed, so Romney wool will be different than other kinds of wool.

The fine wool produced by Merino and Rambouillet sheep is used for apparel, whereas the thicker wool of Romney sheep

- C. is used in rugs and blankets.

Wool is an economically important fiber—especially in Australia—that can be used to make apparel or even rugs and

- D. blankets.

ID: 1b94a80a Answer

Correct Answer: C

Rationale

Choice C is the best answer. This choice most effectively emphasizes how Romney wool differs from Merino and Rambouillet wool. It describes the difference in thickness and the difference in what they’re used for.

Choice A is incorrect. This choice doesn’t emphasize how Romney wool differs from Merino and Rambouillet wool. It doesn’t mention Merino or Rambouillet wool at all. Choice B is incorrect. This choice doesn’t emphasize how Romney wool differs from Merino and Rambouillet wool. It doesn’t mention Merino or Rambouillet wool at all. Choice D is incorrect. This choice doesn’t emphasize how Romney wool differs from Merino and Rambouillet wool. It doesn’t mention Romney, Merino or Rambouillet wool at all.

Question Difficulty: Medium

Question ID 88308a39

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	

ID: 88308a39

While researching a topic, a student has taken the following notes:

Shaun Tan is an Australian author. In 2008, he published *Tales from Outer Suburbia*, a book of fifteen short stories. The stories describe surreal events occurring in otherwise ordinary suburban neighborhoods.

In 2018, he published *Tales from the Inner City*, a book of twenty-five short stories. The stories describe surreal events occurring in otherwise ordinary urban settings.

The student wants to emphasize a similarity between the two books by Shaun Tan. Which choice most effectively uses relevant information from the notes to accomplish this goal?

- Shaun Tan’s book *Tales from Outer Suburbia*, which describes surreal events occurring in otherwise ordinary places,
- A. contains fewer short stories than *Tales from the Inner City* does.
- B. *Tales from Outer Suburbia* was published in 2008, and *Tales from the Inner City* was published in 2018.
- C. Unlike *Tales from the Inner City*, Shaun Tan’s book *Tales from Outer Suburbia* is set in suburban neighborhoods.

- Shaun Tan’s books *Tales from Outer Suburbia* and *Tales from the Inner City* both describe surreal events occurring in
- D. otherwise ordinary places.

ID: 88308a39 Answer

Correct Answer: D

Rationale

Choice D is the best answer. The sentence uses “both” to emphasize a thematic similarity between Tan’s two books, noting that both *Tales from Outer Suburbia* and *Tales from the Inner City* describe surreal events occurring in otherwise ordinary places.

Choice A is incorrect. The sentence emphasizes a difference (one contains fewer stories than the other), not a similarity, between the two books. Choice B is incorrect. The sentence indicates that Tan’s books were published ten years apart; it doesn’t emphasize a similarity between the two books. Choice C is incorrect. The sentence uses “unlike” to emphasize a difference between *Tales from Outer Suburbia* and *Tales from the Inner City*; it doesn’t emphasize a similarity between the two books.

Question Difficulty: Medium

Question ID 56cad44a

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	

ID: 56cad44a

While researching a topic, a student has taken the following notes:

- Mexican tetras are a fish species with two distinct populations.
- Surface-dwelling tetras live on the surface and are able to see.
- Cave-dwelling tetras live in total darkness and have lost the ability to see.
- Cave-dwelling tetras have asymmetrical skulls with more sensory receptors on one side than the other.
- These receptors help cave-dwelling tetras navigate in darkness.

The student wants to emphasize a difference between surface-dwelling and cave-dwelling tetras. Which choice most effectively uses relevant information from the notes to accomplish this goal?

- A. Surface-dwelling and cave-dwelling tetras may belong to the same species, but they are quite different.
- B. Cave-dwelling tetras can no longer see but use sensory receptors on their skulls to navigate.
- C. Mexican tetras are a fish species with two distinct populations: surface-dwelling tetras and cave-dwelling tetras.
- D. Surface-dwelling tetras can see, whereas cave-dwelling tetras cannot.

ID: 56cad44a Answer

Correct Answer: D

Rationale

Choice D is the best answer. The sentence emphasizes a difference between surface-dwelling and cave-dwelling tetras, noting that while surface-dwelling tetras can see, cave-dwelling tetras can't.

Choice A is incorrect. While the sentence notes that surface-dwelling and cave-dwelling tetras are different, it doesn't emphasize any difference between the two populations of tetras. Choice B is incorrect because the sentence explains that cave-dwelling tetras use sensory receptors on their skulls to navigate; it doesn't emphasize a difference between surface-dwelling and cave-dwelling tetras. Choice C is incorrect. While the sentence notes that there are two different populations of Mexican tetras, it doesn't emphasize any difference between the two populations.

Question Difficulty: Medium

Question ID feb1e6da

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Transitions	

ID: feb1e6da

Biographer Michael Gorra notes that the novelist Henry James “lived in a world of second thoughts,” frequently tinkering with his novels and stories after their initial publication. However, the differences between the 1881 first edition and the 1908 edition of his novel *A Portrait of a Lady* are extreme, even by James’s standards; _____ some critics regard the two editions as two different novels altogether.

Which choice completes the text with the most logical transition?

- A. by contrast,
- B. in fact,
- C. nevertheless,
- D. in other words,

ID: feb1e6da Answer

Correct Answer: B

Rationale

Choice B is the best answer. "In fact" logically signals that the critics’ claim at the end of this sentence—that the two editions are essentially two different novels altogether—offers additional emphasis in support of the previous claim that the differences between the editions are extreme.

Choice A is incorrect because "by contrast" illogically signals that the claim at the end of this sentence contrasts with the previous claim about the differences between the editions. Instead, the critics’ opinion offers additional emphasis in support of that claim. Choice C is incorrect because "nevertheless" illogically signals that the claim at the end of this sentence is true despite the previous claim about the differences between the two editions. Instead, the critics’ opinion offers additional emphasis in support of that claim. Choice D is incorrect because "in other words" illogically signals that the claim at the end of this sentence is merely paraphrasing the previous claim about the differences between the two editions. The critics’ opinion adds new information to the previous claim rather than simply paraphrasing it.

Question Difficulty: Medium

Question ID 388b45aa

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Transitions	

ID: 388b45aa

Establishing Coordinated Universal Time (UTC) is no easy task. Each month, readings of a single second from atomic clocks around the world are taken and sent to the International Bureau of Weights and Measures (BIPM) in France. _____ BIPM metrologists perform the meticulous work of assembling these minutely disparate readings into a globally shared time standard.

Which choice completes the text with the most logical transition?

- A. There,
- B. In particular,
- C. For example,
- D. Conversely,

ID: 388b45aa Answer

Correct Answer: A

Rationale

Choice A is the best answer. "There" indicates that the work of calculating Coordinated Universal Time takes place at the International Bureau of Weights and Measures in France. Because "there" indicates a location, it fits the context perfectly.

Choice B is incorrect. This choice uses an exemplification transition, which doesn't make sense here. This sentence is describing where the work of coordinating Coordinated Universal Time takes place, not giving an example of the work described in the previous sentence. Choice C is incorrect. This choice uses an exemplification transition, which doesn't make sense here. This sentence is describing where the work of coordinating Coordinated Universal Time takes place, not giving an example of the work described in the previous sentence. Choice D is incorrect. This choice uses a disagreement transition. But this sentence doesn't disagree with the previous sentence. They both describe the work involved in calculating Coordinated Universal Time.

Question Difficulty: Medium

Question ID dede8260

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	

ID: dede8260

While researching a topic, a student has taken the following notes:

When medical students mention their patients on social media, they may violate patient confidentiality. Terry Kind led a study to determine how many medical schools have student policies that mention social media use. Kind and her team reviewed 132 medical school websites, examining publicly available student policies. Only thirteen medical schools had guidelines that explicitly mention social media, and only five defined what constitutes acceptable social media use.

The student wants to emphasize the study’s methodology. Which choice most effectively uses relevant information from the notes to accomplish this goal?

- A. The student policies of 132 medical schools can be found online, according to research by Terry Kind.

To find out how many medical schools have guidelines about student social media use, Terry Kind and her team
- B. examined the student policies of 132 medical schools.

Out of 132 medical schools, only thirteen had student policies that mentioned social media, and only five specified what
- C. use was acceptable.

Terry Kind and her team wanted to know how many medical schools have student social media policies in place about
- D. protecting patient confidentiality.

ID: dede8260 Answer

Correct Answer: B

Rationale

Choice B is the best answer. The sentence effectively emphasizes Kind’s methodology: examining the student policies of 132 medical schools for guidelines about student social media use.

Choice A is incorrect. The sentence specifies how many medical schools’ student policies are available online; it doesn’t emphasize the study’s methodology. Choice C is incorrect. The sentence emphasizes the study’s results, not the study’s methodology. Choice D is incorrect. The sentence emphasizes the aim of the study, not the study’s methodology.

Question Difficulty: Medium

Question ID 81315093

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	

ID: 81315093

While researching a topic, a student has taken the following notes:

- A marathon is a long-distance running race that is 26.2 miles long.
- An ultramarathon is a long-distance running race of more than 26.2 miles.
- The Kepler Challenge is a one-day, 37.3-mile ultramarathon in New Zealand.
- The Spreelauf is a six-day, 261-mile ultramarathon in Germany.

The student wants to make a generalization about ultramarathons. Which choice most effectively uses relevant information from the notes to accomplish this goal?

- Examples of ultramarathons include the 37.3-mile Kepler Challenge in New Zealand and the 261-mile Spreelauf in A. Germany.
- B. A marathon is 26.2 miles long, but the Spreelauf ultramarathon, at 261 miles, is far longer.
- C. Ultramarathons range widely in length, from a few dozen miles to a few hundred.
- D. While the Kepler Challenge is a one-day ultramarathon, the Spreelauf is a six-day ultramarathon.

ID: 81315093 Answer

Correct Answer: C

Rationale

Choice C is the best answer. This is the only choice that makes a generalization about ultramarathons.

Choice A is incorrect. This choice gives specific examples of ultramarathons but doesn't say anything about them as a category. Choice B is incorrect. This choice compares marathons in general to one specific ultramarathon but doesn't say anything about ultramarathons as a category. Choice D is incorrect. This choice contrasts two specific ultramarathons but doesn't say anything about them as a category.

Question Difficulty: Medium

Question ID 49fe306b

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	

ID: 49fe306b

While researching a topic, a student has taken the following notes:

- From Earth, all the meteors in a meteor shower appear to originate from a single spot in the sky.
- This spot is called the meteor shower’s radiant.
- The Perseid meteor shower is visible in the northern hemisphere in July and August.
- Like many meteor showers, it is named for the location of its radiant.
- Its radiant is located within the constellation Perseus.

The student wants to explain the origin of the Perseid meteor shower’s name. Which choice most effectively uses relevant information from the notes to accomplish this goal?

- A. The Perseid meteor shower is named for the constellation Perseus, the location of the meteor shower’s radiant.
- B. A meteor shower’s name may be linked to a single spot in the sky.
- C. The Perseid meteor shower, which has a radiant, is visible in the northern hemisphere in July and August.
- D. From Earth, all the meteors in a meteor shower appear to originate from a radiant, such as the one within Perseus.

ID: 49fe306b Answer

Correct Answer: A

Rationale

Choice A is the best answer. The sentence explains the origin of the Perseid meteor shower’s name: the constellation Perseus, where the meteor shower’s radiant is located.

Choice B is incorrect. The sentence makes a claim about meteor shower names in general; it doesn’t explain the origin of the Perseid meteor shower’s name specifically. Choice C is incorrect. The sentence indicates when and where the Perseid meteor shower is visible; it doesn’t explain the origin of the meteor shower’s name. Choice D is incorrect. The sentence discusses meteor showers in general; it doesn’t explain the origin of the Perseid meteor shower’s name.

Question Difficulty: Medium

Question ID 5888712f

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	

ID: 5888712f

While researching a topic, a student has taken the following notes:

- Physicist Muluneh Abebe was working on a garment suited for both warm and cold conditions.
- He analyzed the emissivity, or ability to emit heat, of the materials he planned to use.
- Abebe found that reflective metal fibers emitted almost no heat and had an emissivity of 0.02.
- He found that silicon carbide fibers absorbed large amounts of heat and had an emissivity of 0.74.
- The amount of heat a material absorbs is equal to the amount of heat it emits.

The student wants to contrast the emissivity of reflective metal fibers with that of silicon carbide fibers. Which choice most effectively uses relevant information from the notes to accomplish this goal?

- The ability of reflective metal fibers and silicon carbide fibers to emit heat was determined by an analysis of each
- A. material’s emissivity.
 - B. The amount of heat a material absorbs is equal to the amount it emits, as evidenced in Abebe’s analyses.
 - C. in a garment.
 - D. heat, resulting in an emissivity of 0.74.

ID: 5888712f Answer

Correct Answer: D

Rationale

Choice D is the best answer. The sentence uses “whereas” to contrast the emissivities of the two fibers, noting that the emissivity of the reflective metal fibers was just 0.02, far lower than that of the silicon carbide fibers (0.74).

Choice A is incorrect. The sentence emphasizes the ability of reflective metal fibers and silicon carbide fibers to emit heat; it doesn’t contrast the emissivities of the two fibers. Choice B is incorrect. The sentence states a law of thermodynamics: the amount of heat a material absorbs is equal to the amount it emits. The sentence doesn’t contrast the emissivity of reflective metal fibers with that of silicon carbide fibers. Choice C is incorrect. While the sentence includes a generalization about the emissivities of reflective metal fibers and silicon carbide fibers, it emphasizes Abebe’s plans for their use in a garment; it doesn’t contrast the emissivities of the two fibers.

Question Difficulty: Medium

Question ID 8622320e

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Transitions	

ID: 8622320e

Earth’s auroras—colorful displays of light seen above the northern and southern poles—result, broadly speaking, from the Sun’s activity. _____ the Sun releases charged particles that are captured by Earth’s magnetic field and channeled toward the poles. These particles then collide with atoms in the atmosphere, causing the atoms to emit auroral light.

Which choice completes the text with the most logical transition?

- A. Specifically,
- B. Similarly,
- C. Nevertheless,
- D. Hence,

ID: 8622320e Answer

Correct Answer: A

Rationale

Choice A is the best answer. “Specifically” logically signals that the information in this sentence—that the Sun releases charged particles that later collide with atoms, resulting in auroral light—provides specific, precise details about how auroras result from the Sun’s activity.

Choice B is incorrect because “similarly” illogically signals that the information in this sentence is similar to the general information about auroras in the previous sentence. Instead, this sentence provides specific, precise details about how auroras form. Choice C is incorrect because “nevertheless” illogically signals that the information in this sentence is despite the general information about auroras in the previous sentence. Instead, this sentence provides specific, precise details about how auroras form. Choice D is incorrect because “hence” illogically signals that the information in this sentence is a result of the general information about auroras in the previous sentence. Instead, this sentence provides specific, precise details about how auroras form.

Question Difficulty: Medium

Question ID 04397a63

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	

ID: 04397a63

While researching a topic, a student has taken the following notes:

The Haudenosaunee Confederacy is a nearly 1,000-year-old alliance of six Native nations in the northeastern US.

The members are bound by a centuries-old agreement known as the Great Law of Peace.

Historian Bruce Johansen is one of several scholars who believe that the principles of the Great Law of Peace influenced the US Constitution.

This theory is called the influence theory.

Johansen cites the fact that Benjamin Franklin and Thomas Jefferson both studied the Haudenosaunee Confederacy.

The student wants to present the influence theory to an audience unfamiliar with the Haudenosaunee Confederacy. Which choice most effectively uses relevant information from the notes to accomplish this goal?

A. Historian Bruce Johansen believes that the Great Law of Peace was very influential.

The influence theory is supported by the fact that Benjamin Franklin and Thomas Jefferson both studied the Haudenosaunee Confederacy.

The influence theory holds that the principles of the Great Law of Peace, a centuries-old agreement binding six Native nations in the northeastern US, influenced the US Constitution.

Native people, including the members of the Haudenosaunee Confederacy, influenced the founding of the US in many different ways.

ID: 04397a63 Answer

Correct Answer: C

Rationale

Choice C is the best answer. The sentence effectively presents the influence theory to an audience unfamiliar with the Haudenosaunee Confederacy, explaining the theory’s position that the Great Law of Peace influenced the US Constitution while avoiding mention of the Haudenosaunee Confederacy itself.

Choice A is incorrect. The sentence broadly emphasizes Johansen’s ideas about the Great Law of Peace; it doesn’t identify the influence theory or effectively present it. Choice B is incorrect. The sentence emphasizes one fact that supports the influence theory; it doesn’t effectively present the theory to an audience unfamiliar with the Haudenosaunee Confederacy. Choice D is incorrect. The sentence makes a broad generalization about Native people’s influence on the founding of the US; it doesn’t effectively present the influence theory.

Question Difficulty: Medium

Question ID 164a32e7

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	

ID: 164a32e7

While researching a topic, a student has taken the following notes:

- Claude McKay (1889–1948) was a Jamaican American writer.
- Songs of Jamaica* (1912) and *Constab Ballads* (1912) are two acclaimed poetry collections that McKay published while living in Jamaica.
- McKay moved to Harlem in New York City in 1914.
- He is best known as a poet and novelist of the Harlem Renaissance, a literary and cultural movement of the 1920s and 1930s.
- His most famous works include the poetry collection *Harlem Shadows* (1922) and the novel *Home to Harlem* (1928).

The student wants to emphasize Claude McKay’s accomplishments before moving to Harlem. Which choice most effectively uses relevant information from the notes to accomplish this goal?

- Jamaican American writer Claude McKay is the author of works such as *Songs of Jamaica* (1912), *Constab Ballads* (1912), *Harlem Shadows* (1922), and *Home to Harlem* (1928).
- Although he is best known as a Harlem Renaissance writer, Claude McKay had published two acclaimed poetry collections in 1912 while living in Jamaica: *Songs of Jamaica* and *Constab Ballads*.
- In 1914, Claude McKay moved to Harlem, where he would become known as a poet and novelist of the Harlem Renaissance (a literary and cultural movement of the 1920s and 1930s).
- Before moving to Harlem, Claude McKay—author of the poetry collection *Harlem Shadows* (1922) and the novel *Home to Harlem* (1928)—lived in Jamaica.

ID: 164a32e7 Answer

Correct Answer: B

Rationale

Choice B is the best answer. This choice contrasts McKay’s fame as a Harlem Renaissance writer with his earlier achievements as a Jamaican poet, and it names the two collections he published before moving to Harlem.

Choice A is incorrect. This choice doesn’t emphasize McKay’s accomplishments before moving to Harlem. It lists some of his works but doesn’t distinguish between those he wrote in Jamaica and those he wrote in Harlem. Choice C is incorrect. This choice doesn’t emphasize McKay’s accomplishments before moving to Harlem. It only mentions the year he moved and what he would become known for afterwards. Choice D is incorrect. This choice doesn’t emphasize McKay’s accomplishments before moving to Harlem. It mentions that he lived in Jamaica, but it doesn’t name any of the works he published there.

Question Difficulty: Medium

Question ID 0d088ae0

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Transitions	

ID: 0d088ae0

Observing that a fire in a closed container soon went out, leading eighteenth-century scientists did not conclude that fresh air (specifically, oxygen) is necessary for combustion; instead, many theorized that the container’s air had become saturated with a substance called phlogiston. _____ when Joseph Priestley first isolated oxygen gas in 1774, he termed it “dephlogisticated air.”

Which choice completes the text with the most logical transition?

- A. In other words,
- B. For this reason,
- C. Alternatively,
- D. Nevertheless,

ID: 0d088ae0 Answer

Correct Answer: B

Rationale

Choice B is the best answer. "For this reason" logically signals that the reason Joseph Priestley termed oxygen "dephlogisticated air" was that he accepted the theory mentioned in the previous sentence—that the presence of phlogiston, rather than the absence of oxygen, causes fire in a closed container to go out.

Choice A is incorrect because "in other words" illogically signals that the information about Priestley terming oxygen "dephlogisticated air" is a restatement of the previous theory concerning phlogiston. Instead, Priestley chose the term as a result of this theory. Choice C is incorrect because "alternatively" illogically signals that Priestley termed oxygen "dephlogisticated air" as an alternative to the previous theory concerning phlogiston. Instead, Priestley chose the term as a result of this theory. Choice D is incorrect because "nevertheless" illogically signals that Priestley termed oxygen "dephlogisticated air" despite the previous theory concerning phlogiston. Instead, Priestley chose the term as a result of this theory.

Question Difficulty: Medium

Question ID 804928b6

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	

ID: 804928b6

While researching a topic, a student has taken the following notes:

- Mary Kang is a Korean American portrait photographer. She is based in New York City and in Austin, Texas.
- One of Kang’s photographs features artist Dominique Fung. In the portrait, Fung is seated on the floor.
- Five of Fung’s paintings are resting against the wall behind her.

The student wants to describe where Fung is in the photograph to an audience already familiar with Kang and Fung. Which choice most effectively uses relevant information from the notes to accomplish this goal?

- A. Dominique Fung is in a photograph by Mary Kang, a portrait photographer based in New York City and Austin, Texas.
- B. Mary Kang is a photographer based in both New York City and Austin, Texas.
- C. Five paintings by artist Dominique Fung can be seen in the background of Mary Kang’s photograph.
- D. In Kang’s portrait of her, Fung is seated on the floor, with five of her paintings resting against the wall behind her.

ID: 804928b6 Answer

Correct Answer: D

Rationale

Choice D is the best answer. The sentence describes Fung’s location in Kang’s photograph, noting that Fung is seated on the floor. Additionally, because the sentence is intended for an audience already familiar with the artists, it omits the artists’ first names and other biographical information about them.

Choice A is incorrect. The sentence indicates that Fung appears in Kang’s photograph; it doesn’t describe Fung’s location in Kang’s photograph. Choice B is incorrect. The sentence identifies Kang and where she is based; it doesn’t describe Fung’s location in Kang’s photograph. Choice C is incorrect. The sentence describes the background of Kang’s photograph; it doesn’t describe Fung’s location in Kang’s photograph.

Question Difficulty: Medium

Question ID 17e49403

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Transitions	

ID: 17e49403

When, in the 1800s, geologists first realized that much of Earth had once been covered by great sheets of ice, some theorized that the phenomenon was cyclical, occurring at regular intervals. Each Ice Age is so destructive, though, that it largely erases the geological evidence of its predecessor. _____ geologists were unable to confirm the theory of cyclical Ice Ages until the 1960s.

Which choice completes the text with the most logical transition?

- A. Hence,
- B. Moreover,
- C. Nevertheless,
- D. Next,

ID: 17e49403 Answer

Correct Answer: A

Rationale

Choice A is the best answer. “Hence” logically signals that the information in this sentence—that geologists couldn’t confirm the theory of cyclical Ice Ages until the 1960s—is a consequence of the previous information about the destructiveness of each Ice Age and the erasure of necessary geological evidence.

Choice B is incorrect because “moreover” illogically signals that the information in this sentence is merely additional to the previous information about the destructiveness of each Ice Age. Instead, the sentence identifies a specific consequence of that information. Choice C is incorrect because “nevertheless” illogically signals that the information in this sentence is true despite the previous information about the destructiveness of each Ice Age. Instead, the sentence identifies a specific consequence of that information. Choice D is incorrect because “next” illogically signals that the information in this sentence is the next step in a process. Instead, the sentence identifies a specific consequence of the previous information.

Question Difficulty: Medium

Question ID 4223d4a6

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	

ID: 4223d4a6

While researching a topic, a student has taken the following notes:

- In 1965, Yale University historians claimed that a world map called the Vinland Map was drawn in the fifteenth century.
- Since that time, the map’s age has been the subject of debate.
- In 2021, researchers conducted a study to analyze the elemental composition of the map’s ink.
- Their analysis revealed that the ink contains a titanium compound not used in inks until the 1920s.
- The researchers concluded that the map was drawn in the twentieth century.

The student wants to present the study and its findings. Which choice most effectively uses relevant information from the notes to accomplish this goal?

- Given the debate about the Vinland Map’s age, researchers in 2021 conducted a study to analyze the elemental
- A. composition of the map’s ink.
 - B. indicating that the map was drawn in the twentieth century.
 - C. The Vinland Map, believed by some to have been drawn in the fifteenth century, was the focus of a 2021 study.
 - D. composition of the Vinland Map’s ink.
- Aware that a certain titanium compound was not used in inks until the 1920s, researchers in 2021 studied the elemental

ID: 4223d4a6 Answer

Correct Answer: B

Rationale

Choice B is the best answer. The sentence effectively presents the study and its findings, providing relevant information: a 2021 study of the Vinland Map found that the map’s ink contains a compound not used in inks until the twentieth century.

Choice A is incorrect. While the sentence introduces the study, it does not present the study’s findings. Choice C is incorrect. While the sentence mentions the study, it does not effectively present the study or its findings. Choice D is incorrect. While the sentence introduces the study, it does not present the study’s findings.

Question Difficulty: Medium

Question ID 7aac173e

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	

ID: 7aac173e

While researching a topic, a student has taken the following notes:

- Architect Julian Abele studied Gregorian and neo-Gothic architecture in Europe.
- Abele worked for an architecture firm that was hired in 1924 to design buildings for Duke University’s new campus.
- Most of the buildings on Duke’s campus were designed in the Gregorian or neo-Gothic architectural styles.
- At the time, Abele was not formally credited with designing the buildings.
- Based on the buildings’ architectural styles, historians believe Abele designed most of the campus buildings.

The student wants to specify why historians believe Abele designed most of Duke’s campus buildings. Which choice most effectively uses relevant information from the notes to accomplish this goal?

- Given that most of the buildings on Duke’s campus feature architectural styles that Abele had studied in Europe,
- A. historians believe Abele is the one who designed them.
- Though Abele wasn’t formally credited at the time, historians believe he designed most of the buildings on Duke’s
- B. campus.
- Most of Duke’s campus buildings, which were designed by a firm Abele worked for, were designed in the Gregorian and
- C. neo-Gothic architectural styles.
- Abele, an architect who studied Gregorian and neo-Gothic architecture in Europe, is believed to have designed most of
- D. the buildings on Duke’s campus.

ID: 7aac173e Answer

Correct Answer: A

Rationale

Choice A is the best answer. The sentence specifies why historians believe Abele designed most of Duke’s campus buildings, noting that most of the buildings feature architectural styles that Abele had studied.

Choice B is incorrect. While the sentence explains that historians believe Abele designed most of Duke’s campus buildings, it doesn’t specify why historians hold that belief. Choice C is incorrect because the sentence emphasizes the architectural styles of Duke’s campus buildings; it doesn’t specify why historians believe Abele designed the buildings. Choice D is incorrect. While the sentence explains that Abele is believed to have designed most of the buildings on Duke’s campus, it doesn’t specify why historians believe that he designed the buildings.

Question Difficulty: Medium

Question ID 72ae9bca

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	

ID: 72ae9bca

While researching a topic, a student has taken the following notes:

- In the early 1900s, suffragists organized marches for women’s voting rights.
- Suffragists in the United Kingdom marched from Edinburgh to London.
- This march began on October 12, 1912, and ended on November 16, 1912.
- Suffragists in the United States marched from New York City to Albany, New York.
- This march began on December 16, 1912, and ended on December 28, 1912.

The student wants to emphasize the order in which the two marches occurred. Which choice most effectively uses relevant information from the notes to accomplish this goal?

- After suffragists in the UK marched from Edinburgh to London, suffragists in the US marched from New York City to Albany, New York.
- In the early 1900s, suffragists in the UK and the US marched for women’s voting rights.
- A march from New York City to Albany, New York, was followed by one that began in Edinburgh and ended in London.
- From October 12 to November 16, 1912, suffragists in the UK marched from Edinburgh to London.

ID: 72ae9bca Answer

Correct Answer: A

Rationale

Choice A is the best answer. The sentence emphasizes the order in which the two marches occurred, correctly indicating that the US march (December 16 to December 28, 1912) occurred after the march in the UK (October 12 to November 16, 1912).

Choice B is incorrect. While the sentence mentions that both marches took place in the early 1900s, it doesn’t emphasize the order in which the two marches occurred. Choice C is incorrect. While the sentence does emphasize the order in which the two marches occurred, the order is incorrect. The UK march took place from October 12 to November 16, 1912, which was before the US march (December 1912). Choice D is incorrect. While the sentence specifies the dates of the UK march, it doesn’t mention the US march or emphasize the order in which the two marches occurred.

Question Difficulty: Medium

Question ID d54e16ee

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Transitions	

ID: d54e16ee

Originally coined by economist Joan Robinson to refer to markets with multiple sellers of a product but only one buyer, the term “monopsony” can also refer to markets where demand for labor is limited. In a product monopsony, the single buyer can force sellers to lower their prices. _____ in a labor monopsony, employers can force workers to accept lower wages.

Which choice completes the text with the most logical transition?

- A. Earlier,
- B. Instead,
- C. Similarly,
- D. In particular,

ID: d54e16ee Answer

Correct Answer: C

Rationale

Choice C is the best answer. “Similarly” logically signals that the information in this sentence about a labor monopsony is similar to the information in the previous sentence about a product monopsony. In both types of markets, one party (an employer or a buyer) has the power to force another party (a worker or seller) to accept less money (for labor or products).

Choice A is incorrect because “earlier” illogically signals that the information in this sentence about a labor monopsony occurs earlier (in a chronological sequence) than the information about a product monopsony. Instead, it is similar to the information about a product monopsony. Choice B is incorrect because “instead” illogically signals that the information in this sentence about a labor monopsony is an alternative to the previous information about a product monopsony. Instead, it is similar to the information about a product monopsony. Choice D is incorrect because “in particular” illogically signals that the information in this sentence about a labor monopsony provides specific details elaborating on the previous information about a product monopsony. Instead, it is similar to the information about a product monopsony.

Question Difficulty: Medium

Question ID a1ca7ec4

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	

ID: a1ca7ec4

While researching a topic, a student has taken the following notes:

- Cecilia Vicuña is a multidisciplinary artist.
- In 1971, her first solo art exhibition, *Pinturas, poemas y explicaciones*, was shown at the Museo Nacional de Bellas Artes in Santiago, Chile.
- Her poetry collection *Precario/Precarious* was published in 1983 by Tanam Press.
- Her poetry collection *Instan* was published in 2002 by Kelsey St. Press.
- She lives part time in Chile, where she was born, and part time in New York.

The student wants to introduce the artist’s 1983 poetry collection. Which choice most effectively uses relevant information from the notes to accomplish this goal?

- Before she published the books *Precario/Precarious* (1983) and *Instan* (2002), Cecilia Vicuña exhibited visual art at the Museo Nacional de Bellas Artes in Santiago, Chile.
- Cecilia Vicuña is a true multidisciplinary artist whose works include numerous poetry collections and visual art exhibitions.
- Published in 1983 by Tanam Press, *Precario/Precarious* is a collection of poetry by the multidisciplinary artist Cecilia Vicuña.
- In 1971, Cecilia Vicuña exhibited her first solo art exhibition, *Pinturas, poemas y explicaciones*, in Chile, her country of birth.

ID: a1ca7ec4 Answer

Correct Answer: C

Rationale

Choice C is the best answer. The sentence effectively introduces the poetry collection *Precario/Precarious*, noting that it is a collection by Vicuña that was published in 1983 by Tanam Press.

Choice A is incorrect. While the sentence mentions the 1983 poetry collection *Precario/Precarious*, it focuses mainly on Vicuña’s visual art. Choice B is incorrect. The sentence doesn’t introduce the 1983 poetry collection *Precario/Precarious*; instead, it introduces Vicuña. Choice D is incorrect. The sentence emphasizes the location of Vicuña’s 1971 exhibition *Pinturas, poemas y explicaciones*; it doesn’t introduce the 1983 poetry collection *Precario/Precarious*.

Question Difficulty: Medium

Question ID 4c26f18a

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	

ID: 4c26f18a

While researching a topic, a student has taken the following notes:

- By interlocking their bodies, ants can form bridges to help fellow ants cross gaps.
- In 2020, Yasemin Ozkan-Aydin was inspired by ant behavior to design collaborative quadruped robots.
- Over the course of a year, she designed, built, tested, and refined her robots.
- Each robot is programmed to send a signal to another robot upon encountering a gap in a path.
- The signaled robot connects to the back of the signaler robot via magnetic sensors and pushes it across the gap.

The student wants to begin a narrative about the creation of the robots. Which choice most effectively uses relevant information from the notes to accomplish this goal?

- When one of Yasemin Ozkan-Aydin’s robots encounters a gap in its path, it sends a signal to another robot; the signaled
- A. robot connects to the back of the signaler and pushes it across the gap.
- B. After a year, Yasemin Ozkan-Aydin had designed, built, tested, and refined her robots.
- Inspired by ants, which form bridges with their interlocked bodies to help fellow ants cross gaps, Yasemin Ozkan-Aydin
- C. set out to design quadruped robots capable of similarly collaborative behavior.
- D. Ants, which have inspired the design of robots, form bridges by interlocking their bodies.

ID: 4c26f18a Answer

Correct Answer: C

Rationale

Choice C is the best answer. The sentence effectively begins a narrative about the creation of the robots, explaining that ants’ gap-crossing technique inspired Yasemin Ozkan-Aydin to "set out to design" robots that could collaborate in a similar manner.

Choice A is incorrect. The sentence describes how the robots work together to cross gaps; it doesn’t effectively begin a narrative about the creation of the robots. Choice B is incorrect. The sentence provides an overview of the steps Ozkan-Aydin took in creating the robots; it doesn’t effectively begin a narrative about their creation. Choice D is incorrect. The sentence explains how ants form bridges; it doesn’t effectively begin a narrative about the creation of the robots.

Question Difficulty: Medium

Question ID d7c5388f

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	

ID: d7c5388f

While researching a topic, a student has taken the following notes:

- Planetary scientists classify asteroids based on their composition.
- C-type asteroids are composed primarily of carbon. They account for roughly 75 percent of known asteroids.
- S-type asteroids are primarily made up of silicate minerals. They account for roughly 17 percent of known asteroids.

The student wants to emphasize a difference between C-type and S-type asteroids. Which choice most effectively uses relevant information from the notes to accomplish this goal?

- A. Planetary scientists classify asteroids into types, two of which are the C-type and the S-type.

Planetary scientists consider an asteroid’s composition (such as whether the asteroid is composed mainly of silicate minerals or carbon) when classifying it.
- B. minerals or carbon) when classifying it.

Roughly 17 percent of known asteroids are classified as S-type asteroids; another percentage is classified as C-type asteroids.
- C. asteroids.

D. C-type asteroids are mainly composed of carbon, whereas S-type asteroids are primarily made up of silicate minerals.

ID: d7c5388f Answer

Correct Answer: D

Rationale

Choice D is the best answer. The sentence emphasizes a difference between C-type and S-type asteroids, noting that C-type asteroids are mainly composed of carbon, while S-type asteroids are mainly composed of silicate minerals.

Choice A is incorrect. The sentence states that C-type and S-type are two types of asteroids, but it doesn’t emphasize a difference between them. Choice B is incorrect because it doesn’t directly mention C-type or S-type asteroids. Choice C is incorrect. While the sentence mentions that 17 percent of known asteroids are S-type asteroids, it doesn’t identify the percentage of asteroids that are C-type. Therefore, the sentence doesn’t emphasize a difference between the two types.

Question Difficulty: Medium

Question ID 6d883838

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Transitions	

ID: 6d883838

According to Duverger’s law, countries with single-ballot majoritarian elections for single-member districts tend to polarize into two-party systems, wherein dueling political parties consistently dominate the political system. _____ countries with proportional-representation electoral systems tend to support multi-partyism, under which power gets distributed among many political parties.

Which choice completes the text with the most logical transition?

- A. Subsequently,
- B. Conversely,
- C. For instance,
- D. In other words,

ID: 6d883838 Answer

Correct Answer: B

Rationale

Choice B is the best answer. "Conversely" logically signals that the information in this sentence—that countries with proportional-representation electoral systems tend toward multi-partyism—contrasts with the previous information about countries with single-ballot majoritarian elections, which tend to have two-party systems.

Choice A is incorrect because "subsequently" illogically signals that the information in this sentence about countries with proportional-representation electoral systems occurs later in a chronological sequence of events than the information in the previous sentence. Instead, it contrasts with the previous information. Choice C is incorrect because "for instance" illogically signals that the information in this sentence about countries with proportional-representation electoral systems is an example supporting the previous statement about countries with single-ballot majoritarian elections. Instead, it contrasts with the previous statement. Choice D is incorrect because "in other words" illogically signals that the information in this sentence about countries with proportional-representation electoral systems is a paraphrase or restatement of the previous information about countries with single-ballot majoritarian elections. Instead, it contrasts with the previous information.

Question Difficulty: Medium

Question ID 0c13dea9

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Transitions	

ID: 0c13dea9

The chemical trimethylamine N-oxide not only gives fish their fishy smell but also protects them from crushing hydrostatic pressure in deep waters. Trimethylamine N-oxide strengthens the bonds between water molecules in a fish’s body. _____ these water molecules maintain their linked structure at extreme depths, thus preventing pressure-related damage.

Which choice completes the text with the most logical transition?

- A. Nevertheless,
- B. As a result,
- C. However,
- D. For instance,

ID: 0c13dea9 Answer

Correct Answer: B

Rationale

Choice B is the best answer. “As a result” indicates that water molecules maintaining their linked structure at high pressures is caused by the strengthening of these water molecules by trimethylamine N-oxide. So the transition “as a result” fits the context perfectly.

Choice A is incorrect. This choice uses a disagreement transition. But this sentence doesn’t disagree with the previous one—rather, it’s describing an effect of the phenomenon described in the previous sentence. Choice C is incorrect. This choice uses a disagreement transition. But this sentence doesn’t disagree with the previous one; it actually expands on the previous sentence by describing an effect of the strengthened molecules. Choice D is incorrect. This choice uses an exemplification transition, which doesn’t make sense here. The second sentence doesn’t provide an example or instance of the idea in the previous sentence. Instead, it explores the effects of the previous idea in more depth.

Question Difficulty: Medium

Question ID 4fde4454

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Transitions	

ID: 4fde4454

One poll taken after the first 1960 presidential debate suggested that John Kennedy lost badly: only 21 percent of those who listened on the radio rated him the winner. _____ the debate was ultimately considered a victory for the telegenic young senator, who rated higher than his opponent, Vice President Richard Nixon, among those watching on the new medium of television.

Which choice completes the text with the most logical transition?

- A. In other words,
- B. Therefore,
- C. Likewise,
- D. Nevertheless,

ID: 4fde4454 Answer

Correct Answer: D

Rationale

Choice D is the best answer. “Nevertheless” logically signals that the claim in this sentence—that the telegenic Kennedy was ultimately considered the winner of the debate—is true despite the previous information about the poll of radio listeners.

Choice A is incorrect because “in other words” illogically signals that the claim in this sentence is a paraphrase of the previous information about the poll of radio listeners. Instead, Kennedy was ultimately considered the winner despite what that poll suggested about his performance. Choice B is incorrect because “therefore” illogically signals that the claim in this sentence is a result of the previous information about the poll of radio listeners. Instead, Kennedy was ultimately considered the winner despite what that poll suggested about his performance. Choice C is incorrect because “likewise” illogically signals that the claim in this sentence is similar to the previous information about the poll of radio listeners. Instead, Kennedy was ultimately considered the winner despite what that poll suggested about his performance.

Question Difficulty: Medium

Question ID 34e1124f

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	

ID: 34e1124f

While researching a topic, a student has taken the following notes:

- In geology, an Aeolian landform is one that has been created by the wind.
- In Greek mythology, Aeolus is the keeper of the winds.
- Aeolian landforms are created when the wind erodes, transports, or deposits material.
- A mushroom rock is a rock formation in which the top is wider than the base.
- A mushroom rock can be formed when the wind erodes the base and the top at different rates.

The student wants to provide an explanation and an example of Aeolian landforms. Which choice most effectively uses relevant information from the notes to accomplish this goal?

- A. Aeolian landforms are created by different wind-based processes; for example, some are created by wind erosion.
Aeolian landforms—landforms created by the wind—include the mushroom rock, a rock formation in which the wind erodes the base of the rock faster than the top.
- B. erodes the base of the rock faster than the top.
Erosion, transportation, and deposition are three examples of how the wind can create Aeolian landforms and mushroom rocks.
- C. rocks.
A mushroom rock is a rock formation that owes its shape to the wind, a natural force associated with Aeolus in Greek mythology.
- D. mythology.

ID: 34e1124f Answer

Correct Answer: B

Rationale

Choice B is the best answer. The sentence provides an explanation and an example of Aeolian landforms, explaining that they are landforms created by wind and offering the mushroom rock as an example.

Choice A is incorrect. The sentence explains that Aeolian landforms are created by wind but does not provide an example of any specific Aeolian landforms. Rather, the example it provides is of a wind-based process. Choice C is incorrect. While the sentence provides a partial explanation of Aeolian landforms, noting that they are created by the wind, it does not effectively provide an example. The sentence seems to indicate that mushroom rocks, rather than being an example of Aeolian landforms, are distinct from them. Choice D is incorrect. While the sentence provides an explanation of a mushroom rock, which is a specific example of an Aeolian landform, it doesn't provide an explanation of Aeolian landforms in general.

Question Difficulty: Medium

Question ID 7fd39a42

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	

ID: 7fd39a42

While researching a topic, a student has taken the following notes:

- Circular particle accelerators known as synchrotrons radiate energy in the form of light.
- Synchrotron light is among the brightest light ever produced.
- Synchrotron light is an ideal tool for researchers investigating the structure of matter.
- The first synchrotron created for the purpose of providing synchrotron light was built in 1968.
- It was called Tantalus and was housed near the University of Wisconsin–Madison.

The student wants to emphasize the location of the first synchrotron built to provide synchrotron light. Which choice most effectively uses relevant information from the notes to accomplish this goal?

- A. Tantalus, the first synchrotron created for the purpose of providing synchrotron light, was built in 1968.

Circular particle accelerators known as synchrotrons radiate energy in the form of light, and this light is an ideal tool for
- B. researchers investigating the structure of matter.

The first synchrotron created for the purpose of providing synchrotron light, Tantalus, was housed near the University of
- C. Wisconsin–Madison.

Synchrotron light is among the brightest light ever produced, making it an ideal tool for researchers investigating the
- D. structure of matter.

ID: 7fd39a42 Answer

Correct Answer: C

Rationale

Choice C is the best answer. After identifying Tantalus as the first synchrotron built to provide light, the sentence emphasizes its location.

Choice A is incorrect. While the sentence identifies Tantalus as the first synchrotron built to provide light, it doesn't emphasize (or mention) its location. Choice B is incorrect. The sentence describes synchrotrons and how researchers use them; it doesn't emphasize (or mention) the location of Tantalus. Choice D is incorrect. The sentence describes synchrotron light and how researchers use it; the sentence doesn't emphasize (or mention) the location of Tantalus.

Question Difficulty: Medium

Question ID f114cbf0

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Transitions	

ID: f114cbf0

A firefly uses specialized muscles to draw oxygen into its lower abdomen through narrow tubes, triggering a chemical reaction whereby the oxygen combines with chemicals in the firefly’s abdomen to produce a glow. _____ when the firefly stops drawing in oxygen, the reaction—and the glow—cease.

Which choice completes the text with the most logical transition?

- A. For instance,
- B. By contrast,
- C. Specifically,
- D. In conclusion,

ID: f114cbf0 Answer

Correct Answer: B

Rationale

Choice B is the best answer. “By contrast” logically signals that the information in this sentence—that a firefly’s glow ceases when it stops drawing in oxygen—contrasts with the previous sentence’s discussion of the processes that cause a firefly to begin to glow.

Choice A is incorrect because “for instance” illogically signals that the information in the sentence exemplifies the previous sentence’s discussion of how a firefly begins to glow. Instead, it contrasts with the previous sentence’s discussion. Choice C is incorrect because “specifically” illogically signals that the information in the sentence provides specific details elaborating on the previous sentence’s discussion of how a firefly begins to glow. Instead, it contrasts with the previous sentence’s discussion. Choice D is incorrect because “in conclusion” illogically signals that the information in the sentence sums up the previous sentence’s discussion of how a firefly begins to glow. Instead, it contrasts with the previous sentence’s discussion.

Question Difficulty: Medium

Question ID b7c404d1

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Transitions	

ID: b7c404d1

With her room-sized installation *The Interstitium*, Iranian American artist Laleh Mehran succeeded in creating a space that felt, as intended, both “familiar and distant.” _____ with a video screen placed at the far end of the coal slag-encrusted room, her installation was reminiscent of a typical movie theater—albeit one found in a subterranean coal mine.

Which choice completes the text with the most logical transition?

- A. Next,
- B. Nevertheless,
- C. Indeed,
- D. Instead,

ID: b7c404d1 Answer

Correct Answer: C

Rationale

Choice C is the best answer. "Indeed" logically signals that the information in this sentence—that Laleh Mehran’s installation resembled both a typical movie theater and a coal mine—supports the previous sentence’s claim that the space Mehran created felt both "familiar and distant."

Choice A is incorrect because "next" illogically signals that the description of Laleh Mehran’s installation in this sentence is the next step in a process. Rather, it supports the previous sentence’s claim about Mehran’s installation. Choice B is incorrect because "nevertheless" illogically signals that the information in this sentence is true despite the claim about Laleh Mehran’s installation in the previous sentence. Rather, it supports that claim. Choice D is incorrect because "instead" illogically signals that this sentence presents an alternative to the previous sentence’s claim about Laleh Mehran’s installation. Rather, it supports that claim.

Question Difficulty: Medium

Question ID d9d314d9

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	

ID: d9d314d9

While researching a topic, a student has taken the following notes:

- Pinnipeds, which include seals, sea lions, and walruses, live in and around water.
- Pinnipeds are descended not from sea animals but from four-legged, land-dwelling carnivores.
- Canadian paleobiologist Natalia Rybczynski recently found a fossil with four legs, webbed toes, and the skull and teeth of a seal.
- Rybczynski refers to her rare find as a “transitional fossil.”
- The fossil illustrates an early stage in the evolution of pinnipeds from their land-dwelling ancestors.

The student wants to emphasize the fossil’s significance. Which choice most effectively uses relevant information from the notes to accomplish this goal?

- Canadian paleobiologist Natalia Rybczynski’s fossil has the skull and teeth of a seal, which, like sea lions and walruses, is
- A. a pinniped.
 - B. Pinnipeds are descended from four-legged, land-dwelling carnivores; a fossil that resembles both was recently found.
 - C. Having four legs but the skull and teeth of a seal, the rare fossil illustrates an early stage in the evolution of pinnipeds from their land-dwelling ancestors.
 - D. A “transitional fossil” was recently found by paleobiologist Natalia Rybczynski.

ID: d9d314d9 Answer

Correct Answer: C

Rationale

Choice C is the best answer. The sentence effectively emphasizes the fossil’s significance, explaining that the fossil is rare and illustrates an early stage in the evolution of pinnipeds from their land-dwelling ancestors.

Choice A is incorrect. The sentence describes the fossil Rybczynski found; it doesn’t emphasize the fossil’s significance.

Choice B is incorrect. The sentence mentions that a fossil resembling both pinnipeds and their ancestors was found; it doesn’t emphasize the fossil’s significance.

Choice D is incorrect. The sentence notes a term used to describe the fossil Rybczynski found; it doesn’t emphasize the fossil’s significance.

Question Difficulty: Medium

Question ID 9e3a215b

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Transitions	

ID: 9e3a215b

A 2022 study by researchers Hala Altamimi and Qiaozhen Liu investigated the relationship between nonprofit arts organizations’ spending and performance. _____ the researchers examined the correlation between how much 22,328 US arts nonprofits spent on overhead—operational costs such as equipment and fundraising—and how many people attended their events (a measure of overall success).

Which choice completes the text with the most logical transition?

- A. Thus,
- B. In addition,
- C. By comparison,
- D. Specifically,

ID: 9e3a215b Answer

Correct Answer: D

Rationale

Choice D is the best answer. "Specifically" logically signals that the information in this sentence—that the researchers examined the overhead costs and attendance at events of 22,328 nonprofits—provides specific, precise details elaborating on how the researchers investigated the relationship between nonprofits’ spending and performance.

Choice A is incorrect. "Thus" illogically signals that the information in this sentence is a result or consequence of the researchers’ investigation of nonprofits’ spending and performance. Instead, it specifies how they examined that correlation. Choice B is incorrect. "In addition" illogically signals that the information in this sentence is merely an additional fact about the researchers’ investigation of nonprofits’ spending and performance. Instead, it specifies how they examined that correlation. Choice C is incorrect. "By comparison" illogically signals that the information in this sentence is being compared to the researchers’ investigation of nonprofits’ spending and performance. Instead, it specifies how they examined that correlation.

Question Difficulty: Medium

Question ID ce282575

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	

ID: ce282575

While researching a topic, a student has taken the following notes:

- J.R.R. Tolkien’s 1937 novel *The Hobbit* features two maps.
- The novel opens with a reproduction of the map that the characters use on their quest.
- This map introduces readers to the fictional world they are about to enter.
- The novel closes with a map depicting every stop on the characters’ journey.
- That map allows readers to reconstruct the story they have just read.

The student wants to contrast the purposes of the two maps in *The Hobbit*. Which choice most effectively uses relevant information from the notes to accomplish this goal?

- The Hobbit*’s opening map introduces readers to the fictional world they are about to enter, while the closing map allows A. them to reconstruct the story they have just read.
- The Hobbit*, a novel published by J.R.R. Tolkien in 1937, features a reproduction of a map that the characters use on their B. quest, as well as a map that appears at the end of the novel.
- C. *The Hobbit*’s two maps, one opening and one closing the novel, each serve a purpose for readers.
- D. In 1937, author J.R.R. Tolkien published *The Hobbit*, a novel featuring both an opening and a closing map.

ID: ce282575 Answer

Correct Answer: A

Rationale

Choice A is the best answer. The sentence contrasts the purposes of the two maps in *The Hobbit*, noting that the opening map introduces readers to the book’s fictional world, while the closing map helps readers reconstruct the story. The word “while” helps signal a contrast between the purposes of the maps.

Choice B is incorrect. While the sentence mentions the two maps, it doesn’t contrast the maps’ purposes. Choice C is incorrect. While the sentence mentions the two maps and notes that each has a purpose, it doesn’t specify what those purposes are or how they contrast. Choice D is incorrect. While the sentence mentions the two maps, it doesn’t contrast the maps’ purposes.

Question Difficulty: Medium

Question ID b8eec031

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Transitions	

ID: b8eec031

Researchers Helena Mihaljević-Brandt, Lucía Santamaría, and Marco Tullney report that while mathematicians may have traditionally worked alone, evidence points to a shift in the opposite direction. _____ mathematicians are choosing to collaborate with their peers—a trend illustrated by a rise in the number of mathematics publications credited to multiple authors.

Which choice completes the text with the most logical transition?

- A. Similarly,
- B. For this reason,
- C. Furthermore,
- D. Increasingly,

ID: b8eec031 Answer

Correct Answer: D

Rationale

Choice D is the best answer. “Increasingly” logically signals that the claim in this sentence—that mathematicians are collaborating with their peers—marks a change relative to what was traditionally done. As the previous sentence explains, while mathematicians may have traditionally worked alone, evidence points to a shift in the opposite direction. The claim describes the shift: a rise in collaboration.

Choice A is incorrect because “similarly” illogically signals that the claim in this sentence is similar to, but separate from, the previous claim about the shift away from mathematicians working alone. Instead, the claim about the rise in collaboration elaborates on the previous claim, describing the shift. Choice B is incorrect because “for this reason” illogically signals that the claim in this sentence is caused by the previous claim about the shift away from mathematicians working alone. Instead, the claim about the rise in collaboration elaborates on the previous claim, describing the shift. Choice C is incorrect because “furthermore” illogically signals that the claim in this sentence is in addition to the previous claim about the shift away from mathematicians working alone. Instead, the claim about the rise in collaboration elaborates on the previous claim, describing the shift.

Question Difficulty: Medium

Question ID 273c2f12

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Transitions	

ID: 273c2f12

Jeffrey Gibson’s sculptural object *KNOW YOUR MAGIC, BABY*, an Everlast-brand exercise bag embroidered with multicolored beads and a fringe associated with the dances of the Ojibwe people, stitches together—literally and figuratively—recognizable symbols from both Native and non-Native cultures. _____ Gibson’s piece also blurs the distinction between contemporary art and traditional crafts.

Which choice completes the text with the most logical transition?

- A. Conversely,
- B. In so doing,
- C. For instance,
- D. In particular,

ID: 273c2f12 Answer

Correct Answer: B

Rationale

Choice B is the best answer. "In so doing" logically signals that the information in this sentence about Gibson’s piece—that it blurs the distinction between contemporary art and traditional crafts—is a result or consequence of the piece’s blending of particular Native and non-Native cultural symbols.

Choice A is incorrect. "Conversely" illogically signals that the information in this sentence contrasts with the previous information about the blending of particular cultural symbols in Gibson’s piece. Instead, it presents a result or consequence of that information. Choice C is incorrect. "For instance" illogically signals that this sentence provides an example supporting the previous information about the blending of particular cultural symbols in Gibson’s piece. Instead, it presents a result or consequence of that information. Choice D is incorrect. "In particular" illogically signals that this sentence provides specific details elaborating on the previous information about the blending of particular cultural symbols in Gibson’s piece. Instead, it presents a result or consequence of that information.

Question Difficulty: Medium

Question ID 9e34720b

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Transitions	

ID: 9e34720b

Although those who migrated to California in 1849 dreamed of finding gold nuggets in streambeds, the state’s richest deposits were buried deeply in rock, beyond the reach of individual prospectors. _____ by 1852, many had given up their fortune-hunting dreams and gone to work for one of the large companies capable of managing California’s complex mining operations.

Which choice completes the text with the most logical transition?

- A. Furthermore,
- B. Still,
- C. Consequently,
- D. Next,

ID: 9e34720b Answer

Correct Answer: C

Rationale

Choice C is the best answer. “Consequently” logically signals that the information in this sentence—that many individual gold prospectors gave up their fortune-hunting dreams and became employees of mining companies—is a result or consequence of the previous information about the inaccessibility of the state’s gold deposits.

Choice A is incorrect because “furthermore” illogically signals that the information in this sentence merely adds to the previous information about the inaccessibility of the state’s gold deposits. Instead, it’s a result or consequence of that information. Choice B is incorrect because “still” illogically signals that the information in this sentence offers a contrast or exception to the previous information about the inaccessibility of the state’s gold deposits. Instead, it’s a result or consequence of that information. Choice D is incorrect because “next” illogically signals that the information in this sentence is the next step in a process. Instead, it’s a result or consequence of the previous information about the inaccessibility of the state’s gold deposits.

Question Difficulty: Medium

Question ID 1469d23a

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	

ID: 1469d23a

While researching a topic, a student has taken the following notes:

- Etel Adnan was a Lebanese American poet and artist known for making many leporellos.
- A leporello is an artist’s book that is folded accordion style.
- When the book is expanded, the artist’s work is revealed, and its zigzag shape allows it to stand on its own.
- Her leporello *December from My Window* (1993) features a panoramic landscape.
- It is painted using ink and watercolor.

The student wants to describe Adnan’s *December from My Window* to an audience already familiar with leporellos. Which choice most effectively uses relevant information from the notes to accomplish this goal?

- Featuring a panoramic landscape, the 1993 work is one of Adnan’s many leporellos, which are accordion-style folded
- A. books that when expanded reveal the artist’s work.
- When expanded, Adnan’s 1993 leporello *December from My Window* reveals a panoramic landscape painted in ink and
- B. watercolor.
- Known for making many other accordion-style folded books called leporellos, Adnan created *December from My Window*
- C. in 1993.
- A leporello, such as Adnan’s *December from My Window*, is folded accordion style, and due to its zigzag shape it is able to
- D. stand on its own when fully expanded.

ID: 1469d23a Answer

Correct Answer: B

Rationale

Choice B is the best answer. This choice describes Adnan’s *December from My Window* in a way that assumes the audience is already familiar with leporellos and focuses on the specific features of the work—its content and medium.

Choice A is incorrect. This choice isn’t suited for an audience already familiar with leporellos. A familiar audience wouldn’t need to have the term defined or explained. Choice C is incorrect. This choice doesn’t describe Adnan’s *December from My Window*. It mentions the year and the type of work but not the content or the medium. In addition, it provides a simple definition of leporellos, making this an inappropriate choice for an audience already familiar with leporellos. Choice D is incorrect. This choice isn’t suited for an audience already familiar with leporellos. A familiar audience wouldn’t need to have the term defined.

Question Difficulty: Medium

Question ID 3ea7372e

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	

ID: 3ea7372e

While researching a topic, a student has taken the following notes:

In the art world, the term biennial traditionally refers to an art exhibition that takes place every two years in a single location.

Such biennials are held in New York, Berlin, and Venice.

In 2006, artists Ed Gomez and Luis Hernandez founded the unconventional MexiCali Biennial.

The MexiCali Biennial hosts exhibitions in different venues on both sides of the US-Mexico border.

The MexiCali Biennial has taken place on an uneven schedule, with exhibitions in 2006, 2009–10, 2013, and 2018–20.

The student wants to emphasize a difference between the MexiCali Biennial and traditional biennials. Which choice most effectively uses relevant information from the notes to accomplish this goal?

- In 2006, artists Ed Gomez and Luis Hernandez founded the MexiCali Biennial, which has taken place in 2006, 2009–10, 2013, and 2018–20.
- A. 2013, and 2018–20.
- B. Unlike traditional biennials, the MexiCali Biennial hosts exhibitions in different venues on an uneven schedule.
- The term biennial traditionally refers to an art exhibition that takes place every two years in a single location, not to
- C. exhibitions hosted at a variety of times and venues.
- D. Biennial exhibitions have been held in New York, Berlin, and Venice but also on both sides of the US-Mexico border.

ID: 3ea7372e Answer

Correct Answer: B

Rationale

Choice B is the best answer. The sentence effectively emphasizes a difference between the MexiCali Biennial and traditional biennials, stating that the MexiCali Biennial is unlike traditional biennials because it hosts exhibitions in different venues on an uneven schedule.

Choice A is incorrect. The sentence indicates who founded the MexiCali Biennial and the years this biennial has taken place; it doesn't emphasize a difference between the MexiCali Biennial and traditional biennials. Choice C is incorrect. While the sentence clarifies the traditional meaning of biennial with language that could apply to the MexiCali Biennial, it doesn't mention the MexiCali Biennial by name. Therefore, the sentence doesn't effectively emphasize a difference between the MexiCali Biennial and traditional biennials. Choice D is incorrect. The sentence notes locations where various biennial exhibitions have been held; it doesn't emphasize a difference between the MexiCali Biennial and traditional biennials.

Question Difficulty: Medium

Question ID 0839a4b9

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Transitions	

ID: 0839a4b9

The Coastal Futures Conservatory in Virginia is known for creating aural representations of ecological data. One such effort combines underwater audio recorded in seagrass beds with data that track rising carbon levels in the seagrass. As carbon levels increase, the audio is correspondingly distorted; _____ listeners can “hear” the changes in the carbon levels.

Which choice completes the text with the most logical transition?

- A. furthermore,
- B. by comparison,
- C. for instance,
- D. thus,

ID: 0839a4b9 Answer

Correct Answer: D

Rationale

Choice D is the best answer. "Thus" logically signals that the information in this clause—that listeners can "hear" carbon levels increasing—is a result of the previous information about the audio distorting as carbon levels increase.

Choice A is incorrect because "furthermore" illogically signals that the information in this clause merely adds to the previous information about the audio distorting as carbon levels rise. Instead, the listeners’ ability to "hear" carbon levels increasing is a result of that distortion. Choice B is incorrect because "by comparison" illogically signals that the information in this clause is being compared to the information about the audio distorting as carbon levels rise. Instead, the listeners’ ability to "hear" carbon levels increasing is a result of that distortion. Choice C is incorrect because "for instance" illogically signals that the information in this clause is an example of how the audio distorts as carbon levels rise. Instead, the audio was distorted for the express purpose of representing ecological data; the listeners’ ability to "hear" carbon levels increasing is a direct, intended result of the distortion, not merely an example of it.

Question Difficulty: Medium

Question ID ab1f424a

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Transitions	

ID: ab1f424a

Working together with the Navajo Nation Department of Water Resources, Dr. Lani Tsinnajinnie analyzed data about snowpack levels in the Chuska Mountains. She found that the snowpack (the amount of snow on the ground) was deepest in early March at lower elevations. At higher elevations, _____ the snowpack was deepest in mid-March.

Which choice completes the text with the most logical transition?

- A. in other words,
- B. for instance,
- C. on the other hand,
- D. in summary,

ID: ab1f424a Answer

Correct Answer: C

Rationale

Choice C is the best answer. "On the other hand" logically signals that the information in the sentence—that the snowpack at higher elevations in the Chuska Mountains was deepest in mid-March—contrasts with the previous information about the snowpack at lower elevations being deepest in early March.

Choice A is incorrect because "in other words" illogically signals that information in the sentence is merely a paraphrase or restatement of the previous information about the snowpack at lower elevations. Instead, the information about the snowpack at higher elevations contrasts with that information. Choice B is incorrect because "for instance" illogically signals that the information in the sentence exemplifies the previous information about the snowpack at lower elevations. Instead, the information about the snowpack at higher elevations contrasts with that information. Choice D is incorrect because "in summary" illogically signals that the information in the sentence summarizes the previous information about the snowpack at lower elevations. Instead, the information about the snowpack at higher elevations contrasts with that information.

Question Difficulty: Medium

Question ID 28a46cb0

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	

ID: 28a46cb0

While researching a topic, a student has taken the following notes:

- The international Slow Food movement was founded in 1989 with the signing of the “Slow Food Manifesto.”
- The movement promotes universal access to healthy, high-quality food.
- It calls for sustainable food production practices that protect local environments, ecosystems, and biodiversity.
- It advocates for fair treatment of and compensation for food production workers.
- The Slow Food USA organization was founded in 2000.

The student wants to introduce the Slow Food movement to a new audience. Which choice most effectively uses relevant information from the notes to accomplish this goal?

- The international Slow Food movement, founded in 1989, promotes universal access to healthy, high-quality food that is
- A. produced sustainably by workers who are treated and compensated fairly.
 - B. the Slow Food USA organization was founded in 2000.
 - C. The Slow Food movement advocates for food production workers.
 - D. Goals of the movement include universal access to healthy, high-quality food and sustainable food practices.

ID: 28a46cb0 Answer

Correct Answer: A

Rationale

Choice A is the best answer. The sentence effectively introduces the Slow Food movement to a new audience, explaining that the movement, which was founded in 1989, promotes universal access to high-quality and healthy food that is produced sustainably by workers who are treated fairly.

Choice B is incorrect. While the sentence indicates when the international Slow Food movement and the Slow Food USA organization were founded, it doesn’t effectively introduce the movement to a new audience. Choice C is incorrect. While the sentence notes that the Slow Food movement includes advocacy for food production workers, it doesn’t effectively introduce the movement to a new audience. Choice D is incorrect. While the sentence describes some of the goals of the Slow Food movement, it doesn’t effectively introduce the movement to a new audience.

Question Difficulty: Medium

Question ID 82ec9628

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Transitions	

ID: 82ec9628

Archaeologist Sue Brunning explains why the seventh-century ship burial site at Sutton Hoo in England was likely the tomb of a king. First, the gold artifacts inside the ship suggest that the person buried with them was a wealthy and respected leader. _____ the massive effort required to bury the ship would likely only have been undertaken for a king.

Which choice completes the text with the most logical transition?

- A. Instead,
- B. Still,
- C. Specifically,
- D. Second,

ID: 82ec9628 Answer

Correct Answer: D

Rationale

Choice D is the best answer. “Second” logically signals that the information in this sentence—that the effort to bury the ship would likely only have been made for a king—joins the information in the previous sentence (“first...”) in supporting Brunning’s claim that the burial site was likely the tomb of a king.

Choice A is incorrect because “instead” illogically signals that the information in this sentence presents an alternative or substitute to the previous information about the gold artifacts inside the ship. Rather, this sentence presents a second piece of information that supports Brunning’s claim. Choice B is incorrect because “still” illogically signals that the information in this sentence exists in contrast to or despite the previous information about the gold artifacts inside the ship. Instead, this sentence presents a second piece of information that supports Brunning’s claim. Choice C is incorrect because “specifically” illogically signals that the information in this sentence specifies or elaborates on the previous information about the gold artifacts inside the ship. Instead, this sentence presents a second piece of information that supports Brunning’s claim.

Question Difficulty: Medium

Question ID 2b5f4bdc

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Transitions	

ID: 2b5f4bdc

In the early 1900s, Jovita Idár fought injustice on both sides of the Mexico–United States border. As a reporter for the Texas newspaper *La Crónica*, she voiced support for the Mexican people’s revolt against authoritarian rule. _____ she founded the League of Mexican Women, a group that advocated for the rights of Mexican Americans.

Which choice completes the text with the most logical transition?

- A. Additionally,
- B. In conclusion,
- C. For example,
- D. Rather,

ID: 2b5f4bdc Answer

Correct Answer: A

Rationale

Choice A is the best answer because “additionally” logically signals that the information in this sentence—that Idár founded the League of Mexican Women—is another instance of Idár fighting injustice, this time advocating for the rights of Mexican Americans.

Choice B is incorrect because “in conclusion” illogically signals that the information in this sentence sums up or concludes the discussion of Idár’s support for the Mexican people’s revolt. Instead, the founding of the League of Mexican Women is a separate instance of Idár fighting injustice. Choice C is incorrect because “for example” illogically signals that the information in this sentence is an example of how, as a newspaper reporter, Idár voiced support for the Mexican people’s revolt. Instead, the founding of the League of Mexican Women is a separate instance of Idár fighting injustice, this time in support of Mexican Americans. Choice D is incorrect because “rather” illogically signals that the information in this sentence offers a contrast or exception to the previous information about Idár’s support for the Mexican people’s revolt. Instead, the founding of the League of Mexican Women is a separate instance of Idár fighting injustice.

Question Difficulty: Medium

Question ID ed80971c

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	

ID: ed80971c

While researching a topic, a student has taken the following notes:

- The Pueblo of Zuni is located about 150 miles west of Albuquerque, New Mexico.
- It is the traditional home of the A:shiwi (Zuni) people.
- The A:shiwi A:wan Museum and Heritage Center was established by tribal members in 1992.
- Its mission is stated on its website: “As a tribal museum and heritage center for the Zuni people and by the Zuni people we work to provide learning experiences that emphasize A:shiwi ways of knowing, as well as exploring modern concepts of knowledge and the transfer of knowledge.”

The student wants to emphasize how long the museum has existed. Which choice most effectively uses relevant information from the notes to accomplish this goal?

- A. The Pueblo of Zuni is home to the A:shiwi A:wan Museum and Heritage Center, which was founded by tribal members.
- B. The A:shiwi A:wan Museum and Heritage Center has served the Pueblo of Zuni since 1992.
- C. According to its website, the A:shiwi A:wan Museum and Heritage Center (founded in the 1990s) works to “emphasize A:shiwi ways of knowing.”
- D. Knowledge has been one of the central themes of the A:shiwi A:wan Museum and Heritage Center from its founding.

ID: ed80971c Answer

Correct Answer: B

Rationale

Choice B is the best answer. This choice effectively uses information from the notes to emphasize how long the museum has existed. It says that the museum has existed since 1992.

Choice A is incorrect. This choice doesn’t emphasize how long the museum has existed. It doesn’t say when the museum was founded. Choice C is incorrect. This choice doesn’t emphasize how long the museum has existed. It doesn’t say the exact date of the museum’s founding. Rather, it emphasizes the museum’s mission. Choice D is incorrect. This choice doesn’t emphasize how long the museum has existed. It doesn’t say when the museum was founded.

Question Difficulty: Medium

Question ID 114bbce6

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	

ID: 114bbce6

While researching a topic, a student has taken the following notes:

- Earthquakes start at a point called a “focus” and spread out from there as seismic waves.
- The two types of seismic waves that travel beneath Earth’s surface are primary waves (P waves) and secondary waves (S waves).
- P waves travel more quickly beneath Earth’s surface than do S waves.
- P waves compress and expand the ground, causing it to move backward and forward.
- S waves cause the ground to move from side to side.

The student wants to emphasize a similarity between P waves and S waves. Which choice most effectively uses relevant information from the notes to accomplish this goal?

- A. P waves and S waves both travel beneath Earth’s surface, causing the ground to move.
- B. P waves travel away from an earthquake’s starting point at a higher rate of speed than do S waves.
- C. Spreading out from the focus of an earthquake, P waves move the ground backward and forward.
- D. Although P waves and S waves start at the same point, they behave very differently.

ID: 114bbce6 Answer

Correct Answer: A

Rationale

Choice A is the best answer. The sentence emphasizes a similarity between P waves and S waves, noting that they both travel beneath Earth’s surface, thereby causing the ground to move.

Choice B is incorrect. The sentence emphasizes a difference between P waves and S waves, noting that P waves travel faster than S waves; it doesn’t emphasize a similarity between the two types of waves. Choice C is incorrect. The sentence emphasizes how P waves move; it doesn’t emphasize a similarity between P waves and S waves. Choice D is incorrect. While the sentence acknowledges that P waves and S waves start at the same point, it doesn’t emphasize a similarity; instead, the sentence emphasizes a difference between the two types of waves, noting that they behave very differently.

Question Difficulty: Medium

Question ID 52b31d7b

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Transitions	

ID: 52b31d7b

In November 1934, Amrita Sher-Gil was living in what must have seemed like the ideal city for a young artist: Paris. She was studying firsthand the color-saturated style of France’s modernist masters and beginning to make a name for herself as a painter. _____ Sher-Gil longed to return to her childhood home of India; only there, she believed, could her art truly flourish.

Which choice completes the text with the most logical transition?

- A. Still,
- B. Therefore,
- C. Indeed,
- D. Furthermore,

ID: 52b31d7b Answer

Correct Answer: A

Rationale

Choice A is the best answer. “Still” logically signals that the information about Sher-Gil in this sentence—that she longed to leave Paris and return to India—contrasts with what one would expect after reading about Sher-Gil’s experiences in Paris in the previous sentences.

Choice B is incorrect because “therefore” illogically signals that the information about Sher-Gil in this sentence is a result or consequence of the descriptions in the previous sentences. Instead, this information contrasts with what one would expect after reading about Sher-Gil’s experiences in Paris. Choice C is incorrect because “indeed” illogically signals that the information about Sher-Gil in this sentence offers additional emphasis in support of the descriptions in the previous sentences. Instead, this information contrasts with what one would expect after reading about Sher-Gil’s experiences in Paris. Choice D is incorrect because “furthermore” illogically signals that the information about Sher-Gil in this sentence offers additional support for or confirmation of the descriptions in the previous sentences. Instead, this information contrasts with what one would expect after reading about Sher-Gil’s experiences in Paris.

Question Difficulty: Medium

Question ID a86c0b1b

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	

ID: a86c0b1b

While researching a topic, a student has taken the following notes:

- Ancient Native American and Australian Aboriginal cultures described the Pleiades star cluster as having seven stars.
- It was referred to as the Seven Sisters in the mythology of ancient Greece.
- Today, the cluster appears to have only six stars.
- Two of the stars have moved so close together that they now appear as one.

The student wants to specify the reason the Pleiades’ appearance changed. Which choice most effectively uses relevant information from the notes to accomplish this goal?

- Ancient Native American and Australian Aboriginal cultures described the Pleiades, which was referred to in Greek mythology as the Seven Sisters, as having seven stars.
- Although once referred to as the Seven Sisters, the Pleiades appears to have only six stars today.
- In the time since ancient cultures described the Pleiades as having seven stars, two of the cluster’s stars have moved so close together that they now appear as one.
- The Pleiades has seven stars, but two are so close together that they appear to be a single star.

ID: a86c0b1b Answer

Correct Answer: C

Rationale

Choice C is the best answer. The sentence specifies the reason the Pleiades’ appearance changed, noting that two of the cluster’s stars have moved so close together that they now appear as one star.

Choice A is incorrect. The sentence specifies how ancient Native American and Australian Aboriginal cultures described the Pleiades; it doesn’t specify the reason the Pleiades’ appearance changed. Choice B is incorrect. The sentence describes the appearance of the Pleiades today; it doesn’t specify the reason the Pleiades’ appearance changed. Choice D is incorrect. The sentence explains why two of the Pleiades’ stars appear to be a single star; it doesn’t specify the reason the Pleiades’ appearance changed.

Question Difficulty: Medium

Question ID e2eb70b9

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	

ID: e2eb70b9

While researching a topic, a student has taken the following notes:

- Traditionally, manufacturers have dyed denim jeans blue by dipping them in a solution containing indigo powder. Indigo doesn’t dissolve in just water, so manufacturers must mix hazardous chemicals with water to dissolve the powder.
- Textile researcher Smriti Rai discovered a process for dyeing blue jeans without chemicals. Rai added indigo powder to a hydrogel containing nanocellulose and produced a dye that could be spread directly onto the denim.
- Nanocellulose is a natural, plant-based substance that separates the molecules of indigo powder.

The student wants to emphasize a difference between the two approaches to dyeing blue jeans. Which choice most effectively uses relevant information from the notes to accomplish this goal?

- Though created using a different process, Rai’s dye contains the same ingredient as the dye produced by blue jean
- A. manufacturers.
 - Nanocellulose is a natural, plant-based substance that separates the molecules of indigo powder, which doesn’t dissolve
 - B. in water.
 - C. The traditional approach to dyeing blue jeans is to dip them in a solution containing hazardous chemicals.
 - Rai’s approach substitutes a natural, plant-based substance for the hazardous chemicals that manufacturers have
 - D. traditionally used.

ID: e2eb70b9 Answer

Correct Answer: D

Rationale

Choice D is the best answer. The sentence emphasizes a difference between the two approaches to dyeing blue jeans, noting that Rai’s approach uses a natural, plant-based substance in place of hazardous chemicals.

Choice A is incorrect. The sentence emphasizes a similarity between the dyes used in the two approaches, noting that the dyes contain the same ingredient; it doesn’t emphasize a difference between the two approaches to dyeing blue jeans.

Choice B is incorrect. The sentence explains what nanocellulose is; it doesn’t emphasize a difference between the two approaches to dyeing blue jeans.

Choice C is incorrect. The sentence explains the traditional approach to dyeing blue jeans; it doesn’t emphasize a difference between the traditional approach and Rai’s approach.

Question Difficulty: Medium

Question ID 86b78078

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	

ID: 86b78078

While researching a topic, a student has taken the following notes:

Samuel Selvon was a Trinidadian author. *The Lonely Londoners* is one of his most celebrated novels.

Selvon published the novel in 1956.

It is about a group of men who emigrate from the Caribbean to Great Britain after World War II.

Some of *The Lonely Londoners*’ characters also appear in Selvon’s later novel *Moses Ascending*.

The student wants to introduce Samuel Selvon and his novel *The Lonely Londoners* to a new audience. Which choice most effectively uses relevant information from the notes to accomplish this goal?

- In 1956, Trinidadian author Samuel Selvon published one of his most celebrated novels, *The Lonely Londoners*, which is
- A. about a group of men who emigrate from the Caribbean to Great Britain after World War II.
 - B. Samuel Selvon wrote the novel *Moses Ascending* after he wrote *The Lonely Londoners*.
 - C. *The Lonely Londoners*, a celebrated novel that was published in 1956, depicts post–World War II Caribbean migration from the perspective of a Trinidadian author.
 - D. Some of the characters who appear in Samuel Selvon’s *Moses Ascending* also appear in *The Lonely Londoners*.

ID: 86b78078 Answer

Correct Answer: A

Rationale

Choice A is the best answer. By noting that Selvon is a Trinidadian author and indicating that *The Lonely Londoners*, published in 1956, is about a group of men who emigrate from the Caribbean to Great Britain after World War II, the sentence effectively introduces Samuel Selvon and his novel to a new audience.

Choice B is incorrect. The sentence indicates the order in which two of Selvon’s novels were written; it doesn’t introduce Samuel Selvon and *The Lonely Londoners* to a new audience. Choice C is incorrect. While the sentence describes the novel *The Lonely Londoners*, it doesn’t mention its author, Samuel Selvon, by name and thus doesn’t effectively introduce him to a new audience. Choice D is incorrect. The sentence indicates that two of Selvon’s novels include the same characters; it doesn’t introduce Samuel Selvon and *The Lonely Londoners* to a new audience.

Question Difficulty: Medium

Question ID 4f9ee1dc

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	

ID: 4f9ee1dc

While researching a topic, a student has taken the following notes:

- Seven species of sea turtle exist today. Five sea turtle species can be found in the Atlantic Ocean.
- One of those species is the Kemp’s ridley sea turtle. Its scientific name is *Lepidochelys kempii*.
- Another of those species is the olive ridley sea turtle. Its scientific name is *Lepidochelys olivacea*.

The student wants to emphasize a similarity between the two sea turtle species. Which choice most effectively uses relevant information from the notes to accomplish this goal?

- A. Among the seven species of sea turtle is the olive ridley sea turtle, which can be found in the Atlantic Ocean.

The Kemp’s ridley sea turtle is referred to as *Lepidochelys kempii*, while the olive ridley sea turtle is referred to as *Lepidochelys olivacea*.
- C. Both the Kemp’s ridley sea turtle and the olive ridley sea turtle can be found in the Atlantic Ocean.

The Kemp’s ridley sea turtle (*Lepidochelys kempii*) and the olive ridley sea turtle (*Lepidochelys olivacea*) are different species.

ID: 4f9ee1dc Answer

Correct Answer: C

Rationale

Choice C is the best answer. The sentence emphasizes a similarity between the two sea turtle species: both can be found in the Atlantic Ocean.

Choice A is incorrect. The sentence indicates that the olive ridley sea turtle is one of seven species of sea turtle; it fails to mention the Kemp’s ridley sea turtle. Choice B is incorrect. The sentence emphasizes a difference between the two sea turtle species rather than a similarity. Choice D is incorrect. The sentence emphasizes a difference between the two sea turtle species rather than a similarity.

Question Difficulty: Medium

Question ID 2c7dced2

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	

ID: 2c7dced2

While researching a topic, a student has taken the following notes:

- Sister Rosetta Tharpe (1915–1973) was a gospel musician.
- She was known for her passionate vocals and electric guitar performances.
- In 2018, Tharpe was inducted into the Rock and Roll Hall of Fame for her major impact on the genre.
- According to songwriter Roxie Moore, “[Tharpe] would sing until you cried and then she would sing until you danced for joy.”
- According to guitarist Celisse Henderson, “Tharpe is the unquestioned founding mother of rock ’n’ roll.”

The student wants to use a quotation to support a claim about Tharpe’s contribution to rock ’n’ roll. Which choice most effectively uses relevant information from the notes to accomplish this goal?

- Gospel musician Sister Rosetta Tharpe had a major impact on rock ’n’ roll, and she was known for her passionate electric guitar performances.
- Celisse Henderson believes that Sister Rosetta Tharpe had a major impact on the development of rock ’n’ roll.
- Sister Rosetta Tharpe had such a major impact on rock ’n’ roll that Celisse Henderson called her “the unquestioned founding mother” of the genre.
- A gospel musician, Sister Rosetta Tharpe had the ability to “sing until you cried” and also “until you danced for joy,” according to Roxie Moore.

ID: 2c7dced2 Answer

Correct Answer: C

Rationale

Choice C is the best answer. The sentence uses the quotation from Henderson to support a claim about Tharpe’s contribution to rock ’n’ roll, noting that the impact Tharpe had on the genre led Henderson to call her “the unquestioned founding mother of rock ’n’ roll.”

Choice A is incorrect. While the sentence makes the claim that Tharpe had a major impact on rock ’n’ roll, it doesn’t use a quotation to support this claim. Choice B is incorrect. The sentence presents Henderson’s opinion that Tharpe had a major impact on rock ’n’ roll, but it doesn’t use a quotation to support this claim. Choice D is incorrect. While the sentence includes a quotation about audience reactions to Tharpe’s music, the sentence describes Tharpe as a gospel musician; it doesn’t support a claim about her contribution to rock ’n’ roll.

Question Difficulty: Medium

Question ID 5a5e22b5

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	

ID: 5a5e22b5

While researching a topic, a student has taken the following notes:

- Gravitational waves are powerful ripples that originate in deep space and eventually pass through Earth.
- The Laser Interferometer Gravitational Wave Observatory (LIGO) is a physics study that began in 2002.
- LIGO’s goal is to detect and analyze gravitational waves.
- LIGO uses a pair of massive gravitational wave detectors called interferometers that are thousands of miles apart.
- In 2015, for the first time in history, LIGO researchers detected a gravitational wave passing through Earth.

The student wants to present LIGO’s aim and methodology. Which choice most effectively uses relevant information from the notes to accomplish this goal?

- In 2015, LIGO’s massive interferometers detected a powerful ripple that originated in deep space and eventually passed through Earth.
- Though the physics study LIGO began in 2002, its massive interferometers didn’t detect a gravitational wave until 2015.
- To achieve its aims, LIGO uses a pair of massive interferometers that are thousands of miles apart.
- A physics study designed to detect and analyze gravitational waves, LIGO uses a pair of massive interferometers that are thousands of miles apart.

ID: 5a5e22b5 Answer

Correct Answer: D

Rationale

Choice D is the best answer. The sentence effectively presents the LIGO study’s aim, noting that it is designed to detect and analyze gravitational waves, and its methodology (it uses two interferometers to detect the waves).

Choice A is incorrect. The sentence describes a finding from the LIGO study; it doesn’t effectively present the study’s aim or its methodology. Choice B is incorrect. The sentence provides background information about the LIGO study’s timeline; it doesn’t effectively present the study’s aim or its methodology. Choice C is incorrect. The sentence touches on LIGO’s methodology, noting that it uses two interferometers, but doesn’t indicate what the study’s aims are.

Question Difficulty: Medium

Question ID bc56170b

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	

ID: bc56170b

While researching a topic, a student has taken the following notes:

- Most, but not all, of the Moon’s oxygen comes from the Sun, via solar wind.
- Cosmochemist Kentaro Terada from Osaka University wondered if some of the unaccounted-for oxygen could be coming from Earth.
- In 2008, he analyzed data from the Japanese satellite Kaguya.
- Kaguya gathered data about gases and particles it encountered while orbiting the Moon.
- Based on the Kaguya data, Terada confirmed his suspicion that Earth is sending oxygen to the Moon.

The student wants to emphasize the aim of the research study. Which choice most effectively uses relevant information from the notes to accomplish this goal?

- A. As it orbited the Moon, the Kaguya satellite collected data that was later analyzed by cosmochemist Kentaro Terada.
- B. Before 2008, Kentaro Terada wondered if the Moon was receiving some of its oxygen from Earth.
- C. Cosmochemist Kentaro Terada set out to determine whether some of the Moon’s oxygen was coming from Earth.
- D. Kentaro Terada’s study determined that Earth is sending a small amount of oxygen to the Moon.

ID: bc56170b Answer

Correct Answer: C

Rationale

Choice C is the best answer. The sentence emphasizes the aim, or goal, of the research study, noting what Terada set out to do: determine whether some of the Moon’s oxygen was coming from Earth.

Choice A is incorrect. The sentence focuses on how the Kaguya satellite collected data; it doesn’t emphasize the aim of the research study. Choice B is incorrect. While the sentence mentions what Terada was curious about before conducting the research study, it doesn’t emphasize his study’s aim. Choice D is incorrect. The sentence presents the research study’s conclusion; it doesn’t emphasize the study’s aim.

Question Difficulty: Medium

Question ID 6351062d

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	

ID: 6351062d

While researching a topic, a student has taken the following notes:

- In the late 1890s, over 14,000 unique varieties of apples were grown in the US.
- The rise of industrial agriculture in the mid-1900s narrowed the range of commercially grown crops.
- Thousands of apple varieties considered less suitable for commercial growth were lost.
- Today, only 15 apple varieties dominate the market, making up 90% of apples purchased in the US.
- The Lost Apple Project, based in Washington State, attempts to find and grow lost apple varieties.

The student wants to emphasize the decline in unique apple varieties in the US and specify why this decline occurred. Which choice most effectively uses relevant information from the notes to accomplish these goals?

- The Lost Apple Project is dedicated to finding some of the apple varieties lost following a shift in agricultural practices in the mid-1900s.
- While over 14,000 apple varieties were grown in the US in the late 1890s, only 15 unique varieties make up most of the apples sold today.
- Since the rise of industrial agriculture, US farmers have mainly grown the same few unique apple varieties, resulting in the loss of thousands of varieties less suitable for commercial growth.
- As industrial agriculture rose to prominence in the mid-1900s, the number of crops selected for cultivation decreased dramatically.

ID: 6351062d Answer

Correct Answer: C

Rationale

Choice C is the best answer. The sentence emphasizes the decline in unique apple varieties in the US and specifies why this decline occurred, noting that thousands of apple varieties were lost because US farmers started mainly growing the same few unique varieties.

Choice A is incorrect. The sentence introduces the Lost Apple Project; it doesn't emphasize the decline in unique apple varieties in the US and specify why this decline occurred. Choice B is incorrect. While the sentence emphasizes the decline in unique apple varieties in the US, it doesn't explain why this decline occurred. Choice D is incorrect. The sentence emphasizes the general decline of crop varieties in the mid-1900s; it doesn't emphasize the specific decline in unique apple varieties in the US.

Question Difficulty: Medium

Question ID 5bb7dc03

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	

ID: 5bb7dc03

While researching a topic, a student has taken the following notes:

- Started in 1925, the Scripps National Spelling Bee is a US-based spelling competition.
- The words used in the competition have diverse linguistic origins.
- In 2008, Sameer Mishra won by correctly spelling the word “guerdon.”
- “Guerdon” derives from the Anglo-French word “guerdun.”
- In 2009, Kavya Shivashankar won by correctly spelling the word “Laodicean.”
- “Laodicean” derives from the ancient Greek word “Laodíkeia.”

The student wants to emphasize a difference in the origins of the two words. Which choice most effectively uses relevant information from the notes to accomplish this goal?

- “Guerdon,” the final word of the 2008 Scripps National Spelling Bee, is of Anglo-French origin, while the following year’s
- A. final word, “Laodicean,” derives from ancient Greek.
- In 2008, Sameer Mishra won the Scripps National Spelling Bee by correctly spelling the word “guerdon”; however, the
- B. following year, Kavya Shivashankar won based on spelling the word “Laodicean.”
- Kavya Shivashankar won the 2009 Scripps National Spelling Bee by correctly spelling “Laodicean,” which derives from the
- C. ancient Greek word “Laodíkeia.”
- D. The Scripps National Spelling Bee uses words from diverse linguistic origins, such as “guerdon” and “Laodicean.”

ID: 5bb7dc03 Answer

Correct Answer: A

Rationale

Choice A is the best answer. Noting that “guerdon” is of Anglo-French origin and “Laodicean” is of ancient Greek origin, the sentence uses “while” to emphasize a difference in the origins of the two words.

Choice B is incorrect. While the sentence emphasizes two words used in the Scripps National Spelling Bee, it doesn’t emphasize (or mention) the words’ linguistic origins. Choice C is incorrect. While the sentence specifies the linguistic origin of one word used in the Scripps National Spelling Bee, it doesn’t mention the other word or emphasize a difference in the two words’ origins. Choice D is incorrect. While the sentence makes a generalization about words used in the Scripps National Spelling Bee, it doesn’t emphasize a difference in the words’ origins.

Question Difficulty: Medium

Question ID e6b57c9b

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	

ID: e6b57c9b

While researching a topic, a student has taken the following notes:

- Iranian scholar Abu Rayhan al-Biruni studied Earth’s physical features.
- He theorized that a large landmass existed west of Europe and east of Asia.
- Al-Biruni published his landmass theory in 1037 CE.

The student wants to specify when al-Biruni published his landmass theory. Which choice most effectively uses relevant information from the notes to accomplish this goal?

- A. In 1037 CE, al-Biruni published his theory that a large landmass existed west of Europe and east of Asia.
- B. Al-Biruni, who studied Earth’s physical features, published a theory about a large landmass.
- C. Al-Biruni was an Iranian scholar who studied Earth’s physical features.

An Iranian scholar who studied Earth’s physical features, al-Biruni theorized that a large landmass existed west of Europe and east of Asia.

ID: e6b57c9b Answer

Correct Answer: A

Rationale

Choice A is the best answer. The sentence specifies when al-Biruni published his landmass theory, indicating that it was published in the year 1037 CE.

Choice B is incorrect. While the sentence notes that al-Biruni published a landmass theory, it doesn’t specify when the theory was published. Choice C is incorrect. The sentence identifies al-Biruni as a scholar of Earth’s physical features; it doesn’t specify when he published his landmass theory. Choice D is incorrect. The sentence describes al-Biruni’s landmass theory; it doesn’t specify when the theory was published.

Question Difficulty: Medium

Question ID 9e2d4ef7

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	

ID: 9e2d4ef7

While researching a topic, a student has taken the following notes:

- Abdulrazak Gurnah was awarded the 2021 Nobel Prize in Literature.
- Gurnah was born in Zanzibar in East Africa and currently lives in the United Kingdom.
- Many readers have singled out Gurnah’s 1994 book *Paradise* for praise.
- Paradise* is a historical novel about events that occurred in colonial East Africa.

The student wants to introduce *Paradise* to an audience unfamiliar with the novel and its author. Which choice most effectively uses relevant information from the notes to accomplish this goal?

- Abdulrazak Gurnah, who wrote *Paradise* and later was awarded the Nobel Prize in Literature, was born in Zanzibar in East A. Africa and currently lives in the United Kingdom.
- Many readers have singled out Abdulrazak Gurnah’s 1994 book *Paradise*, a historical novel about colonial East Africa, for B. praise.
- A much-praised historical novel about colonial East Africa, *Paradise* (1994) was written by Abdulrazak Gurnah, winner of C. the 2021 Nobel Prize in Literature.
- D. *Paradise* is a historical novel about events that occurred in colonial East Africa, Abdulrazak Gurnah’s homeland.

ID: 9e2d4ef7 Answer

Correct Answer: C

Rationale

Choice C is the best answer. The sentence effectively introduces *Paradise* to an audience unfamiliar with the novel and its author, describing *Paradise* as a historical novel about colonial East Africa and its author as the winner of the 2021 Nobel Prize in Literature.

Choice A is incorrect. While the sentence introduces Abdulrazak Gurnah to an audience unfamiliar with the author, it doesn’t effectively introduce *Paradise*. Choice B is incorrect. While the sentence provides background information about *Paradise*, it doesn’t effectively introduce the novel to an audience unfamiliar with its author. Choice D is incorrect. While the sentence provides background information about *Paradise*, it doesn’t effectively introduce the novel to an audience unfamiliar with its author.

Question Difficulty: Medium

Question ID 855247c7

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Transitions	

ID: 855247c7

Mary Ellen Pleasant, a successful entrepreneur during the gold rush era, earned the moniker “Mother of Human Rights in California” after successfully challenging discrimination in the state. _____ in 1866, she sued a streetcar company for denying her and other Black riders service, a suit she eventually won when the California Supreme Court declared it illegal for carriers to exclude passengers based on race.

Which choice completes the text with the most logical transition?

- A. For this reason,
- B. Then,
- C. In addition,
- D. Specifically,

ID: 855247c7 Answer

Correct Answer: D

Rationale

Choice D is the best answer. "Specifically" logically signals that the information about Pleasant’s 1866 lawsuit provides specific, precise details elaborating on the previous point that Pleasant successfully challenged discrimination in California.

Choice A is incorrect because "for this reason" illogically signals that Pleasant’s 1866 lawsuit was a result of her successful challenge to discrimination in California. Instead, this sentence provides specific details elaborating on her challenge to discrimination in the state. Choice B is incorrect because "then" illogically signals that Pleasant’s 1866 lawsuit was subsequent to or resulted from her successful challenge to discrimination in California. Instead, this sentence provides specific, precise details elaborating on how she challenged discrimination in the state. Choice C is incorrect because "in addition" illogically signals that the information about Pleasant’s 1866 lawsuit is merely additional to the previous point that Pleasant successfully challenged discrimination in California. Instead, this sentence provides specific details elaborating on how she did so.

Question Difficulty: Medium

Question ID 94f4eech

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	

ID: 94f4eech

While researching a topic, a student has taken the following notes:

- Las sergas de Esplandián was a novel popular in sixteenth-century Spain.
- The novel featured a fictional island inhabited solely by Black women and known as California.
- That same century, Spanish explorers learned of an “island” off the west coast of Mexico.
- They called it California after the island in the novel.
- The “island” was actually the peninsula now known as Baja California (“Lower California”), which lies to the south of the US state of California.

The student wants to emphasize the role a misconception played in the naming of a place. Which choice most effectively uses relevant information from the notes to accomplish this goal?

- A. The novel *Las sergas de Esplandián* featured a fictional island known as California.
To the south of the US state of California lies Baja California (“Lower California”), originally called California after a fictional place.
- B. fictional place.
- C. In the sixteenth century, Spanish explorers learned of a peninsula off the west coast of Mexico and called it California.
- D. Thinking it was an island, Spanish explorers called a peninsula California after an island in a popular novel.

ID: 94f4eech Answer

Correct Answer: D

Rationale

Choice D is the best answer. The sentence emphasizes the role a misconception played in the naming of a place, explaining that Spanish explorers mistook a peninsula for an island and, as a result, named the peninsula after a fictional island, California.

Choice A is incorrect. The sentence mentions a novel that featured a fictional island, California; it doesn’t emphasize the role a misconception played in the naming of a place. Choice B is incorrect. The sentence notes that Baja California was originally named after a fictional place; it doesn’t emphasize the role a misconception—specifically, the Spanish explorers’ mistaken belief that the peninsula was an island—played in the naming of a place. Choice C is incorrect. The sentence indicates when Spanish explorers learned of the peninsula they called California; it doesn’t emphasize the role a misconception played in the naming of a place.

Question ID 99183985

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	

ID: 99183985

While researching a topic, a student has taken the following notes:

- Some sandstone arches in Utah’s Arches National Park have been defaced by tourists’ carvings.
- Park rangers can smooth away some carvings using power grinders.
- For deep carvings, power grinding is not always feasible because it can greatly alter or damage the rock.
- Park rangers can use an infilling technique, which involves filling in carvings with ground sandstone and a bonding agent.
- This technique is minimally invasive.

The student wants to explain an advantage of the infilling technique. Which choice most effectively uses relevant information from the notes to accomplish this goal?

A. To remove carvings from sandstone arches in Utah’s Arches National Park, power grinding is not always feasible.

Filling in carvings with ground sandstone and a bonding agent is less invasive than smoothing them away with a power grinder, which can greatly alter or damage the sandstone arches.

Park rangers can use a power grinding technique to smooth away carvings or fill them in with ground sandstone and a bonding agent.

D. As methods for removing carvings from sandstone, power grinding and infilling differ in their level of invasiveness.

ID: 99183985 Answer

Correct Answer: B

Rationale

Choice B is the best answer. The sentence effectively explains an advantage of infilling: it’s less invasive than using a power grinder.

Choice A is incorrect. The sentence identifies a disadvantage of power grinding; it doesn’t explain an advantage of infilling. Choice C is incorrect. The sentence identifies the two techniques park rangers use; it doesn’t explain an advantage of infilling. Choice D is incorrect. The sentence indicates that power grinding and infilling are different in one aspect; it fails to explain an advantage of infilling.

Question Difficulty: Medium

Question ID 70538b9a

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	

ID: 70538b9a

While researching a topic, a student has taken the following notes:

- In the 1930s, the Imperial Sugar Cane Institute in India sought to limit the country’s dependence on imported sugarcane.
- The institute enlisted botanist Janaki Ammal to breed a local variety of sugarcane.
- She crossbred the imported sugarcane species *Saccharum officinarum* with grasses native to India.
- She succeeded in creating sugarcane hybrids well suited to India’s climate.

The student wants to emphasize Janaki Ammal’s achievement. Which choice most effectively uses relevant information from the notes to accomplish this goal?

- By crossbreeding the imported sugarcane species *Saccharum officinarum* with grasses native to India, Ammal
- A. succeeded in creating sugarcane hybrids well suited to India’s climate.
- In the 1930s, the Imperial Sugar Cane Institute, which enlisted Ammal, sought to limit dependence on imported
- B. sugarcane.
- Ammal was enlisted by the Imperial Sugar Cane Institute at a time when a local variety of sugarcane needed to be
- C. produced.
- As part of efforts to breed a local variety of sugarcane, an imported sugarcane species called *Saccharum officinarum*
- D. was crossbred with grasses native to India.

ID: 70538b9a Answer

Correct Answer: A

Rationale

Choice A is the best answer. The sentence emphasizes Janaki Ammal’s achievement, explaining that she successfully created sugarcane hybrids that are well suited to India’s climate by crossbreeding an imported sugarcane species with grasses native to India.

Choice B is incorrect. The sentence emphasizes the goal of the Imperial Sugar Cane Institute in the 1930s; it doesn’t emphasize Janaki Ammal’s achievement. Choice C is incorrect. While the sentence mentions Ammal, it doesn’t emphasize her achievement of successfully creating sugarcane hybrids. Choice D is incorrect. While the sentence mentions the achievement of crossbreeding imported sugarcane species with grasses native to India, it doesn’t emphasize the achievement as belonging to Janaki Ammal.

Question Difficulty: Medium

Question ID eea351c4

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Transitions	

ID: eea351c4

“Wishcycling”—putting nonrecyclable items into recycling bins under the mistaken belief that those items can be recycled—ultimately does more harm than good. Nonrecyclable items, such as greasy pizza boxes, can contaminate recyclable materials, rendering entire batches unusable. _____ nonrecyclable products can damage recycling plants’ machinery.

Which choice completes the text with the most logical transition?

- A. Fittingly,
- B. On the contrary,
- C. Moreover,
- D. Nevertheless,

ID: eea351c4 Answer

Correct Answer: C

Rationale

Choice C is the best answer. The first sentence tells us that “wishcycling” is harmful, the previous sentence gives us an example, and this sentence gives us another example. So “moreover”—a transition that indicates the addition of another supporting point—fits perfectly here.

Choice A is incorrect. This choice uses a transition that means “appropriately” or “suitably,” which doesn’t make sense in context. This sentence adds another example of how “wishcycling” is harmful, so we’re looking for an addition transition.

Choice B is incorrect. This choice uses a disagreement transition. But this sentence actually agrees with the previous sentence. Both provide examples of how “wishcycling” is harmful. Choice D is incorrect. This choice uses a disagreement transition. But this sentence actually agrees with the previous sentence. Both provide examples of how “wishcycling” is harmful.

Question Difficulty: Medium

Question ID 570dd854

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	

ID: 570dd854

While researching a topic, a student has taken the following notes:

Here I Have Returned is a sculpture by Egyptian American artist Sherin Guirguis. It is a large, curved strip of wood inspired by the shape of a sistrum. A sistrum is a curved musical instrument played by ancient Egyptian priestesses in ceremonies. Guirguis says that the sculpture symbolizes “women who have lifted and supported Egyptian society and culture.” Overall, Guirguis wants her works to “engage audiences in a dialogue about power, agency, and social transformation.”

The student wants to use a quotation from Guirguis to explain what the sculpture represents. Which choice most effectively uses relevant information from the notes to accomplish this goal?

- Guirguis, whose works include a sculpture that is a large, curved strip of wood, has explained that she wants her work to
- A. create a dialogue with audiences.
- Inspired by the sistrum played by Egyptian priestesses, *Here I Have Returned* symbolizes “women who have lifted and
- B. supported Egyptian society and culture,” according to Guirguis.
- According to Guirguis, the curved strip of wood used in *Here I Have Returned* was inspired by the sistrum, a musical
- C. instrument played by ancient Egyptian priestesses in ceremonies.
- Guirguis, the sculptor of *Here I Have Returned*, wants her works to “engage audiences in a dialogue about power, agency,
- D. and social transformation.”

ID: 570dd854 Answer

Correct Answer: B

Rationale

Choice B is the best answer. The sentence uses a quotation from Guirguis to explain what *Here I Have Returned* represents, noting that Guirguis said the sculpture symbolizes "women who have lifted and supported Egyptian society and culture."

Choice A is incorrect. The sentence explains what Guirguis says she wants her work to achieve and provides an example of her work; it doesn't use a quotation to explain what the sculpture represents. Choice C is incorrect. The sentence mentions the instrument whose shape inspired the sculpture but doesn't use a quotation to explain what the sculpture represents. Choice D is incorrect. While the sentence does use a quotation from Guirguis, the quotation explains what she hopes her works in general achieve, not what the sculpture in particular represents.

Question Difficulty: Medium

Question ID 0205e563

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Transitions	

ID: 0205e563

At two weeks old, the time their critical socialization period begins, wolves can smell but cannot yet see or hear. Domesticated dogs, _____ can see, hear, and smell by the end of two weeks. This relative lack of sensory input may help explain why wolves behave so differently around humans than dogs do: from a very young age, wolves are more wary and less exploratory.

Which choice completes the text with the most logical transition?

- A. in other words,
- B. for instance,
- C. by contrast,
- D. accordingly,

ID: 0205e563 Answer

Correct Answer: C

Rationale

Choice C is the best answer. “By contrast” logically signals that the information in this sentence—that dogs can see, hear, and smell by the end of two weeks—contrasts with the preceding information (that wolves can smell but not see or hear at the same age).

Choice A is incorrect because “in other words” illogically signals that the information about domesticated dogs in this sentence paraphrases the information about wolves in the previous sentence. Instead, the information about dogs contrasts with what came before. Choice B is incorrect because “for instance” illogically signals that the information about domesticated dogs in this sentence exemplifies the information about wolves in the previous sentence. Instead, the information about dogs contrasts with what came before. Choice D is incorrect because “accordingly” illogically signals that the information about domesticated dogs in this sentence is in accordance with, or results from, the information about wolves in the previous sentence. Instead, the information about dogs contrasts with what came before.

Question Difficulty: Medium

Question ID efc19153

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	

ID: efc19153

While researching a topic, a student has taken the following notes:

- Just like states have state flags, some cities have city flags.
- Over one hundred US cities have redesigned their flags since 2015.
- The city of Pocatello, Idaho, redesigned its flag after it was named the most poorly designed flag in North America.
- Pocatello’s new flag better represents the city’s mountainous geography and civic priorities.
- Residents consider the new flag to be a meaningful symbol of civic pride.

The student wants to make and support a generalization about the effect of redesigning a city flag. Which choice most effectively uses relevant information from the notes to accomplish this goal?

- Over one hundred US cities have redesigned their flags, including Pocatello, whose flag had been named the most poorly A. designed flag in North America.
- B. Pocatello is just one of over one hundred US cities that have redesigned their flags.
- After it was named the most poorly designed flag in North America, the flag of Pocatello was redesigned to better C. represent the city’s geography and civic priorities.
- Redesigning a poorly designed city flag can create a meaningful symbol of civic pride, as was the case when Pocatello D. redesigned its original flag to better represent its geography and civic priorities.

ID: efc19153 Answer

Correct Answer: D

Rationale

Choice D is the best answer. The sentence makes and supports a generalization about the effect of redesigning a city flag, noting that redesigning a city flag can create a meaningful symbol of civic pride, as was the case when the city of Pocatello redesigned its flag.

Choice A is incorrect because the sentence explains that many US cities have redesigned their flags and provides an example; it doesn’t make and support a generalization about the effect of redesigning a city flag. Choice B is incorrect because the sentence provides an example of a city that redesigned its flag; it doesn’t make and support a generalization about the effect of redesigning a city flag. Choice C is incorrect because the sentence emphasizes why the flag of Pocatello was redesigned; it doesn’t make and support a generalization about the effect of redesigning a city flag.

Question Difficulty: Medium

Question ID 835b101b

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	

ID: 835b101b

While researching a topic, a student has taken the following notes:

- Minnesota defines a lake as an inland body of water of at least 10 acres.
- Wisconsin’s definition of a lake doesn’t take size into account.
- By its own definition, Wisconsin has over 15,000 lakes, many smaller than 10 acres.
- By Minnesota’s definition, Wisconsin has only about 6,000 lakes.

The student wants to contrast Minnesota’s definition of a lake with Wisconsin’s. Which choice most effectively uses relevant information from the notes to accomplish this goal?

- A. Wisconsin, which doesn’t take size into account in defining a lake, claims that it has over 15,000 lakes.
- B. Because its definition of a lake is different from Minnesota’s, it is unclear how many lakes Wisconsin really has.
- C. According to Minnesota’s definition of a lake—an inland body of water of at least 10 acres—Wisconsin has about 6,000 lakes.
- D. Minnesota’s definition of a lake—an inland body of water of at least 10 acres—is more restrictive than Wisconsin’s, which doesn’t take size into account.

ID: 835b101b Answer

Correct Answer: D

Rationale

Choice D is the best answer. The sentence contrasts Minnesota’s definition of a lake with Wisconsin’s, explaining that Minnesota’s definition (which takes size into account) is more restrictive than Wisconsin’s definition (which doesn’t).

Choice A is incorrect. While the sentence notes that Wisconsin’s definition of a lake doesn’t take size into account, it doesn’t contrast Minnesota’s definition with Wisconsin’s. Choice B is incorrect. The sentence states that Wisconsin’s definition of a lake is different from Minnesota’s, but it doesn’t clarify how they differ. In other words, it doesn’t contrast Minnesota’s definition with Wisconsin’s. Choice C is incorrect. The sentence indicates how many lakes Wisconsin has according to Minnesota’s definition of a lake, but it doesn’t clarify how the states’ definitions differ. In other words, it doesn’t contrast Minnesota’s definition with Wisconsin’s.

Question Difficulty: Medium

Question ID 39d1a519

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Transitions	

ID: 39d1a519

To discover which fruit varieties were grown in Italy’s Umbria region before the introduction of industrial farming, botanist Isabella Dalla Ragione often turns to centuries-old lists of cooking ingredients. _____ she analyzes Renaissance paintings of Umbria, as they can provide accurate representations of fruits that were grown there long ago.

Which choice completes the text with the most logical transition?

- A. In sum,
- B. Instead,
- C. Thus,
- D. Additionally,

ID: 39d1a519 Answer

Correct Answer: D

Rationale

Choice D is the best answer. “Additionally” logically signals that the painting analysis discussed in this sentence is an additional part of the botany research discussed in the previous sentence. That is, to research which fruits Umbrians grew in the past, the botanist analyzes old paintings in addition to looking at old lists of ingredients.

Choice A is incorrect because “in sum” illogically signals that the painting analysis discussed in this sentence is a concluding summary of the botany research discussed in the previous sentence. Instead, the painting analysis is an additional part of that research. Choice B is incorrect because “instead” illogically signals that the painting analysis discussed in this sentence is an alternative to the botany research discussed in the previous sentence. Rather, the painting analysis is an additional part of that research. Choice C is incorrect because “thus” illogically signals that the painting analysis discussed in this sentence is a result of the botany research discussed in the previous sentence. Instead, the painting analysis is an additional part of that research.

Question Difficulty: Medium

Question ID aec8d3e8

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	

ID: aec8d3e8

While researching a topic, a student has taken the following notes:

- Chemical leavening agents cause carbon dioxide to be released within a liquid batter, making the batter rise as it bakes.
- Baking soda and baking powder are chemical leavening agents. Baking soda is pure sodium bicarbonate.
- To produce carbon dioxide, baking soda needs to be mixed with liquid and an acidic ingredient such as honey.
- Baking powder is a mixture of sodium bicarbonate and an acid.
- To produce carbon dioxide, baking powder needs to be mixed with liquid but not with an acidic ingredient.

The student wants to emphasize a difference between baking soda and baking powder. Which choice most effectively uses relevant information from the notes to accomplish this goal?

- A. To make batters rise, bakers use chemical leavening agents such as baking soda and baking powder.

Baking soda and baking powder are chemical leavening agents that, when mixed with other ingredients, cause carbon dioxide to be released within a batter.
- B. Baking soda is pure sodium bicarbonate, and honey is a type of acidic ingredient.

To produce carbon dioxide within a liquid batter, baking soda needs to be mixed with an acidic ingredient, whereas baking powder does not.

ID: aec8d3e8 Answer

Correct Answer: D

Rationale

Choice D is the best answer. The sentence emphasizes a difference between baking soda and baking powder, noting that baking soda needs to be mixed with an acidic ingredient to produce carbon dioxide but baking powder doesn't.

Choice A is incorrect. The sentence focuses on what bakers use to make batters rise; it doesn't emphasize a difference between baking soda and baking powder. Choice B is incorrect. The sentence provides a general description of baking soda and baking powder; it doesn't emphasize a difference between them. Choice C is incorrect. The sentence explains what baking soda and honey are; it doesn't emphasize a difference between baking soda and baking powder.

Question Difficulty: Medium

Question ID 7fa2b1ee

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	

ID: 7fa2b1ee

While researching a topic, a student has taken the following notes:

- In meteorology, an air mass is a large body of air with generally uniform humidity and temperature.
- Air masses are commonly classified by two-letter names.
- The first letter indicates the humidity of the air mass, while the second letter indicates the temperature.
- cA (continental arctic) means dry and cold, for example. mT (maritime tropical) means moist and warm.
- This classification system is based on the work of a Swedish meteorologist named Tor Bergeron (1891–1977).

The student wants to provide an example of an air mass. Which choice most effectively uses relevant information from the notes to accomplish this goal?

- A. Air masses are large bodies of air with generally uniform humidity and temperature.

The air mass classification system uses two-letter names and is based on the work of Tor Bergeron, a Swedish meteorologist.
- B. meteorologist.
- C. Air masses are commonly classified by a two-letter name that indicates humidity and temperature.
- D. One type of air mass is known as a cA, or continental arctic, air mass because it is dry and cold.

ID: 7fa2b1ee Answer

Correct Answer: D

Rationale

Choice D is the best answer. The sentence provides an example of an air mass: the cA, or continental arctic, air mass.

Choice A is incorrect. The sentence provides a general definition of air masses; it doesn't provide an example of a specific air mass. Choice B is incorrect. The sentence describes the system used to classify air masses; it doesn't provide an example of a specific air mass. Choice C is incorrect. The sentence explains how air masses are classified; it doesn't provide an example of a specific air mass.

Question Difficulty: Medium

Question ID 92dec236

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	

ID: 92dec236

While researching a topic, a student has taken the following notes:

- Maika'i Tubbs is a Native Hawaiian sculptor and installation artist.
- His work has been shown in the United States, Canada, Japan, and Germany, among other places.
- Many of his sculptures feature discarded objects.
- His work *Erasure* (2008) includes discarded audiocassette tapes and magnets.
- His work *Home Grown* (2009) includes discarded pushpins, plastic plates and forks, and wood.

The student wants to emphasize a similarity between the two works. Which choice most effectively uses relevant information from the notes to accomplish this goal?

- Erasure* (2008) uses discarded objects such as audiocassette tapes and magnets; *Home Grown* (2009), however, includes pushpins, plastic plates and forks, and wood.
- Tubbs's work, which often features discarded objects, has been shown both within the United States and abroad.
- Like many of Tubbs's sculptures, both *Erasure* and *Home Grown* include discarded objects: *Erasure* uses audiocassette tapes, and *Home Grown* uses plastic forks.
- Tubbs completed *Erasure* in 2008 and *Home Grown* in 2009.

ID: 92dec236 Answer

Correct Answer: C

Rationale

Choice C is the best answer. This choice most effectively emphasizes "a similarity" by identifying a trait the works share: "both *Erasure* and *Home Grown* include discarded objects."

Choice A is incorrect. This choice doesn't "emphasize a similarity." Instead, this choice shows how the materials used in the two works are different. Notice the use of the contrast word "however." Choice B is incorrect. This choice doesn't "emphasize a similarity between the two works." While it says that Tubbs's work "often features discarded objects," it doesn't provide details about the two works in question. Choice D is incorrect. This choice doesn't "emphasize a similarity." Instead, this choice shows how the works were produced at different times.

Question Difficulty: Medium

Question ID 259d16ac

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	

ID: 259d16ac

While researching a topic, a student has taken the following notes:

- In 1859, the novel *Adam Bede* was published in England.
- According to the novel’s title page, the author’s name was George Eliot.
- George Eliot was widely assumed to be a pseudonym.
- A pseudonym is a fake name used to conceal an author’s identity.
- A woman named Mary Ann Evans later revealed herself as the novel’s real author.

The student wants to identify the real author of *Adam Bede*. Which choice most effectively uses relevant information from the notes to accomplish this goal?

- A. The real author of *Adam Bede* was Mary Ann Evans, who published the novel using the pseudonym George Eliot.

George Eliot, which *Adam Bede*’s title page indicated was the name of the novel’s author, was widely assumed to be a pseudonym.
- C. The title page of the novel *Adam Bede* indicated that the author’s name was George Eliot.
- D. A woman who had used a pseudonym to conceal her identity later revealed herself as the real author of *Adam Bede*.

ID: 259d16ac Answer

Correct Answer: A

Rationale

Choice A is the best answer. The sentence identifies the novel’s real author, explaining that Mary Ann Evans published the novel under the pseudonym of George Eliot.

Choice B is incorrect. The sentence explains that George Eliot was assumed to be a pseudonym; it doesn’t identify the novel’s real author. Choice C is incorrect. The sentence specifies the pseudonym used on the novel’s title page; it doesn’t identify the novel’s real author. Choice D is incorrect. While the sentence indicates that the novel’s real author used a pseudonym, it doesn’t identify that author as Mary Ann Evans.

Question Difficulty: Medium

Question ID e1b00a70

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Transitions	

ID: e1b00a70

The more diverse and wide ranging an animal’s behaviors, the larger and more energy demanding the animal’s brain tends to be. _____ from an evolutionary perspective, animals that perform only basic actions should allocate fewer resources to growing and maintaining brain tissue. The specialized subtypes of ants within colonies provide an opportunity to explore this hypothesis.

Which choice completes the text with the most logical transition?

- A. Subsequently,
- B. Besides,
- C. Nevertheless,
- D. Thus,

ID: e1b00a70 Answer

Correct Answer: D

Rationale

Choice D is the best answer. “Thus” logically signals that the claim in this sentence—that animals performing only basic actions should allocate relatively few resources to their brain tissue—is a consequence of the previous sentence’s claim about the energy demands of animal brains (namely, that the more diverse an animal’s behaviors, the more energy its brain needs).

Choice A is incorrect because “subsequently” illogically signals that the claim in this sentence occurs later in a chronological sequence of events than the previous sentence’s claim about the energy demands of animal brains. Instead, the second claim is a consequence of the first. Choice B is incorrect because “besides” illogically signals that the claim in this sentence provides a separate point in addition to, or apart from, the previous sentence’s claim about the energy demands of animal brains. Instead, the second claim is a consequence of the first. Choice C is incorrect because “nevertheless” illogically signals that the claim in this sentence is true in spite of the previous sentence’s claim about the energy demands of animal brains. Instead, the second claim is a consequence of the first.

Question Difficulty: Medium
